out Government Stamp.

Admissions made by Dr. R. E. Holm. an assistant meat inspector to the service of the Bureau of Animal Industry showed in the Municipal Court yesterday morning that it was easy for the Pacific States Facking Company, or any other packing concern, to staughter animals in the absence of Government inspectors and

Dr. Hoim was called as a star witness in the defense of the proprietors of the Pacific States Packing Company, charged by City Health Officer Biersdorf with violations of the city ordinances. After he and several other witnesses were examined and cross-examined, the defense rested, and a postponement was had until this morning at which time arguments. til this morning, at which time arguments counsel will be made before Judge

eated parties, the defense did not call Dr. Clarence Loveberry, chief of the Gov-ernment Inspection Service in Portland. It is hinted that had he taken the stand he would have been asked some redhot questions concerning his alleged aclivity regarding the passing of the city meat inspector ordinance, recently passed by the City Council, over the veto of Mayor Williams. He is said to have framed that celebrated ordinance

Although Dr. Holm declared under oath that he did not draw any salary or bene-fits from the Pacific States Packing Company, but emphasized the statement that he was paid \$100 a month by the Govern ment, his direct testimony was every bit most favorable to the defendants, who are part owners of the concern.

Witness for Defense

Dr. Holm detailed his duty as inspector saying he had authority to go into every part of the packing plant, to condemn all animals unfit for use and to see that cleanliness prevailed in the place. He said he placed a stamp on every piece

of meat that went out.

"How long have you been stationed at the staughter-house of the Pacific States Packing Company?" asked Special Proseouter Smith, upon cross-examination,

Thave been there since last December replied Dr. Holm. "You inspect every animal before and after it is slaughtered?" The Government rules call for an ante-

oriem and post-mortem," was the reply Dr. Holm. When you are not there, who attends

to the inspection?" "I have been there constantly since last pecember." Dr. Holm replied. "I have not missed a day." "Who is in charge of the plant for the

Government today, while you are here gly Ing testimony?"
"No one—the plant is closed, and there

is no slaughtering."
"How do you know there is no slaugh-

tering? Might there not be some animals slaughtered in your absence?"
"There could be," was the reply, "but I do not think any decent man would buy the meat, as it would not have the Government stamp upon it."

A Pointed Question.

"Is there any meat sold in Portland without the Government stamp upon it?" asked Mr. Smith. "Yes, I presume there is lots of it," Dr. Holland, In resided,

He said he had visited the shughter-house six times and found it to be all He was not cross-examined. One of his deputies next testified. He ad-mitted that many complaints had been made against the slaughter-house by residents living near it.

From all of the mass of testimony introduced, it appears that since the agita-tion started against the slaughter-house, about two months ago, some improve-ments have been made. The defense seems to contend that inasmuch as the conditions are alleged to have been made a little better the cases should be

INCREASE IS BIG.

Portland Postoffice Leads All Others-Stamp Sales Are Heavy.

The Portland Postoffice stands at the head of all the offices in point of increase in business throughout all its departments. By the report of the last month's business it is shown that the stamp sales for the month were 34.7 per cent higher than they were for the corresponding month of 1904. According to the custom month of 1904. According to the customs of the Postal Department, whenever an office shows an increase of from 5 to 7 per cent in any one year, it places that office in the first class, and if that be true, fice in the first class, and if that be true. the Portland office should be placed in a class by itself and Postmaster Minto given a medal.

It is not necessarily the personal mag-netism of the Postmaster or the accom-modating qualities of the clerks, howmodating qualities of the clerks, how-ever, that accounts for the increase in business. The rapid growth of the city is the cause that forces the receipts up towards higher and higher totals. On Saturday last 80,000 letters passed through the Portland office, coming in and going out. Mr. Minto has not data at hand to show the increase in this num-ber over that of last very but the for-

ber over that of last year, but the fact that all of his clerks are working ten bours and more a day in their efforts to get the mall to the people, when last year at this time a smaller force was not having any harder work in handli

not having any harder work in handling the business, shows conclusively that the increase is at least as great in proportion as that shown by the stamp sales. In the registry, the money order and all the other departments, the increase is in proportion with that shown by the record of last Saturday in the bulk of the

A part of the increase in the business of the office is accounted for by the Ex-position, but this is a secondary cause. During the month of May the approach-ing Fair had but little comparative ef-ect on the mail handled, and the record of that month may be taken in great part, as the normal business of the of-fice. In the amount of mail handled also the report of a week ago would not call the report of a week ago would not call for a great deal of increase, owing to the presence of transient business. Later when the Fair is in full awing and the city is crowded with Eastern people, the business of the office will be materially increased but at the research transient. increased, but at the present time the mail handled is practically the business of the city and its inhabitants.

The dull months of July and August removes will this Summer be the busiest of the look for

year with the postoffice, and special help will in all probability have to be fur-nished by the department. The present force is working ten and more hours a day to get the mass of mail out of the way, and when the big rush comes later in the season additional help will have to be given or the work will be de-layed. Postmaster Minto has called at-tention in his reports to the department to the great increase in business, and has recommended that additional help be

The officers of the Boys' and Giris' Aid Society are made probation officers of the Juvenile Court, because their work is of a kindred kind, although not entirely the same. The Juvenile Court will release name. The Juvenile Court will release offenders, boys and girls, on probation, that is, give them a chance to redeem themseives. This is expected to lessen the number of commitments to the Home of the Boys' and Girls' Aid Society somewhat and will in a measure lessen the burden of its labors. little, for the reason that the Boys' and Giris' Aid Society receives a certain sum from the county or state for each commitment to the society by a magistrate.

Judge Frazer's tien is to give as little publicity as possible to the proceedings of the court, as he does not deem it wise to parade the names of offenders, and he says that this rule is adopted in other cities he has visited where there are such courts.

Municipal Judge Hogue has collected a number of cases within the past few weeks for the Juvenile Court to dispose of as follows:

of, as follows:
Oliver Bozarth, arrested on a charge of assaulting a woman; Frank Dunn, who has pleaded to a charge of stealing a gold watch from a house where he was carrying in wood, and E. Jensen, W. Murine Eye Remedy Cures Eyes; Makes Weak Eyes Strong. Soothes Eye Pain. Doesn't Smart.

Let us give you a word of warning. But let us say it so loudly that you can not fail to listen and take heed. Your daughter's health may be hanging in the balance, awaiting a little advice from you. Will you give her the right advice? "A LITTLE GIRL" writes Mrs. Nannie Hunt, of Bren. wood, Tenn., "the daughter of a friend, suffered terribly every month with the

No time is so critical in a young girl's life as when she begins to bud into womanhood. An entire change takes place in the system which

often has violent and dangerous after effects. A pure, harmless, building, tonic at this time, is absolutely needful and nothing will serve the purpose so well as Cardui. It starts the young girl right, relieves pain, soothes nervous irritability and insures regularity of function. It is a perfect curative medicine for all female diseases,

both in young and old. Sold by every druggist in \$1.00 bottles.
