President Says Enquist Must Sail in Twenty-Four Hours or Intern.

ADMIRAL ASKS MORE TIME

Contrary to Neutrality to Repair Damage Suffered in Battle. Linievitch Still Hungry for More Fighting.

WASHINGTON, June 8 .- The following announcement was made at the War Department late this afternoon;

The Secretary of War is in receipt of a cablegram from Governor Wright announcing that Secretary Taft's instructions of yesterday had been formallytransmitted to the Russian Admiral and at the same time inquiry was made whether he would be required to put to sea within 24 hours after taking on coal and provisions sufficient to take his ships to the nearest port. He said that up to this time only enough cost and sufficient food supplies for use in the harbor to last from day to day had been given, as they arrived in Manila, with practically no

coal or provisions. overnor Wright submitted the question as to whether they were entitled to take on coal and provisions to carry them to nearest port. Governor Wright was advised that the President directed that the 14-hour limit must be strictly enforced; that necessary supplies and coal must be taken on within that time, these istructions being consistent with those of June 5 stating that, as the Russian Admiral's ships were suffering from damage due to battle, the American policy was to restrict all operations of belligerents at neutral ports. In other words, that time should not be given for repair of damages suffered in battle

BLOW UP SHIP IN DESPERATION

Plot of Russian Engineers Discovered Only Just in Time.

SPECIAL CABLE. TOKIO, June 7.-It transpires that, while the Japanese prize crew was convoying captured battleship Orel to Sassebe ten of the Russian engineers who were still in charge of the vessel's engines conspired to blow up the ship and themselves by exploding her magazine. The plot was nearing consummation when discovered, and the Japanese Captain in command had the engineers brought on deck and

Captain Yunick, who was lying desper ately wounded in his bunk, was suspected and was sentenced to be abot. He was brought on deck in a condition of collapse and stated that he knew nothing about it. He was finally exonerated, but died within

NO LEADER OR AMMUNITION

Handicaps of Russian Fleet After First Day's Battle.

GUNSHU PASS, Manchuria, June 6 .-The Associated Press correspondent is informed that reports have been recrived at army headquarters from Viadivostok saying that the naval defeat was due largely to lack of leadership after Rojestvensky was wounded. the engagement being carried on practically without signals after the first hour, no attempt being made to adapt the movements of the fleet to the maneuvers of the Japanese. Nobody on board any vessel in the fleet was in the secret of Rojestvensky's plans, the ommander-in-chief's only confidant being Rear-Admiral Voelkersam, who died early in the fight.

Up to the time of the buttle, these reports say, fortune favored the Russlans, there being almost no sick in the hospitals and all the snips being in ed condition.

No one in the fleet cherished any illusions. At the most it was hoped that enough vessels would reach Vladivostok to threaten Japan's absolute controi of the sea and to make the Japanese pay as dearly as possible for every ship lost. The hopes of the Russians went no further than this.

The Russian ships and enough coal to reach Vladivostok, but there was an inadequate supply of shells and ammunition for a prolonged battle, whereas the Japanese, operating near their base, were not under the necessity of stowing away enormous quantities of coal and could carry a double quantity of shells or replenish their ammunition

from nuxillary vessels. The Russian officers assert that the ships surviving the first day's battle must have been practically out of ammunition.

The Japanese guns, the report says were of greater range than those of over the battleship division and striking the transports and the unarmored

Some Fear War With Germany, but

Conciliation Is Likely. PARIS, June 6 .- The Cablnet discussion today, while covering the general

volving possibilities of war has been parrowly avoided, and that it will be difficult even now to reconcile the dif-ferences already created. Premier Rou-vier appeared to give some ground for this view when he appealed to the Dep-uties not to press their interpeliations regarding Morocco, saying that pending conditions require the fullest exercise of patriotism.

f patriotism

Some of the evening papers give san-sational prominence to the lack of preparedness of French defenses German border. However, the Temps presents a more conservative view, de-claring that the past error in seeking to ignore Germany must now be changed to a method of conciliation, an equal desire in that direction being displayed on both sides. "The interests at stake, on both sides. The interests at stake," says the Temps, "are in the highest degree susceptible of arrangement, and both parties, agreeing in wishing for a solution, will doubtless work together with frankness and good will in order to attain it." This is the prevailing tone of the influential press.

RUSSIA INFORMED OF TERMS

Inquiry at Washington Elicits Rules for Internment.

WASHINGTON, June 6.—The Russian Embussy here has made inquiry of the State Department as to the conditions of this Government respecting the Russian warships at Manila. Acting Secretary of State Loomis has replied by informing the Embassy of the general nature of the instructions called yesterday to Governor Wright and Admiral Train.

The text of Secretary Taft's cable message to Governor Wright is as fol-

message to Governor Wright is as foi-

"Advise Russian Admiral that, as his ships are suffering from damages due to battle, and our policy is to restrict all operations of belligerents in neu-tral ports, the President cannot consent to any repairs unless the ships are interned at Manila until the close of hostilities. You are directed after notifying the Russian Admiral of this conclusion, to turn over the execution of this order to Admiral Train, who has been advised accordingly by the Secretary of the Navy."

Alexander Joins Vladimir and Alexleff in Urging Putility of Struggle_Roosevelt Careful Not to Offend Russia.

ST. PETERSBURG, June L-G A. M.) Beyond the statement that the advisa-bility of confiding the opening of peace negotiations to President Roosevelt, in the event that Emperor Nicholas shall decide that the time has arrived to indi-cate to Japan Russia's desire to end the struggle, was presented in a favorable struggle, was presented in a favorable light, no definite statement can be made at this hour regarding the result of For-eign Minister Lamsdorff's audience with the Emperor on the subject of Count

Cassini's telegram communicating the practical tender of good offices. It can, however, be stated in addition that Grand Duke Alexander Michaelovitch, the Emperor's brother-in-law, who other member of the imperial family, and who until the disaster to the Russian fleet was the most uncompromising advocate of war to the last ditch, has joined Grand Duke Vladimir, uncle of the Emperor, in counseling the conclusion of peace. Grand Duke Vladimir, at a recent family council, while urging the futility of continuing the struggle, stoutly maintained that the loss of Man ly maintained that the loss of Man-churia, and even of a portion of Elastern Siberia, would not mean the ruln of Russia's prestige, but that she could continue to grow in influence and power, just as Great Britain did after the loss of her American colonies. Another important convert made by the

Checks Discussion of Peace Lest Russia Be Offended.

WASHINGTON. June 6.-Pending the decision of the Czar, regarding war or peace in the Far East, the President and European Ambassadors, with whom he is daily conferring, have agreed that silence regarding their activities is necessary, and word to this effect has been passed along, lest Russia take offense and go

contrary to what the neutral powers be-lieve to be for her own advantage. Count Cassini, the Russian Ambassador, remains without advices from St. Petersburg that throw any light on the proba-ble policy of the Czar. The Ambassador has not yet received an acknowledgment of his long cablegram of last week redirecting him to sail within 24 hours after noon of June 7 or intern. He will be permitted to take coal and supplies emough to reach the next port. Rear-Admiral Enquist has asked for further time, pending advices from 8t. Petersburg.

While M. Delcasse was at the head of the French Foreign Office his initimacy with Lord Landowne gave to London and Paris a splendiff opportunity for concerted action that would induce Russia and Japan to talk of peace. The retirement of M. Deleasse must necessarily have an effect upon the Anglo-French entente as well as the Franco-Russian alliance. Not only was M. Delcasse largely responsible for the former, but he was genresponsible for the former, but he was generally recognized as the best friend Russia possessed in France. The radical party, which is now in power, is not as friendly to Russia as was Delease. Without Delease's adolesance Lord Lansdowne can hardly hope to accomplish much toward peace. This intest development will only increase the opportunity for the Fresident, with the assistance already assured him from Berlin, to lead the neutral powers in assisting peace negotiations by concerted moral sunsion rather than by any act savoring of intervention or mediation.
