Fifty-One Minutes Ahead of Time.

CLEVELAND, O., June 18 .- What was the most remarkable railroad run on record was finished here tonight, when the new eastbound Twentleth Century train of the Laka Shore & New York Central Railroad arrived at the station in this city 21 minutes shead of time. In the 357 miles from Chicago to Cleveland the new fiyer arrived at the three terminals 51 minutes ahead of scheduled time-15 minutes ahead at Elkhart, 191 mlies from Chicago; 15 minutes ahead at Toledo, and 21 minutes ahead at Cleveland. It is improbable, however, that she would insist on Russia making the request. It is gencrally expected that when the missions have been announced the President will suggest to the belligerents the advisability of a limited truce and that this suggestion will be accepted. Instructions will then go to Linievitch and Oyama to sign the armistice.

### Armistice Discussed at White House,

The whole question of an armistice has been informally discussed at the White House, and the belief in diplomatic circles is that there will not be a bitch on this score, Japan preferring that the armistice shoud be signed in the field by the Russian and Japanese commanders, and there are indications that this will find approval in St. Petersburg.

General commendation is volced in llipiomatic circles of the President's tact in not communicating to Japan the suggestion from St. Petersburg for a reconsideration of the selection of

Washington for the conference. The irrevocable opposition of Japan to any capital of Europe was a matter of common knowledge in Washington, and the transmission of any such suggestion, it was realized, would only invite em phatic refusal from Japan and possibly seriously mennes the convening of the conference.

It was learned today that the issuance of the authoritative stalement on the subject from the Russian Embassy hero late last night was based upon advices from St. Petersburg that the election of Washington was to be officially announced in the Russian capital, thus removing all doubt on that acore

## Meeting Place Incident Closed.

There have been several explanations current among diplomats as to the reason for Russia's suggestion, one being that it was based on a misunderstanding about the finality of the decision to select Washington and the other that St. Petersburg believed that the President greatly preferred The Hague, Both explanations, however, are unofficial, and in view of the Russian Embassy's authoritative statement the incident is regarded as closed. .

Pessimistic reports from Europe about the Washington conference are not shared by the diplomats here. An European Ambassador who has from the outset been in close touch with the negotiations, said tonight:

"What Europe does not seem to realize is that in these negotiations is that in these negotiations President has dealt not with war party in Russia nor that they are doing great damage to fruit the with Count Lamsdorff, but with trees, corn and truck gardens.

and are involved in the case against Machan, the celebrated, or rather noto rious, postal official. Hooker's young nephew wanted money

to go through college. Hooker had him appointed a clerk in a postoffice. He never did any work, but he drew the salary. A man in the district owed Mrs. Hooker,

wife of the Judge, \$2500. He was promptly appointed a letter carrier, and each onth turned his check over to Mrs. Hooker. This man admitted on the stand that he never did any work for the Gov ernment and never expected to. He simply adopted an easy way, suggested

### Graft From Rent of Building.

A building owned by the Judge was leased by the Government for a postoffice, at what was admittedly an exorbitant rental. Despite this the amount was 'twice raised at intervals of a few months.

These are only a few of the facts brought out at the inquiry, but they will do as examples. Republicans all over the state united in a demand that Hooker be removed, and, despite his powerful friends, it is conceded that nothing can save him.

> There are two ways whereby the people of New York can rid themselves of an unfit Judge. The first is by impeachment, and the mode of procedure is practically the same as-that adopted by the United States.

The Assembly (the lower house) presents a formal impeachment, and prosecutes it before the Senators, who pass judgment on the accused.

#### . Resolution of Removal.

The other mode, however, is the or that will be adopted. It simply consists in the passage by both houses of a resolution that the accused shall be removed. and carries no penalty beyond forfeiture of office.

It is provided, however, that charges shall be served upon the accused, and he be given an opportunity to answer,

but beyond that he has no rights whatscever. There is no court to which he can appeal. All that is necessary to oust him is a two-thirds vote in both houses.

The general opinion here is that the vote will be unanimous for expulsion, but nobody can convince Justice Hooker of the fact. He still believes, that in some mysterious way he can prevent a two-thirds vote against him in one house
