Trust Company to Be Formed by Equitable Ryan.

TO COMBINE THREE IN ONE

Ryan Will Not Let Equitable Control Subsidiary Companies. Trouble Was Due to Lack of Common Honesty.

NEW YORK, June 12.-The organization of the largest trust company in the United States and one of the largest financial stitutions in the world was said today to be a part of the plan of Thomas F. Ryan, in negotiating the purchase of the stock of the Equitable Life Assurance Society held by James H. Hyde. Mr. Ryan's plan was reported today to be to consolidate the Equitable Trust Company, the Mercantile Trust Company and the Morton Trust Company, all of this city, with the last period in control of the city.

Mercantille Trust Company, all of this city, with the last named in control.

It is expected that this would result in creating a financial institution, with deposits second only to those of the National City Bank of New York, which has deposits of \$18,000,000. The deposits of the proposed consolidated trust company would amount to \$180,000,000. Capital stock to \$1,000,000. And the surplus to \$22,000,000. Mr. Ryan's plan was reported today to contemplate also the elimination of the control of the subsidiary companies by the Equitable Life Assurance Society.

Ex-President Cleveland has written a letter to Mr. Ryan concerning the trusteeship of the stock of the Equitable, which he accepts. The letter was made public today, and says, in part;

While the hope that I might aid in improving the placit of the Equitable Society has long as las ideas at responsibility in places of trust and fluedcary erganisations as long as las ideas at responsibility in places of trust and fluedcary erganisations as long as las ideas at responsibility in places of trust are tolerated by our people. The high pressure of speculation, the madness of inordinate business exheming and the chances taken in new and uncertain enterprises are constant tempinations too often successful in leading managers and directors away from scrupulous loyabty and fidelity to the interesus of others.

# DYING NATURAL DEATH.

Teamsters Make No Effort to Push Chicago Fight.

CHICAGO, June 12-The teamstern strike has come to the stage where it will die a natural death unless new life is injected into it by the strikers. During the past 26 hours nothing of any import-ance whatever has developed, neither side to the controversy having made any aggressive move. According to the employ-ers involved in the trouble, they have succeeded in getting their business aimost back to normal conditions. The teamsters are doing absolutely nothing in the strike, not a move being made either for peace or looking to a spread of the difficulty.

Protest Against Obstruction Protest Against Obstruction.

The railroad traffic of Oragon is not only highly profitable within the state, but owing to the fact that the greater part of what we consume of manufactured goods comme from alroad, and the greater part of what we produce must be shipped across the continent, the interstate traffic Oragon furnishes is a very licitative source of income. In aptic of the fact that these corporations have been treated with the greatest liberality by the people of Oragon in their political capacity, and in splite, of failure to extend their lines adequate to the growth of the occumunities, a policy of deliberate obstruction has recently been announced on their part toward all such contemplated enterprises.

The Oragon territury has been set apart as not open to construction of branch lines, so matter how much account to provide markets.

Our Government has been a more auxiliary to the corporations leng enough. The time has come for this state to demand and receive in return grater appreciation of corporate opportunities to assist in the higher development of our commonwealth or to invoke the immediate application of the powers vessed in the Legislature and the people for corporate regulation and control.

The people possess legitimate means under the Conscitution to bring about more equitable conditions and more just relations for the benefit of all.

A Few Facts About Taxation,

A Few Facts About Taration.

This committee has not had time to gather all the facts touching fauxtion of railroad property, as compared with other property in this state, or railroad property in other states. But we believe the managers of railroads themselves will admit that they bave not been treated unfairly, investigation will show that on some forms of taxation they have been exempted entirely, while compared with some Western States Oregon has placed only nominal values on their property.

The following statetics show the amount of taxes paid per mile by these compared in the four Pacific Coast States.

We find that 12 counties of Oragon having a territory of 54.455 square miles are without any railroad communication with the outer world. These counties comprise more than half the estate, maintain county governments, have industries, banks and prosperous, thriving cities and tower. Many of the other counties have railroads and populate this great interior, some lot the stale area is without caliroads.

At has been publicly charged that the present management of these corporations has not kept faith with the commercial interests of Oregon. The committee does not consider that it is required to go into any particular investigation of these matters, but when the people of this state are spending over \$1.000, to hold an Exposition for the development of the Oregon country, they have a right to expect that the promise of a one-days rate to all who attend to visit the interior of the state and investigation, the State Development Langue was saured that the request was entirely reasonable, and virtually what had laireally been deutied upon. The president of that convention, Hope E. L. Smith, was subtorized by the officials representing the Oregon lines, who were present to amounce that this conceasion had been granted, and the announcement was received with great applause. But when the rate wha announced by these same officials through the present it was found limited to persona holding tickets to Portland from points east of the Booky Muurnaha, and otherwise restricted to that it will be of little practical value to Oregon. The convention asked for a one-fare rate fact to all Exposition visitors from outside of this state. That was what was underwited by all present, and certainty there has been failure to do as agreed. We do not consure or holding them one-fare rate to visitors from viewing the great state, and will do them as well as our own people a grave injunction. Signor Jachola, keeper of the Campo lighthouse, on the Island of Elba, captured the bird not far from the spot where Napoleon Bonaparte himself was at one time held practically a prisoner.

Noticing a scrap of paper which was attached to one of its feet, he removed it, and found it was a letter written by Brune Cataldo, who stated that he had been in prison since 1885. It added that the swallow, having entered through the grating of his cell, Cataldo

Norway Will Send Special Envoy to All Powers.

FOREIGN MINISTER'S PLANS

Will Show Norway Is Not Opposed to Monarchy, but Dissolved Union in Defense of Constitution Which Existed.

CHRISTIANIA, Norway, June 12.—Mr. Loevland, ex-president of the section of the Norwegian Council of State at Stockholm, who will be inducted into his new office of Foreign Minister of Norway on June 15, in an interview with the correspondent of the Associated Press today says that a special envoy will within a few weeks be dispatched to the great powers to seek the recognition of the diplomatic and consular representatives of Norway.

Norway.

Regarding the probable difficulties to be encountered, Mr. Loeviand declined to express an opinion, but he said that the en-voy would convey the heat wishes of Nor-way to the powers and would go to them with the highest hope as to the success-ful result of his mission.

"When our case is presented to the pow-ers," said Mr. Loevland, "It will be seen that it is not one of antagonism to the people of the monarchies nor to a single monarchy. Norway has been a kingdom for many centuries, and is proud of the fact. The dissolution of the union was purely on constitutional grounds. Our constitution existed prior to the union with Sweden, and when this came to a conflict between the two peoples. Norway chose to retain her constitution."

ROME, June 12.—The entire sitting of the Chamber of Deputies today was occupied by a discussion of Italy's connection with the Congo, many of the speakers strongly denouncing the Congo atrocities. Foreign Minister Tittoni, in reply, said after the report of Captain Baccari all idea of sending Italian emigrants to the Congo was abandoned.

In regard to the report that the Congo authorities threatened to polson Captain Baccari, Signor Tittoni said an investigation of the charge had been entrusted to a magistrate of high standing. The Minister Added that inquiries were also being made into the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the conditions under which italian officers were enlisted by the constant of the constant of the conditions under which italian officers were enlisted by the constant of the

The crown of womanhood is motherhood. But measy lies the head that wears the crown or anticipates this coronation, when there is a lack of womanly strength to bear the burdens of maternal dignity and duty. The reason way so many women sink under the strain of motherhood is because they are unpresented.

The reason why so many women sink under the strain of motherbood is because they are unprepared.

"I unbestutingly advise expectant mothers to use Dr. Fierce's Pavorite Prescription," writes Mrs. J. W. G. Stephens, of Affis. Northumberiand Co., Vs. The reason for this advice is that Dr. Pierce's Favorite Prescription is the best preparative for the spaternal function. No matter how healthy and strong a woman may be, she cannot use "Favorite Prescription" as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of "Favorite Prescription." For one thing its use makes the baby's advent practically paintess. It has in many cases reduced days of suffering to a few brief hours. It has changed the period of anxiety and atringgle into a time of ease and comfort.

The proprietors and makers of Doctor Pietce's Favurite Prescription now feel fully warranted in offering to pay 4000 fee any case of Leucorrhen, Remaie Weshoess, Prolapsus, or Falling of Wemb, which they cannot cane. All the World's Dispensary Medical Association, Preprietors, of Buffalo, K. Y., ask is a fair and reasonable trial of their means of care.
