Mise Bertha Creighton, the charming

Marquam Grand Theater in the beautiful revolutionary drama "A Romance of 78." has the distinction of having been the

first girl to shake hands with Admiral Schley after his victory at Santiago. Miss Creighton was a guest of mutual friends of the Admiral on board their yacht dur-ing the naval parade in New York harbor

when the fleet returned from Cuba, and the Admiral joined the party on the yacht as soon as the parade was over. Miss Creighton being the first one of the party

to be introduced, she received the first bandshake, and also had the pleasure of hearing the story of the Santiago battle from the Admiral's own lips before the

newspapers ever began their controversy as to whom honor was due. Needless to say, Miss Creighton is a "Schley man." Last night another large audience wit-nessed "A Romance of "R." Howard

As a rule, one of the worst things in the world is to have a lot of people go-ing around talking about anyone's wife,

but here is a case where it is one of the

very best signs, because she happens to be the wife of a man named Racket,

and Racket is a harum-scarum hero in

the rattling farce comedy at the Empire this week. To say "Racket's Wife" has caught on is putting it mildly—the Em-

boisterous amusement and laughter. There is no question about it, "Racket's Wife" is the greatest comedy success of

the season. Ask some one who knows.

"Something must be done, and that oon, to restrict foreign immigration to seen, to restrict foreign immigration to this country," said John P. Young, man-aging editor of the San Francisco Chroni-cle, who is a guest at the Portland, yes-terday. Mr. Young is among the distin-guished visitors to the Fair, and in the course of an interview last night he took occasion to express himself very posi-tively on various subjects. He is one of the most active advocates of Japanese ex-clusion in the country, and his views on FUNERAL OF WILLIAM WADNAMS.—The funeral of William Wadhams, the ploneer groot of Portland, who died Tuesday of piralysis in Philadelphia, will take place at Wadham's Mills, N. "It is appulling to think that 1,000,000

foreigners are coming to our shores every year," he continued. "We have no room for such a horde, and cannot assimi-"Locally, the Pacific Coast should be most interested in the Japanese immigra-tion problem, for the influx of Japa is fast becoming a menace to this section of the country. The steamship companies are at the bottom of it, for they derive immense revenues from the transporta-tion of the yellow invaders. They work in conjunction with the Hawaiian planters, who find it difficult to secure laborers The Jupe are taken to the islands to work the plantations, and from there are brought to this Coast in large numbers. Only the other day one party of 600 Jap anese laborers was taken from San Fran-cisco to idaho for railroad construction. That mean; 600 less jobe for American workmen. They were imported by speculators, and contracted out at so much per head. They do not understand our in-mitutions, do not become citizens, and contribute but very little to our domestic trade. There is an impression that they are harmless, but this is erroneous. Criminal statistics in San Francisco show that they are frequent offenders against the laws and are guilty of the most atrocious crimes. Altogether they are undestrable and should be kept out along with the Chinese. In fact, they are much more ob-jectionable than the Chinese.

Steamship Lines to Blame.

The en-tire California delegation in Congress is pledged in favor of a Japanese exclution law, and we expect to press the mater at the next session."

Mr. Young visited the Fair grounds yesterday, and was greatly delighted with what he saw. "In many respects it is the most beautiful Exposition I have ever seen, and I've seen them all since the Philadelphia Centennial of '75.

"The water area has been utilized to splendid effect and the illumination is magnificent. By night the grounds pre-sent one of the finest spectacles I have ever seen. The size and scope of the Fair surprised me, and I am prepared to predict that it will amaze those who visit it from distant parts of the country.
