

LONDON GREETSHIM

Alfonso Given Address by Old City Corporation.

LUNCH WITH LORD MAYOR

Spanish King Rides to Guild Hall Under Archway of Flags—Dinner With Distinguished Guest at Lansdowne's House.

LONDON, June 7.—Under improved weather conditions King Alfonso of Spain paid an official visit to the city today and was entertained at luncheon at the Guild Hall by the Lord Mayor and Corporation of London.

Later in the afternoon King Alfonso and King Edward went on a motor car to Ranelagh, where a polo match had been arranged.

Lord Lansdowne, Secretary of State for Foreign Affairs, tonight entertained some 40 gentlemen in honor of King Alfonso. The party included the Archbishop of Canterbury, Whitelaw Reid, the American Ambassador, and a number of other ambassadors and ministers.

The welcome to the young monarch on his way to Guild Hall was of the heartiest description. The procession, which passed under a continuous archway of flags and flowers, was followed by troops. Halts were made at the boundaries of the different boroughs to receive and answer the addresses of the local authorities.

At the conclusion of the presentation of the address of welcome, a procession was formed, King Alfonso escorting the Lady Mayores to the ancient hall, where luncheon was served to a most brilliant company.

King Alfonso expressed his deep gratitude for London's reception, and proposed the health of the Lord Mayor.

The royal party immediately afterwards returned to Buckingham palace. The streets were lined with soldiers and police, who kept the crowds back, and every other precaution was adopted to insure the safety of the King.

Speculation in Cotton Criticized.

MANCHESTER, England, June 7.—The International Cotton Congress today discussed the question of speculation in cotton. Baron Carioni, of Italy, protested against the practice of buying cotton for delivery at distant dates, alleging that it gave gamblers an opportunity to bring disaster to the trade.

TERMS BEING PREPARED

(Continued from First Page.)

ferred back to Washington. Count Cassini has doubtless received instructions from the Emperor. However, it will probably require some little time finally to decide whether success shall crown the President's efforts to end the war.

The fact of Mr. Meyer's visit to Tsarok-Selo is not yet known only in the highest official circles, many diplomats, even being entirely unaware of this important event, but where it is known it has created intense interest.

In the meantime it must be stated that there is not the slightest surface indication of any change in the situation regarding the continuation of the war. Preparations to send troops to the front continue. A new draft of horses from Poland has been made, and a further mobilization of men in the Province of Moscow is announced.

The sudden retirement of the French Foreign Minister, M. Delcasse, who was regarded as not only one of the strongest supporters of the dual alliance, but as one of the staunchest friends of Russia, was a great blow to Russia, and rendered President Roosevelt's friendly tender particularly opportune. Besides, it is known, as set forth in these dispatches last night, that the Emperor has been strongly advised if he decided to open peace negotiations to do so through President Roosevelt.

ALL EYES ON ST. PETERSBURG

Japan Ready to State Terms When Russia Gives Sign.

WASHINGTON, June 7.—Diplomatic Washington tonight was aroused to a point of expectancy unequalled since the inception of war in the Far East by the news from St. Petersburg of the Czar's wish to know Japan's peace terms. This interest was heightened by a call which Mr. Takahira, the Japanese Minister, made at the White House by appointment during the evening. He called shortly after 9 o'clock and immediately went into conference with the President. They remained together about 20 minutes.

HAYS SAIL FOR AMERICA

Reid and His Family Give Secretary a Send-Off.

LONDON, June 7.—Secretary Hay and Mrs. Hay left London at noon for Liverpool, joining the White Star line steamer Baltic at Liverpool, whence they sailed for New York today. The company attended the Secretary at the Secretary of State, who was seen off by Ambassador Reid and Sir Eric S. Ross, Secretary of State, and a few personal friends.

GETS HER \$500,000

Mrs. Asay Will Not Contest Kimberly's Will.

RELATIVES KIND TO HER

Dead Millionaire's Mistress Frankly Admits Facts and His Relatives Concede Her Right to Legacy Under Will.

CHICAGO, June 7.—(Special.)—With the return to Chicago today of Mrs. Elizabeth V. Asay and relatives of Peter L. Kimberly, the mining man and steel manufacturer who died leaving an estate valued at \$1,000,000, came the announcement that there will be no will contest, and that Mrs. Asay will get the \$500,000 left to her by the terms of the Kimberly will.

"There is no reason why I should try to break Mr. Kimberly's will. He has provided me with enough money to live on for the rest of my life and, even if he hadn't, I have means of my own. Any one who could be so good to me when he was alive could not forget me in death."

"I lived as Mr. Kimberly's wife for five years. During that time his relatives, his nephews and other relatives visited us constantly. 'Pet', I used to say to him, 'What can people think of us?' He used to answer me, 'Well, don't they come here? Why haven't they visited us?'

"I never used his name except when we traveled, and then he would register me as his wife at hotels. In New York and San Francisco and other cities I met all his best friends, who knew that I wasn't his wife. I know that the wasn't right, but what could I do? I wondered at the power of money. What can't money do? His friends seemed to think it all right."

Large Bequests to Relatives. Among the beneficiaries are Amos Kimberly, his brother, of Iowa, who inherits 17 1/2 per cent of the estate, and his step-daughter, Mrs. Kate Murdoch, of Salt Lake City, who will receive 5 per cent; Samuel O. Kimberly, Chicago, nephew, \$300,000; Mrs. John F. Murdoch, San Francisco, sister, \$400,000; C. W. Kimberly, Stockton, Utah, nephew, \$300,000; Mrs. Mary J. Sankey, Kiltanning, Pa., niece, \$300,000; Viola J. Webb, Los Angeles, Cal., niece, \$300,000; Mrs. Catherine Kimberly, Newcastle, Pa., sister-in-law, \$200,000; Mrs. Cotton, Newcastle, Pa., niece, \$300,000; Mrs. Williamson, Newcastle, Pa., niece, \$300,000. About 25 per cent was left to charities.

JOHN JOHNSON WOULD WED

Insane Man Chooses Miss Roosevelt as His Bride.

BLOOMINGTON, Ill., June 7.—Today secret service men from Washington arrested John Johnson, a Swede, for writing letters to Alice Roosevelt, Johnson said that he was sent here from Sweden to marry Miss Roosevelt and communicated his mission in letters to the President's daughter. Johnson was at once taken to Jacksonville and committed to the asylum. He was a former inmate, but has been out for two years. He is regarded as harmless, and has been working in a grocery store here.

DON'T USE POOR OIL.

For use on sewing machines, bicycles and all purposes requiring a fine lubricant the best is cheap in the end. Singer oil can only be obtained at Singer stores. L. G. H. E. R. 24 Morrison st. 82 Washington st. 56 Williams ave. Portland, Oregon.

OREL, A TERRIBLE WRECK.

Japanese Shells Reduced Battleship to Battered Shambles. TOKIO, June 7.—A. M. J.—A correspondent of the Associated Press has been permitted to inspect the Russian battleship Orel, now lying at Malgusa. The Orel received a terrible battering. Her hull shows 40 gaping holes pierced by large shells, and many smaller ones where she had been hit. The superstructure, her upper works and upper decks were riddled by shells, steel fragments and splinters. The starboard forward 12-inch gun was smashed ten feet from the muzzle, either by shell or by explosion. A fragment of the gun went over the bridge, smashing the rail, and after carrying away the breech of a 12-pounder, buried itself in the signal locker.

From the main deck upward the condition of the vessel was terrible to behold. Steel partitions were smaller, the gangway was broken and stanchions were wrecked. Gear of various kinds covered the decks, and the state of the alleyways shows that the ship was afloat several times. The marks of the flames increased the scene of desolation. The main armor belt is intact. The turret armor generally withstood the battering of large shells, although two of the largest turrets were rendered unserviceable by shots which struck close to their base. Several smaller guns were dismounted and smashed. A greavesome was a bullet-battered with blood, fragments of flesh and hair.

The Orel is sound structurally, although it will be necessary practically to rebuild the ship. The condition of the ship shows that the crew underwent a terrible ordeal before they surrendered.

WOUNDS COULD NOT SHAKE HIM

Heroic Action of Captain Nebolsin, of the Aurora.

MANILA, June 7.—No deaths have been reported among the Russian officers or sailors since the arrival here of the three Russian cruisers commanded by Rear-Admiral Enquist. Among those who had narrow escape from death is Captain Nebolsin, commander of the Aurora, on which vessel Enquist hoisted his flag after the Orel had been disabled. While Captain Nebolsin was in the conning tower a shell exploded there, but did not injure him. Later he left the bridge of the Aurora in charge of the first officer and went to the main deck in order to supervise the work of subduing the flames, the Aurora being on fire, and of caring for the wounded and killed.

On his way to the main deck another shell exploded near Captain Nebolsin and some fragments hit him, three in the head, one in the right leg and one on the right ankle. The Captain was stunned for a few moments, but recovered and proceeded to look after the wounded. He then returned to the bridge and continued to command the Aurora without receiving any further injury.

He never gave up the command of the vessel at any period of the fight or while on her way here. Chief Surgeon Kravtchuk praises the Captain highly for his courage and endurance.

THE INTERNATIONAL SALES Feature America and Germany in Hosiery and Underwear Shops First Floor. In one of his purchasing trips through Germany, our representative found German folk working on their own for the American market, and side by side with them in the same room were other German workmen making seamless hosiery on American machines for the German market. "Strangely," says the explanation, "is simple. We buy German hosiery and underwear because of its fine texture and shapely lines. Germans don't import our hosiery in any large quantities, but they buy our machinery, and many wear our hosiery because it can be more cleanly made, wears longer and being seamless is more comfortable. Here are special values in both German and American make for today and balance of the week. WOMEN'S 35c VESTS 25c.
