French Foreign Minister's Resignation Final.

### MOROCCAN CRISIS IS CAUSE

Failure of His Policy Condemned by His Colleagues - Rouvier As-PACES Charge and Will Seek to Conciliate Germany.

PARIS, June 6.-M. Delcasse today pre sented his resignation and definitely tired from any further direction of the foreign affairs of France. His resig-ignation was submitted at a meeting of the Council of Ministers held at the Elysee Palace under the presidency of President Loubet. The Council opened at 1:39 P. M., and insted nearly two hours. The meeting aroused deep interest, owing to the belief that the Morocco situation old result in a ministerial crisis,

M. Delcasse, in submitting his resigna-ion, explained the reasons leading up to its action. He said he recognized that differences of view had arisen between himself and his colleagues relative to the execution of the foreign policy of France, particularly concerning the direction of the negotiations with Morocco. Therefore he had believed it to be destrable in the interest of the ministry and of the country, to place his resignation in the hands of the President.

hands of the President.

Premier Rouvier, in responding, expressed the regrets of his colleagues, adding a tribute to M. Delcasse for past services. M. Rouvier thereupon shrounced that he would assume ad interim the duties of Minister of Foreign Affairs.

The resignation of M. Delcasse is due to the failure of the Prench policy in Morocco, the Suitan having practically the Bultan having practically rejected France's plans for the reform of the administration of Morocco by pro-posing that the whole subject be sub-mitted to a conference of the powers sig-natory of the treaty of Madrid. M. Deltendered his resignation April II, e was prevailed upon to retain the lie of Foreign Affairs. On that occasion, in addition to the controversy over his Morocco policy, the Foreign Minister had been severely criticised for his al-leged action in permitting French officials in the Far East to connive at Russian breaches of neutrality in those waters, which the French Government emphati-

vier would hold the portfolio of Foreign Affairs indefinitely, probably yielding the Ministry of Pinance (which he directs in addition to being Premier), in order to devote his entire attention to the so-lution of the troubles in the foreign sit-

The final meeting between M. Delcasse and his colleagues developed unusual in-terest, as he found that their sentiment united against the policy he had pursued.

After explaining his views on the Morocco and other questions, the Ministers presented their views, thus showing complete discord between him and them. M. e himself said the divergences y existing had reached a stage to found all his colleagues opposed Therefore, he added, it only remained for him to surrender his portfolio. M. Delcasse's reffrement from the Coun-il Chamber brought out numerous evi-lences of personal esteem which, however, did not remove the somewhat painful feeling caused by his resignation following a divergence of views. M. Bou-vier will take up the affairs of the For-eign Office tonight. If he decides to eventually select a successor it will probably be one of the Ambassadors, Jules Cambon, formerly at Washington, and M. Barrere, now at Rome, being the most prominent under consideration.

Diplomats attach much importance to M. Rouvier's taking up Foreign Affairs, as they regard him as being a statesman of unusual force. The change in the cabinet is expected to ameliorate the Moroccan situation, first, because Germany, being satisfied with the fall of the Minister who ignored her during the early stage of the Morocco negotiations, will be disposed to treat in a most friendly spirit with his successor, and also because the new policy of France will probably seek to secure Germany's co-operation rather than prolong the resistance to Germany's claims.

PARIS, June 6 .- A Presidential decree accepting the resignation of M. Delcasse and appointing Premier Rouvier, foreign minister ad interim, appears in the Journal Official this morning.

There does not seem to be much hope from a French point of view in an inter national conference, although some weeks ago it was declared that, even if such congress should take place, it would turn to the advantage of France.
