Final arrangements were completed yesterday afternoon between Senator Fulton and F. W. Perkins, assistant superintendent of Coass and Geodetic Surveys, for the entertainment of the distinguished visitors while in Portland, and plans were hid for showing them the various peints of interest bearing upon their journey and investigatiohs.

For a time it appeared that the committee would not be able to stay in Portland at all, owing to lack of time and important work yet to be done by it. An effort has been made by Senator Fulton and other pursons interested to induce the committee to make a more extended visit in Oregon, and it was argued that three

recommend the construction of a new temple at this term, though the matter may be taken up later. The order has not at this time any property suitable for the erection of a temple such as would be desired, neither has it options upon or plans laid for acquiring such property. It would be necessary, therefore, either to berrow money or sacraftee property new owned to raise sufficient funds to complete a temple, and it is not thought that such action would be advised at this time. The question will come up, however, in all probability at the meeting of today. If anyone wants to ride on a pass in Washington from now on, he will have to do one of three things, forswar politics and be ordained a minister of the Gospel, become an officer or an employe of a railroad company, or marry into a railroad damily. Passes are tabooed in Washington since June 5, and the taboo reaches down into Oregon under certain conditions, so that the lucky ones in this state will have to mind their steps or they will wake up some fine morning and find themselves alone in a strange land and without gratuitous transportation.

There will be a great deal of mourning in Washington in a very short time, for yesterday afternoon the general manager's office of the O. R. & N. began to send out nearly printed little letters to every one holding passes in Washington, except railroad officials, employee and ministers, inviting the hitherto lucky individuals to mail the magic pasteboards back to the general offices, that they might be canceled, as the law requires. From this time on there will be no passes in Washington with the exceptions noted. in Washington with the exceptions noted,
The law passed by the Washington Leglaiature at its recent session prohibited
the issuance of free passes for local
fransportation in that state. This cuts the issuance of free passes for local transportation in that state. This cuts off the use of passes erirely, to all practical purposes, within the borders of the state. Not only that, but it throws the holders of passes issued from outside states into a queer predicament and limits the use of such permits until they become practically worthless except for through transportation.

According to the law as it now stands, a person living in Oregon and holding a pass, whether for one trip or annual, can travel from any point is Oregon allowed by his pass to any one point in

lowed by his pass to any one point in Washington and return, but he cannot enjoy any stopover without having his transportation taken up. If a pass-holder wishes to go from Portland to Tacoma on his transportation, he can do so, and can return, but should he stop at Che-halis either going or coming, it is the duty of the conductor to take the pass up, for cancellation, even though the holder is not a citizen of Washington. So the pass business is dull, and the office of General Manager O'Brien is busy putting red stamps on the little cards

issued the first of the year, while in the sister state many persons are swearing at the farmers in the Legislature.

Every afternoon at 2:30 and every even-ing at 3 o'clock, until next Thursday, Miss Elizabeth K. Burr, of the domestic science department, Boston Y. W. C. A., will lecture at Burkhardt Hall, East Burn-aide arrest, and give demonstrations of the many delictous preparations that can be made from chocolate and cocoa. Sat-YES, THEY HAVE ARRIVED

Pommery Champagne

THE STANDARD OF QUALITY Quality VERSUS Quantity

One reason why Pommery Champagne maintains its popularity with those who demand the best of wines, is that the Pommery standard of quality is never lowered in order to join the race for quantity.
