Spot wools have been freely picked up manufacturers at good prices. Beaters have been selling contracts, although not to the extent which they had been. So many feels that It does not care to dispose of Diverses. This is owing to the impertainty of quality and size of the citys. Some clips contracted may have been estimated at 100,000 counds, and on arrival here may not go above 85,000 or \$0,000. Comequently if pealers were to sell too many in advance, night be forced through, shortages to buy more much in order to live up to the terms of their transactions. However, the falling off in the transfers of contracts to due to the dispusition of holders, as he buyers are around and ready to make rades. The general tendency of the market is still upward, and the nilltude of manufacboth large and small, who have been round the market, presnges no weakening in ment arrong situation. Stocks are comparatively light for this time of the year, han been sold than had been by October of

breds, while the call for mertion has only have sold at errors prices. The supplies are, however, very low. New fleeces, while not on the market to any extent, have sold free-

of supplies even earlier than in 1905.

ime ago, it is now resorted that certain clips in Oregon have been contracted or prices fully satisfactory to growers. It authorizatively stated that the Full wools in the San Juan Valley of California have been contracted at 18c or 420/65c, landed clean.

HIGHER CABLES RECEIVED

Heavy Rains Over the Grain Belt and Reports of Rust Damage Are Strengthening Factors. Close Is Strong.

CHICAGO, June 16 -Sentiment in the wheat pit was builtsh today from start to finish. At the opening, the market was influenced by beavy rains in the Canadian Northwest and extending as far below as Southern Kaneas. In addition to the wet weather over the American wheat Seids, prices ar Liverpool were higher. As a result, in-July being up 1604c to 465c, at 8740 875c. Shorts were the best buyers. A number of advices were received telling of de-erraction of wheat by rust damage. In addition to the demand from shorts, a number of commission-houses were liberal spurchasers uring the last part of the seasion. At \$5%@ Solyr, the July option touched the highest point of the day. Reading and United States Leather Absorb Most Attention - Bond Market Is More Active.

NEW TORK. June 18.—Today's stock market dropped another notch loward the condition of absolute lifeleasness. There was dition of absolute lifeleasness. There was some special demand for United States Leather certificates. If these are deducted from the day's total, the remainder will also as low no aggregate of sales as any full day in over four years.

The movement in Reading was ancouraged by rumous in circulation once more of a proposed increase in the dividend rate. The deal of proposed increase in the dividend rate. The deal of the movement is resulted to the processing issue of the new securities will be made the occasion of some market activity for their benefit. The comparative activity in the certificates of the Japanese 4th per cent bonds, which have been in demand ever since the news of the hattle of the Saa of Japan, proved an inviting field for the professional room traders, hereful of any other opportunity of affecting a surface face in professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional room traders, hereful of the Saa of Japan, proved an inviting field for the professional

ment excited only languid interest, as the principal importance is attached to the loan liem. The money market shows some effect of the toward the control of the toward land to the land year's artifement. Quotations are largely nomical lowing to the almost total lark of demand for time fulfile.

There was some remaining uneasiness reported from foreign markets on account of the Moroccan situation. The May foreign trade statement afforded gratifying evidence of the expansion of our foreign commerce. The wigns of pervouences in the grain market, lad no coin in the stock market.

Aside from the Japanese elli certificates, the bond market was full and irregular. Total sales, par value, \$4,310,000. United States bonds were all unchanged on call.

Railway Earnings Show a Gain and PSales High Low, 1841 Foreign Commerce Steadily Increases-Warmer Wenther Aids Distribution.

> NEW TORK, June 16.-R. G. Dun & Ca's Feekly Review of Trade tomorrow will say: Moderate improvement is noted in comercial conditions, although progress is along nservative lines and there is no evidence speculative excesses. Mercantile paystlook having a salutary effect on all comercial operations.

Railway earnings thus far available for

Railway earnings thus far available for fone average 8.7 per cent higher than lass cear, and foreign commerce at this port for the last week shows gains of \$1.005,312 in expects and \$2.05,868 in imports. In every department of business the past week makes a strikingly favorable comparison with the corresponding week of 1804, when prices were tending downward and there was much complaint of the early Summer duliness, yet there is fin indication at the present time of the unreasonable enchosiasm that threatens stability through he present time of the unreasonable en-husiasm that threatens stability through eckless purchases in excess of wholesome consumptive requirements. Iregularity continues in the hide market. Many divisions are nominal, and foreign lary hides have declined another fraction, mak-ng a bies of a full cent from the recent top

count.
Failures this week numbered 279 in the United States against 257 last year, and 25 n Canada, compared with 16 a year ago.

WARM WEATHER HELPS, Distributive Trade Shows Steady Im-NEW YORK, June 16.-Bradstreet's tomor

NEW YORK, June 14.—Bradstreet's tomorrow will say:

Distributive trails and crop developments, while still of an irregular character, hold and have perhaps added to the improvement manifested last week for which warmer weather is responsible. Confidence in the future still continues. The export trade is good.

Railway earnings are large, building is active and steel mills engaged on the heavier forms of finished material will not close down this Summer. The labor situation, though disturbed somewhat, is on the whole a pleasant one. Crop prospects in general continuafavorable, although corn conditions are aposted and the plant is very much behind. Prices of all products still seem to favor the agricultural interests. Floor mills are inactive, awaiting receipts of new crop wheat. Wheat, including floor, exports for the week ending June 15, are 658,017 bushels, against 1476,340 last week, and 2,044,421 this week last year. From July 1 to date the exports are 80,801,257 bushels, against 131,e62,712 last year.

the week ending June 15 number 177, against 194 last week and 184 in the like week last year. In Canada, failures for the week mumber 28, against 25 last week and 18 in this
