ROOSEVELT CENTRAL FIGURE

Both Parties Accept Good Offices, but Will Negotiate Direct.

ST. PETERSBURG, June 8.-President Roosevelt, striving, with excellent pros-pects of success to end the bloody war, is now the central figure of the world's stage. One of the main obstacles, it seems, will be overcome at once. Both Russia and Japan, have agreed to accept his good offices for the arrangement of the preliminaries. The belligerents are expected to be able to arrange peace terms

Emperor William the view that the ligerents should be allowed to settle th al terms without outside interference Evidence also exists that President Roose-veit has secured the support of several Continental powers, and that at the proper time they will appear at his back. Exactly what is transpiring at Washington is being carefully guarded. The diplomats here are still greatly at sea, not being able more than to venture a shrewd guess

and induige in speculation.

The interest with which the moves on the Washington chessboard are being followed is evidenced by the manner in which the Ambassadors and Ministers. who learned of Ambassador Meyer's audience with Emperor Nicholas yesterday, flocked to the American Embassy today in search of information. The understanding here is that Emperor Nicholas went so far as to say to Ambassador Meyer that he would like to know what Japan's terms would be. This inquiry was not to 55 construed as asking for peace, but only as telling friends that before so grave a step on their advice the Russian government might properly and naturally desire to known through those friends

INVESTIGATION CONCLUDED

Inspectors Hear Final Testimony in Spencer-Dalles City Case.

The investigation by local United States Inspectors Edwards and Fullet of the collision between the steamers Chas. R. Spencer and Dalles City was concluded yesterday morning. The case was taken under advisement, and it is expected that a decision will be rendered in a few days. The first witness called was Captain A. J. Geer, the pilot of the Dalles City. He testified that the Dalles City held the lead over the Spencer after leaving Portland on the morning of the accident, until Linnton was reached, when the opposition boat signalled to pass. The Dalles City, according to his statement, started to give room, when the Spencer changed her course suddenly and the smash was the result.

E. H. Cariton, a passenger on the Dalles City, said both boats raced all the time after leaving Portland. Regarding the signaling and the collision, his testimony corroborated that of Captain Geer. Tes-timony on a similar line was given by E. Haya, of Goldendale, and Rev. H. O. Hen-derson, other passengers.

Haya, of Goldendale, and Rev. H. O. Henderson, other passengers.

A number of witnesses were called for the Spencer's side, the first being O. M. Clarke, of Linnton, who witnessed the collision from that point. The Dalles City, he said, was setting in toward the west bank, where the Spencer was untedrtaking to pass her, and then apparently headed off in the other direction, as if to prevent the Spencer from setting if to prevent the Spencer from getting ahead. Thomas Consile, who also saw the accident from Lanaton, said the Dalles City was jockeying all the way down to keep the other boat from getting ahead. Thomas Welch, of St. Johns, said the Spencer tried to pass the Dalles City. after giving the proper signal, when, from his point of view, it appeared as if the Regulator boat changed her course and

ne collision occurred. Captain E. W. Spencer, owner of the has, R. Spencer, and Manager H. C. Chas. R. Spencer, and Manager H. C. Campbell, of the Regulator line, were present at the hearing. Judge Mallory appeared as attorney for the Dalles City's interests and G. W. Stapleton as Captain Spencer's lawyer.

SPECIAL CARLE. ST. PETERSBURG. June 9.-War enthusiasts are in a state of panic through the receipt of a private telegram that the Japanese have occupied Omoso, which commands the roads from Kirin and Ninguta to Viadivostok and Corea.

This occupation by the Japanese is taken to mean that communication between Vladivostok and Kirin and Ninguta has been severed, and also that the Japanese are now within striking distance of the Harbin and Viadivostok railway. Many believe that the information is correct, although there is no official con-firmation of it, and state that it means probably the beginning of the final onslaught upon Vladivostok, which the Japanese are maneuvering to capture.
