PRAISES FIRE-FIGHTERS .- In its issue of June 10, Fire and Water Engineering, a journal published at New York City and devoted to the interests of fire protecwater supply and sanitation, speaks in the highest terms of the Portland Fire Department, and is especially profuse in its praise of Chief Campbell, whom it states possesses more than a National reputation for ability in his particular line. Coming from such a high authority, this issudation is significant as show-ing that Portland in point of population possesses a department fully as effective as any city in the Union, the recent parade of the fire-fighting force being an object-lesson in that respect.

COUNCILMAN RIDES ENGINE.-The picturesque figure of Councilman-elect Shep-berd perched on the quarterdeck of a roadrolling engine attracted general attention on Fifth street Saturday, where the city is laying several blocks of new bituminous pavement. He was said to be studying conditions with a view of meet-ing the demands of the situation when he is inducted into office. There is no foundation for the report that the machine whose tiller was in the hands of the new Councilman had anything to do with the damage to the car track at Fifth and

WANT LOWER FREIGHT RATE

Gray's Harbor People May Start Water Line to Get It.

Northern Pacific desire for more money may result in the establishment of a newater line between Gray's Harbor and PAGUE LEADS THE RUNNING Portland, to compete with the railroad ompany for the freight hauled to supply

Recently the Northern Pacific advanced its freight rates between Portland and Gray's Harbor points to a very noticeable oray's maroor points to a very noticeable degree, and now the business interests are working for the establishment of a water service for competition. The present rate over the railroad is from \$\mathbb{k}\$ to \$\mathbb{k}\$ a ton, according to the class of freight shipp-bd. The company has issued a new tariff, ef-

to \$9 a ton.
This advance is more than the shippers want to pay, but the road contends that the change has to be made on account of the railroad legislation of Washington, the necessity for the alteration of rates on acount of the creation of the Railway Com-

nission, and other reasons.

The shippers, however, take a different dew of the matter, and may there are three possible reasons to be given for the change. One reason is, as alleged by the railroads, that it is necessary on account of the prospective action of the Washington Commission, to put the freight rates into shape for examination by the commission. The second argument of the shippers is that the roads want to place their rates so high that they can lower them if ordered to by the State Commission or the Interstate Commerce Commission or the Interstate Commerce Commission. sion, and still leave them practically where they have been before and are at this time. The third reason given is that the road is taking a little opportunity at this time to retaliate upon the State of Washington for the laws passed at the last session of the Legislature. In sup-port of this last contention it is pointed out that the milling in transit rates on Washington wheat have been taken away and the old privilege of grinding grain en route can no longer be enjoyed. At any rate the business interests of

Lower Washington are sore at the roads and want lower rates. Arrangements were made some time ago to run a boat during the Exposition between Portland and Gray's Harbor, but the plan was not carried out. A movement is now on foot however, to resurrect this scheme and put one or more boats on the run both for the accommodation of passengers and shippers. It is estimated that it would be possible to land goods from Portland in Gray's Harbor in 18 hours, and that the bests could afford to carry goods if the rates were much lower than \$5 and \$9 a The plan is being urged, and those who are interested in the shipping situa-tion are confident that the new line will soon be in operation.

Election of School Director Gives Them Chance.

Race Is Three-Cornered and Lively. Large Vote Is Anticipated -- Polls Open From Two to Six o'Clock P. M.

An election for School Director to sur seed R. K. Warren, term expired, takes blace throughout Portland today, and any citizen of the state, male or female, who is 21 years of age, and has resided in the city 30 days, and is on the preceding asesament list, is entitled to vote, the chief qualification being the property owner-

interest in these elections, and it is ex-pected that the triangular contest today will draw out a large vote. There are three candidates in the field, viz.: B. S. Pague, I. N. Fleischner and W. L. Brew ster, although it is generally conceded that the race is between the two former, with the chances slightly in favor of Pague.

The polling-places are given below, and in this connection there appears to be some confusion, inasmuch as the bounda-ries are not properly defined, making it possible for all sorts of complications to arise. It is contended by a number of the School Directors and others interested in municipal educational affairs that this has been customary for years past, and that a qualified elector is entitled to vote at any polling-place, without reference to the precinct in which he or she may reside. It is alleged that this system is ob-served as a matter of convenience for those engaged in business, and if such is the case it does not seem to impose many safeguards against fraud, the question of repeating being an exceedingly open one. The city Board of Education will hold an informal meeting at II o'clock this morn ing to close up accumulated matters, and a regular session tonight for the purpose of canvassing the returns. The polls will be open from 2 to 6 P. M., and the polling.

GOOD ROADS TRAIN TO REACH DESTINATION.

Stops at Hood River Over Sunday and Party Enjoys Drive to

Mount Hood.

Today Portland will begin to entertain the fathers of the Nation's good roads, who were yesterday the guests of Hood River. Colonel R. W. Richardson, the secretary of the National Good Roads secretary of the National Good Roads Association, was up early yesterday morning to meet the special train from Chicago bearing the officers of the associ-ation and a number of the prominent members and speakers who will appear upon the programme, but he watted for the whiatle of the approaching train without success. In the afternoon he re-ceived a telegram from Hood River star.

ceived a telegram from Hood River, stat-ing that the entire party had driven to Mount Hood, and would therefore not be in Portland during the day, as had been intended. The special train stopped at Hood River Saturday afternoon and the travelets were entertained by the citizens. Yesterday morning they were shown the fruit farms and strawberry fields adjacent to Hood River, and in the afternoon were taken for their trip to Mount Hood. Returning from the mountain the party was given dinner by the people of Hood River.

The special was picked up this morning by the O. R. & N. train and will reach Portland at 8 o'clock. Arrangements have been perfected by Colonel Richardson by which the officers of the association will be entertained while in

the city by the Commercial club, several special trips having been provided

IRRIGATION EXPERT HERE

A. P. Stover Looking Into the Ser eral Oregon Projects.

A. P. Stover, of San Francisco, was at the Imperial yesterday for a short time, though he took no room and left as suddenly as he came.

Mr. Stover is the man who was selected by the Department of the Interior to make a personal investigation of the various irrigation projects in the State of Oregon and report to the department as more as he had completed his labors. The work does not have to do with those projects covered in the investigation of the Reclamation Bureau, which have been gorecisimation sureau, which nave ocen go-ing on in the state for several years, but with the districts where Winter, or flood water, frigation has been recommended as feasible. Of these districts the Land in the vicinity of Echo is the best known and has received the most attention though there are many other places throughout the interior of the state where it is alleged that the system would cause a great development in a short time and at little expense. Mr. Stover has been delegated to look into these various schemes and report whether or not they are worthy of Government aid, as has been given to the vaster and more costly plans for the construction of reservoirs and the artificial diversion and retention of the water from the Eastern and South-

of the water from the Eastern and South-ern Oregon streams and lakes.

Mr. Stover has been following his work for a couple of months, and is already in possession of a large amount of data which it is expected will be for the good of the interior when his report is made. The agent has been instructed to make no statements as to the result of his work or of the opinions formed, and for this reason nothing as to what he will suggest to the department has up to this time to the department has up to this time been announced. Mr. Stover was former-ly connected with the agricultural depart-ment of the University of California, and is an expert on irrigation and soil.

The banquet will be served under the shade of the grove, followed by toasts and responses. The record of the year's happenings in the clan will be read by Miss Agness Kelly, the secretary, which includes accounts of marriages, births and deaths and other incidents. At this reunion the place of High Priestess Mrs Sarah Kern will be vacant. Election of officers will then be had and the re-mainder of the day will be spent in a re-

The Kelly Clan is composed mainly of he descendants of "Father" Clinton Kelly, who came to Portland with his ons in 1850 and settled on what is now known as the Waverly tract on the East Side, and, with those of the family liv-ing in Oregon, Washington and California, now numbers about 369 persons. "Father" Kelly, as he was known to Portland peo-ple, left Kentucky in 1867 for Oregon, with his brothers Albert and Thomas. Albert turned back. On arriving in Portland the sons worked for Governor Abernethy at Oregon City, and in the Spring they ught at Portland, then a village of huts bought at Portland, then a village of huts, 649 acres of government land for 80, which takes up Waverly, Kenilworth and most of the city out to Ivanhoe. The cian is made up of many prominent cit-izens, including Dr. Richmond Keily, Penumbra Kelly, P. J. Keily, Plimpton Keily, Mrs. Laura Turner, of California, and a long list of grandchildeen and and a long list of grandchildren great-grandchildren. Plimpton Plimpton Kelly who lives on the Section Line road, on the farm which he cleared of stumps fifty years ago, is chieftain of the Kelly Clan. Mrs. Laura Turner, of California.

AT THE THEATERS

Clarice, Rucket's wife Metta Chamberlai Tolman Edith Montrose Madge O'Dell Captain Racket Charles W. York Timothy Tolman William Harris Ohadiah Dawson George B. Berrell

Charles W. York appeared for the first time yesterday afternoon as leading man with the Empire Stock Company in "Racket's Wife," and made good. His acting is easy and natural. Both at this performance and the one last night, large audiences attended and laughed at the genuine fun in this sparkling comedy from start to finish. "Racket's Wife" is just the attraction for Summer weather, when one doesn't want to think very hard-just to laugh at something worth while. Spe-cialties are given by Lynton Athey and A. Neale. The comedy was recently pre-sented at the Empire Theater by nearly the same company, and an extended no-tice at this time is therefore not neces-sary. All the parts are well taken, and the play well staged. "Racket's Wife' will be presented this afternoon at 2:15 and evening at 8:15. Tomorrow the Empire players make way for Mrs. Piske,
