Municipal Ownership Losing Its Attractions.

AT LEAST, IN UNIONS' EYES

Mayor Dunne Says Civil Service Rules Would Not Protect Employees From Summary Discharge or Political Pull.

CHICAGO, June 8.—(Special.)—Mayor Dunne caused consternation in radical municipal ownership circles today when he stated that under municipal operation the traction employees, from the conductor and motorman to the trackman who handles the crowbar and shovel, would come from the unclassified list of the civil service.

The comments of Mr. Dalrymple, manager of the Glasgow car lines, on politics and traction and unions have gone far to open the eyes of organized labor in regard to municipal operation. They have given the advocates of municipal operation great concern, but Mr. Dunne's statement places some big bumps in the way of putting into effect any scheme for city operation of the street railways.

SUBMARINE BOAT IS LOST

FILLS WITH WATER AND SINKS WITH FOURTEEN MEN.

British Navy Suffers Another Disaster Through Explosion of Gasoline Off Plymouth Breakwater.

PLYMOUTH, England, June 8.—Submarine boat "A 5" was lost off the breakwater here this morning. She had on board 15 officers and men, including her regular crew and men who were in training. Fourteen of the number were drowned. The others were picked up. The disaster occurred while the "A 5" was proceeding to sea for practice, accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the "A 5," which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

The submarine boat lies in 18 fathoms of water. The first intimation of the disaster came from the boat herself, signaling that she was submerged and could not come to the surface. A signal was received shortly before noon which said "all right up to the present time."
