Not Leaving Within Time Limit, Rule Will Be Enforced.

WASHINGTON, June 7. — Governor Wright cabled the War Department from Manila today, acknowledging receipt of his instructions of yesterday relative to the Russian ships. Admiral Train has been instructed by Governor Wright to take charge of the Russian vessels, in the event that they do not leave Manila within the El-hour limit, which period, it is estimated, will expire by 8 o'clock this evening. Washington time, and as the Russian Admiral reports that his

thips are unable to go to sea, thei interment by that time will be an estab-listed fact. The United States will from now on be responsible to the Japanese government for the detention of the Rus-sian ships in Manila harbor until the end t the war. So far, no protest has come to the

State Department from the Russian gov-erament against the application of the new rule of international law laid down by the President. The only communication that has passed within the past 24 hours was a request from the Russian government to be informed of the names of the killed and wounded among the Russian crews, which was promptly granted.

CRITICISE ROOSEVELT'S ORDER

Russian Papers Accuse Him of Favoring Japan. ST. PETERSBURG, June 7. - The

Russian press, notably the Novoe Vremya and the Russ, the latter frequently reflecting the views of the Foreign Office, display a great deal of resentment against the United States for enforcing the 24-hour rule in the case of the three Russian cruisers at Manila. The Russ quotes American neutrality regulations, and contends that President Roosevelt in applying the principle that only injuries ceived during a storm, and not in battle, can be repaired in American ports not only narrows the American regulations but infringes recognized principles of international law. This paper declares it has official warrant for the statement that representations have been made to Washington on the subdisposition of the Russian warships and

The Japanese Minister is reported to have hastened to express his gratitude to America for this act of impartiality which is partial to Japan. We trust Mr. Roosevelt is satisfied with his success.

The Admiralty, it can be stated, is reconciled to the interning of the three Russian cruisers at Manila, but opposes on principle the rule that war-ships injured in battle cannot repair their machinery and boilers at neutral ports. The officials add that friction Osliabia, which sank, had geen ttken. ST. PETERSBURG, June 7:-As a result of the meeting of the Council Palace yesterday, instructions were elegraphed this afternoon to the Russian Ambassador at Washington and Puris to the effect that Russia is desiyous of learning Japan's peace condi-L........................

WASHINGTON, June 7 .- Preliminary peace negotiations between Russia and Japan are generally believed to be under way, and it is conceded that President Roosevelt will in all probability act, not as a mediator, but as "the friendly chan-nel of communication." There is as yet no official admission that Russia has accepted what Count Cassini in his cablegram to Count Lamsdorff last week described as "the offer of good will of the President," although instructions to the Ambassador are pelleved to have reached here tonight in a long cablegram which was received at the Russian Embassy quite late and was laid before the Ambassador just before he retired.

All that can be authoritatively said regarding this cablegram is that it conweek. No appointment has yet been made for the Ambassador to see the President, but by one close to Count Camini it was said tonight that it is expected that some appointment will be made within the next

Too Delicate for Discussion.

Immediately after his return from & ong conference with the President, Mr. Takahira, the Japanese Minister, began the preparation of a dispatch to his goverament, upon which he was occur atil quite late. For the first time since the annihilation of the Russian fleet the Minister did not feel at liberty to com-

ment on any phase of the situation. "The situation is too delicate at this moment for me to say anything," he remarked. "When there is something definite, perhaps I may have something to say, but I do not expect anything definite for some days."

Both Fully Trust Rooseveit. It can be stated that the President,

through Mr. Takahira, is endeavoring to get some definite idea regarding Japan's peace terms. Mr. Takahira is giving him all the assistance that he can, but the ment of the President's wishes and to emphasize his personal conviction that the President can be trusted absolutely to guard Japan's legitimate interests. deed, a fortunate phase of the present situation is that both Mr. Takahira and Count Carsini are personally convinced of the President's absolute impartiality, and sincerity of ourpose in the delicate undertaking which he has shouldered.

No Answer From Meyer.

At the White House up to a late hour it was declared that the important cablegram from Mr. Meyer had not yet reached the President. The President remained at the White House throughout the evening, attending, after Mr. Takahira's call, to some work in his library. None of his secretaries were at the executive offices, and it was stated officially that, if the Ambassador's report of his audience with the Czar should be received later tonight, it would not be presented to the President until morning.

Baron Speck von Sternberg, the German Ambassador, returned to Washington tonight. He will probably see the President tomorrow. Sir Mortimer Durand, the British Ambassador, will be here several days longer. He was not summoned by the President, nor has he yet seen the President. Both Ambassadors are keeping their governments fully informed of the developments here, but little activity is yet reported in official advices from Europe.

ST. PETERSBURG, June 8-(1:30 A. M.)-With Ambassador Meyer's delivery to the Emperor yesterday afternoon of President Roosevelt's message tendering his good offices, the prospect of the President's efforts to bring the beiligerents together in peace negotiations is believed be distinctly better. It is equally evident that the situation is exceedingly delicate, Mr. Meyer, when seen by the Associated Press tonight, absolutely declining to say a word regarding his visit to Tsarskoe-Selo, the mission with which he is charged, or the Emperor's

Further resolutions were passed for the reorganization of the executive committee with the precident, the vice-president (Hyde) and compareller as ex-officio-members and four directors who are not officers. The resolution was passed that the salaries of the executive officers should be reduced to correspond with those paid by other transmitten, hanking and, trust corrocations, the amounts to be hereafter determined upon. A further resolution was passed to reduce the general expenses of the solety. It was also resolved that no advances to agents or other agency expecultures should be made without the approval of the executive committee, also that all investments made by the executive committee be made sobject to the approval of the board and that amounts of deposits uniformly carried in hunks and trust companies should be reduced to working balances and the residue invested in approved securities.

The difference of principle in the interpre-tation of the character of the union has pro-voked much misunderstanding between the two peoples and has caused much friction in the interpretation, which during the recent negotiations between the two countries has been laid down by Sweden as against Nor-way. The Norwegian people were bound to perceive the injury to their constitutional right, their independence and their national honor. The union was justified so long as it could contribute to the welfairs and happi-ness of both peoples, while maintaining their pendently of Sweden. One of the causes of the desire in Sweden and Norway for separate consular systems was the fact that Sweden is for the union there stands for us Norwegians our Norwegian fatheriand and for the Swedes their Swedish fatherland, while more valu-able than the political union are the feelprotection and Norway is for free trade, and also because of Norway's more extensive sea trade and other divergencies
