Use of Money to Settle Strikes Explained by Teamowners' Official-Union Man Fatally Shot by Policeman.

CHICAGO, June 14 .- John C. Driscoll. ne much-desired witness in the bribery robing being conducted by the State's Attorney and the grand jury in connec tions with strike troubles in Chicago appeared before the inquisitors this afternoon, and for three hours was subected to close questioning. The prosaid that Driscoil did not tell all the startling stories of corruption accredited to him yesterday. At the adjournment of the jury tonight. Assistant State's Attorney Fake said he was well pleased with the results thus far obtained from Driscoll. The latter is to be recalled tomorrow morning and he was cautioned against making any statements as to what took place withn the jury-room or as to the nature of

his testimony.
Driscoll's evidence covered the historical points in connection with various labor organizations, and he told in detail of the work he had done in form-ing the Coal Teamowners' Association, as well as the connection of Albert

Young, formerly president of the Team-sters' Union, with that organization. Young occupied the stand this after-noon in the hearing before Master in Chancery Sherman. Much of the day was taken up by altercations between the attorneys. Young was asked a long lips of ourstions, and in almost the attorneys. Young was asked long lipe of questions, and in almost every instance he refused to answer declaring he was afraid of self-incrim-mation. The hearing will be continued morning.

GROW WHEAT IN BRITAIN

Successful Attempts to Revive Long Languishing Industry.

WASHINGTON, June 14 .- A pian to improve the quality of British agriculture has been reported to the Department of Agriculture by its European agent. The report says that during the past two years experiments likely to result in important practical results have been carried on by the National Association of British and Irish Millers, looking to the improvement of the quality of wheat grown in the United Kingdom.

The decline, which the industry in the

United Kingdom has long been undergoing, not only in quality of product, but especially in extent of area, has for years attracted wide attention, and the solution of the problem is chiefly to demonstrate by experiment the practicability of improving native wheats in the property of strength. By this means it is claimed that the declining industry can be revived, successful competition with the best imported wheat made possible and the business of wheatgrowing in

The introduction and the testing of seed wheat from foreign countries has been carried on on a large scale. The general result has been that with a few exceptions all foreign wheats degenerate when planted on English soil and develop very erratically though sown under identical conditions. Kansas wheat so deteriorated that experiments with it

The most promising results seem to have been obtained from an improved ted Fife from the government experimental station at Ottawa. Ont. This wheat, now in its third year in England, shown great properties of strength, yields abundantly and possesses remarkable adapmblists.

CHICAGO, June 14 .- (Special.) - The correspondent of the Daily News cables from Tokio an Interview with Count Okuma, former Minister of Finance, whose opinions are unofficial but authoritative and representative of the best public opinion. Count Okums says:

"Of course the news of peace proposals was expected sooner or later, but Russia being such a great nation, though one might believe it almost impossible for the Caar to continue the struggle, it has al-ways been probable that the contest might last longer than expected.

"At this critical moment no nation ex-cept America was in a position to venture to offer mediation and no ruler except one of the highest character, like Presi-dent Rooseveit, would have been pos-sible in such a role. President Rooseveit enjoys the confidence of both Lasse and enjoys the confidence of both Japan and Russia, and Japan is much impressed by his high motives, prodence and kindness, and is deeply grateful for his interven-

Prospects of peace are pleasant; yet ere is another side to the situation. The Hitary point of view has to be consided. The Russian army has lost its fighting power; Russia's navy is anni-histed, and Japan for the first time is in a position to invade Russian terriory and to attack Sakhalin, Kamtchatks and Viadivostok. At such a moment the opportunity for the restoration of peace oce not satisfy the military and patriotic spirit of the nation, which has been highly

METCALF SUGGESTS PLAN

Annoyance to Exempt Classes Would Be Avoided by Holding American Officials in China Rigidly Accountable.

WASHINGTON. June 14.-President Roosevolt is manifesting a deep interest. In the statements made to him last Monday by a delegation of members of the American Asiatic Association concerning the difficulties which hitherto have been experienced by Chinese merchanis, students, travelers and literary men in gaining admission to this country. The coming admission to this country. The complaints of the Chinese government about the alleged humiliation to which members of those clauses of Chinese are often subjected upon their arrival in the United States, together with the threats of the commercial guilds of China to retailate by boycotting American-made goods, have aroused the business men of this coun-try to protest against what they have re-garded as unreasonable discrimination in the enforcement of the Chinese exclusion

In a letter to Secretary Metcalf, of the Department of Commerce and Labor, the President directs him to see that the immigration officers exercise discretion in the cement of the exclusion law, to the end that the relations of this govern-ment with China may continue to be cor-

It is pointed out that great difficulty is experienced by the immigration officials in executing the law, because of the many logus certificates which are presented by Chinese. It is a well understood fact that for a consideration a Chinese coolle may procure in China a certificate that he is a merchant or a traveler or a member of the other exempt classes. On its face the certificate entities him to admission to the United States. So many frauds have been discovered in the matter of those certificates that the immigration officials examine all of them most carefully. That fact accounts for the trouble experienced by genuine merchants, travelers, etc., when they arrive at United States ports.

Thus far no feasible plan has been worked out to remedy the trouble of which the Chinese complain. Mr. Metcalf is in favor of Congressional legislation on the subject providing for a rigid su-pervision of the issuance of the certifi-cates in China, the idea being to hold absolutely responsible for the accuracy of the statements contained in the cer-tificates the officials who issue them.

RUSSIAN REPLY SATISFACTORY

Criticism of Language Answered by Foreign Office.

ST. PETERSBURG; June 14.-The words in the last line of the Russian Foreign Office's communication to the Gazette, saying the imperial government "has no objection in principle" to the meeting of plenipotentiaries proposed by President Rogsevelt, "if the Japanese government expresses a desire therefor," are causing much comment and some little depression in circles which were exceedingly optimistic yesterday, especially as it is underatood that those are almost textually the words in the note handed to Ambassador

PEACE CONFERENCE IN EUROPE

Difficulty of Communication an Objection to Far East.

PARIS. June 14.-The highest Russian authorities say concerning the Tokio dis-patch to the effect that M. Takahira, the Japanese Minister at Washington, had reported M. Nelidoff as the probable Russian plenipotentiary, that no such appointment has yet been communicated here.
The view prevails in Russian diplomatic
quariers that the place of meeting will
not be in the Far Past, as that would be fraught with difficulties of comm

and they are inclined to believe that some European point will be relected, the ap-parent inclination being toward the Hague or any other neutral point. Naturally. If some European point is chosen, M. Nelidoff is considered likely to be the representative of Russia. It now appears possible the question of an armistice may be arranged at or near the seat of war. and it is possible that Pekin may be the place selected for taking up this subject.
