to Burke Turrell on May 3 last. The two men came here together from Denver. Colo., and picked up an acquaint-ance on the train. Leffell is a carpenter and Turrell a druggist. Leffell had little money, and Turrell assisted him, paying for his meals and lofigings. He says Leffell rewarded his kindness by stealing everything of value which he had during his absence from the room they occu-

everything of value which he had during his absence from the room they occu-pled together. A ring and the watch were found on the person of Leffell at the time of his arrest. He defiles having stolen the articles, and asserts that Tur-rell gave them to him for satekeeping, and also denies having taken the money. John O'dorman, attorney for Leffell, says he believes he can establish the inno-cence of his client notwithstanding the

cence of his client, notwithstanding the

Graduates at Oregon City.

OREGON CITY, Or., June 9 .- (Special.)

A class of II young people were pre-sented with diplomas of graduation from

sented with diplomas of graduation from the Barciay High School tonight at Shiv-ely's Opera House. The graduates were: Mildred Brown. Lucile Bacon, Hazel Cooper, Bertha Frederick, Laura Ginther. Gertrude Hamilton, Waya Harrington, Ellen Moehnke, Blanche Miller. Edna-Park, Bessie Sleight, Amy Thomas, Win-nie Young, Lambert Beard, Clifford Dam-mon, Joe Ganong, Edwin Hoff, Jack Mel-drum, Lester Marrs, Carl Nehren, Wallace

drum, Lester Marrs, Carl Nehren, Wallace Telford and Carl Walker.

AT THE HOTELS.

evidence already given against him-trial will be concluded today.

Pierce Wool Clip Brings 27%c,
TACOMA. Wash. June 9.—The Woolgrowers' Association of Pierce County sold its
clip today in Theodore Bernhaim, of Portland, at 27% cents, the highest price received in many years. Six hiddens competed,
all figuring at about 27 cents. The clip will
be about 80,000 pounds

NEWS IS FACTOR IN ELEVATION OF WHEAT PRICES.

Chicago Market, After a Weak Opening, Develops a Fair Degree of Strength.

CHICAGO, June &.- Firmness in the wheat market developed after trading was well under way. At the opening, sentiment was quite beariah, notwithstanding higher prices at Liverpool. July wheat was off highic to highic, at \$560504c. The main cause of Wiffic, at 560504c. The main cause of weakness was a continuance of excellent weather throughout the greater part of the United States. Rain was reported in the Northwest, where moisture was said to be needed. The sharp rally lesterday appeared to have caused the majority of ahorts to cover, and with this source of demand eliminated, considerable difficulty during the first half of the session was experienced in securing purchasens for offerings, except at reduced figures. In addition, trading was greatly restricted by uncertainty regarding the Government report tomorrow. A supplementary factor was a report stating that the drouth in Russia is assuming a more serious mentary factor was a report stating that the drouth in Russia is assuming a more serious aspect. Not only was all the early loss regained, but prices advanced considerably above initial quotations, July seiling up to Seipe. The close was firm, with July up lie. at SOASSELE.

Weakhess prevailed in the corn market the greater part of the seesion, July closed Science at 5the.

greater part of the aveston. July closed &c. lower, at 5tig.

Trading in cate was quiet and the market had a steady undertone. July closed unchanged at 314,821 kg.

The feature of trading in provisions was the fron selling of lard by a leading packer. At the close September park was of The lard down it, and the Sc lower.

	@5.25: fed ewes, \$4.25@4.60.	The feature of trading in provisions was the free selling of lard by a leading packer.

STOCK MARKET LIFELESS.

Various Reasons Assigned for the In-activity. NEW YORK, June 2.-Totay's stock mar-

NEW YORK, June 2.—Today's stock market made further progress toward a condition of absolute stagnation. Even the temporary spurt of the first hour, which had come to be expected as the result of the testing efforts of traders to find an available course for a mofement of prices, was lacking.

The first hour's dealings today were only slightly above the average. The marking up of one or two stocks of the Southern group late in the day was attributed to operations by a few of the traders who have not abandoned the market entirely. It is supposed that a pool exists in these stocks. The marrow fluctuations of the market maintained some appearance of coherency early in the day, but the later movements were entirely confused and irregular. Such a market can have only a negative significance, but the followes in itself is an index of the condition of the doubt and uncertainty which oppresses speculative sentiment. Some influence is attributed to the fact of the committee holiday in London, which drove the London market into a case of idleness almost equal to our own.

The heavy failing off in the activity of training is responsible for the sharp declines.

equal to our own.

The heavy failing off in the activity of training is responsible for the sharp declines in the price of stock exchange seats, a sale being reported at \$72,000. The previous sale ten days agn was at \$75,000, and the high price of \$84,000 was paid within the year. Some disposition to defer operations enautributed to the desire to know the complexion of tomorrow's Government report of the June I condition of the grain markets indicated some unsettlement over the immediate proposes. It is not expected that any pronounced position will be assumed in the stock market on the basis of the year's harvest until the critical period for the crops several weeks bence has been passed. The Equitable Life affair furnished no immediate incident for discussion today, but its great influence in deterring any ventures in the stock market is unimpaired. Opinions over the bank statement are mixed, owing to the large special operations which have occurred. Including the shifting of deposits incident to the transfer of the Japanese bean proceeds. Call money was slightly firmer, but not enough so to be an influence. Some consideration is beginning to be given, however, to the preparations for the half-rearry settlements. The sum interest and dividend disbursements may have more than the calimary supplement in the demand to replensial reserves by the trust companies. It is expected that the operations of this week have been to the advantage of the trust companies. The sub-Treasury has absorbed dur-The heavy falling off in the activity of

been to the advantage of the trust companies' reserves at the expense of the bank reserves. The sub-Treasury has absorbed during the week about \$1,500,000 more than the banks have gained on the interior movement. Some large changes in the various litems of the bank statement are likely to result.

There was more variety in the bond market than in stocks, and prices there were well-maintained. There was an active speculation in Central of Georgia income bonds. Total sales, \$2,770,000. United States he reg. declined 14 per cent on call.

Dried Fruit at New York.

NEW YORK, June 2.—The market for evaporated appine shows no change. Six cents is hid for prime fruit for future delivery in October-November, but 6½c is asked and small transactions are reported around that figure. The spot market is quiet, common to good, 4½64½c; prime, 5½c, choice 6c, and fancy 7c.

Prunes remain firm, with no selling pressure, although buying appears indifferent, Quotathous range 4½64½c, according to grade. Apricots are quiet, with choice quoted at 1061019;c; extra choice, 1061036c, and fancy, 12615c.

Peaches remain quiet and unchanged; choice, 106103c; extra choice, 106103c; and fancy, 114612c.

Batains are in fair demand at recent prices. Loose nuncative are quoted at 4684c; needed, 54665c; London layers, \$161.15.

Coffee and Sugar.

# EXPANSION IN

WARMER WEATHER AND LESS RAIN CAUSE IMPROVEMENT.

Gain in Foreign Commerce and in Railway Earnings - Large Iron Output.

NEW YORK, June 2.—R. G. Dun & Co.'s weekly review of trade temocrow will say:
Although trade reports are still irregular and in many cities below expectations, there has been improvement in response to higher temperature and less rain. Manufacturing activity is fully extended in textile fabrics, and there is an enormous output of iron and steel, desplie some reduction from last month's record-breaking rate of production. Building operations are large and materials in excellent demand.

Foreign commerce for the last week at this port shows a splendid gain compared with 1904, imports increasing £1,27,944 and exports gaining £1,470,305. All returns for May make favorable comparisons with the same month last year, railway carnings increasing £0 per cent, while hank exchange rose 1.3 per cent.

buttner wearness has developed in packer hides, the only supporting factor being the light supply of cowhides that are sought by tanners of upper leather. Country hides are in a relatively better position, and South American dry hides are fromer here than in

American cycles week in the United States are 216, against 198 last week, 211 the preceding week, and 227 the corresponding week last year. Pallures in Canada number 20, against 29 last week, 19 in the preceding week, and 20 last year.

FALL OUTLOOK GOOD

Assurances of Large Trude in Distributive Lines.

NEW YORK, June 9.-Bradstreet's tomor This week may be summed up in the phrase "better feeling," which is predicted on rather more seasonable weather, allowing better crop progress, a large volume of retail trade and improved reorder business at wholesale. Those in turn are reflected in a more assured tone as to Pall business in distributive lines. Relatively the best advices come from surplus cereal crop-producing regions, but the feeling in the South is likewise better. Against this is to be noted some temporary quieting, due to rains or cold weather in the Northwest, the Lake region and the East, while new business in iron and absel is smaller and prices are easing. All measures of trade movement still point unnistakabily to large galms in all lines over a year ago. point unmistakably to large gains in all lines over a year ago. Business failures for the week ending June

Business failures for the week ending June 8 number 154, against 154 last week and 171 in the like week in 1904. In Canada failures number 21, as against 18 last week and 18 in this week tast year.

Wheat, including flour, exports for the week ending June 8 are 1,478,840 hushels, against 1,309,224 last week and 1,482,032 this week last year. From July 1 to date the exports are 60,007,250 bushels, against 129,248,461 last year.
