

THEY PUSH AWAY
BIG WAR CLOUD

France and Germany Agree to
Conference on Moroccan
Affairs.

ITS SCOPE IS RESTRICTED

France Promises Not to Attack Integrity of Morocco and Germany to Limit Conference to Commerce and Reforms.

PARIS, June 19.—An international conference for the consideration of the affairs of Morocco is now practically assured as the result of the conversation between Premier Rouvier and Prince von Radolin, the German Ambassador, and attention is now directed to defining the scope of the conference. Details are being rapidly arranged, and the officials are expected to be able to announce the plans for the conference in the course of four or five days. This result, after the severe strain which tested the diplomatic resources of both governments, has the effect of relieving the tension, the officials of the Foreign Office and the diplomats of the German Embassy agreeing that an amicable adjustment is near at hand.

Agree on Main Points.

Although the details of the conference has not yet been settled, it is understood that the two governments substantially agree on some of the main features involved. Germany has suspected that France had designs on the sovereignty of Morocco, but the negotiations disclosed that France had not questioned this sovereignty. Similarly it was disclosed that France had not designed to interrupt the present territorial or political status quo of Morocco. This appears to have been one of Germany's chief apprehensions, as any change in Morocco's status quo might involve an ultimate French protectorate similar to that over Tunisia.

Activity on Frontier.

A dispatch to the Temps from Metz says that the Sixteenth German Army Corps is showing less activity than the Twentieth and Sixth French Corps, as the Sixteenth German Army Corps has been continually on a war footing and is prepared for immediate mobilization. The dispatch says that the inspection of troops has been active on both sides. However, this activity has been less marked recently, as all eyes have been turned toward Paris in the expectation of a favorable result of the diplomatic negotiations.

FRANCE YIELDS MAIN POINT

Agrees to Conference With Restrictions as to Subjects.

BERLIN, June 19.—Premier Rouvier has informed Prince von Radolin, the German Ambassador at Paris, that France is inclined to accept the invitation to take part in the proposed conference on Morocco providing the German and French governments can reach a mutually satisfactory agreement as to the precise points to be considered by the conference. The conviction exists at the Foreign Office that France and Germany will be able to agree upon this programme. Although serious differences of view are yet to be reconciled, the authoritative judgment of the Foreign Office is that they will all be overcome by negotiation.

STUDYING IRRIGATION IN UTAH.

SALT LAKE, June 19.—The members of the Congressional committee, which is investigating irrigation works and irrigation projects in the West spent today in the vicinity of Provo and Lehi, Utah, inspecting the best sugar beets and the great fields where sugar beets are grown under irrigation. The trip was made in a special train over the Denver & Rio Grande Railroad. The party returned to Salt Lake City and this evening was entertained at a dinner given in the pavilion at Saltair. The Congressional party left for the north late tonight. The next formal session of the committee will be held in Idaho, for the purpose of inspecting the Minidoka irrigation scheme. From there the journey will be continued to Boise and the Payette country. Three days will be spent in Idaho, after which the party will continue to Oregon, spending one day at the Lewis and Clark Exposition. The return trip will be made via Seattle, Spokane, Billings, Mont.; Cody, Wyo., and thence to Colorado.

Paris Newspapers Hopeful.

PARIS, June 19.—This morning's newspapers unanimously agree that the Franco-German situation has a brighter outlook. The Figaro remarks: "We may henceforth have more confidence in a pacific issue." The Echo de Paris says: "Germany has accepted the views of M. Rouvier." The Journal says: "The importance of the result obtained is appreciable when it is remembered that Germany hitherto has maintained silence in response to attempts to open negotiations." The Humanite says: "The horizon is clearing." The Petit Journal says: "There is considerable relaxation of tension, with the hope of a final arrangement."

Italians Favor France.

ROME, June 19.—The Italian press, the information of which regarding the Moroccan question is generally meager, is inclined to favor the views of the French government.

NEW POLICY OF THE POPE

ADVISES CATHOLICS TO BE ACTIVE IN POLITICS.

Cancel Old Edict Against Voting in Italy, That Church May Fight Socialism.

ROME, June 19.—The Pope has issued an encyclical encouraging Catholics to participate in public affairs. While seeking the advice of ecclesiastical authorities, the encyclical says: "Catholics should retain complete liberty of action regarding their temporal interests." Members of the clergy are recommended to refrain from participating in party strife. The encyclical has created a sensation. Its object is to induce Catholics to enter public life, so that they may be a force against the threat of socialism. This morning's newspapers comment on the importance of the encyclical, the effect of which, they say, will be to do away with the reluctance of the Catholics to recognize Italian legislative institutions. It is the first time, the papers point out, that the Vatican has invited Catholics to vote.

ROOSEVELT IS TOO SWIFT

Washington Police Stop President's Automobile for Fast Riding.

WASHINGTON, June 19.—It developed today that President Roosevelt's chauffeur was overhauled for speeding yesterday afternoon while carrying the President, his son Theodore and two of the latter's friends along the road to Great Falls. Two policemen, considering that the chauffeur was going at a speed greater than that allowed by law, gave chase and overhauled the automobile. When they learned who the occupants were they hastily withdrew after the President had cautioned the chauffeur to slow to a little.

GUARDSMEN IN SESSION

National Association Opens Convention in St. Paul.

ST. PAUL, June 19.—Assistant Secretary of War Robert S. Oliver, an hour including representatives of the Army, Navy and Marine Corps, arrived in St. Paul today over the Northwestern Railroad. National Guard Association, to be held in Armory Hall here.

MUST HAVE SAILED FRIDAY

Panama Steamer Bumped in Collision and Has Fever Suspects.

NEW YORK, June 19.—The Panama Railway steamer Finance arrived here from Colon today in a badly damaged condition as a result of a collision with the Spanish steamer Montevideo in Colon harbor. She will go into drydock for repairs. A preliminary examination showed that, while the Finance was badly damaged, it would be entirely safe for her to make her regular trip to New York, where facilities for making the necessary repairs are better than at Colon. The collision was caused by disarrangement of the Montevideo's steering gear.

DEMAND MANY CHANGES

Woodmen's Clerks Take Radical Action to Improve Methods.

MILWAUKEE, June 19.—Having installed a new board of officers, refused to endorse the law committee's recommendation that the head office of the Modern Woodmen of America employ traveling auditors, ordered summary dismissal of incompetent clerks, tabled a resolution to abolish bread state physicians, rejected a proposed change in the method of collecting assessments from newly elected members, demanded a higher salary for the head clerk of the society, as well as for the secretary of its own organization, the Local Camp Clerks' Association convention held its

FOUR HURT IN
AUTO SMASH-UP

F. R. Allen, Two Women, and
an Unknown Man Are
Injured.

CRASHES INTO WOOD-CART

Accident Takes Place Near Twelve-Mile House, and Ambulance Is Sent to Bring Victims to the Hospital.

Early this morning, just this side of the Twelve-Mile House, an automobile in which were F. R. Allen, "Sketch" Davis and two women, was demolished, and Allen and the two women seriously injured. The automobile crashed into a wood wagon, and the driver of the wagon was badly hurt. The automobile was completely wrecked, and the broken machine was taken to Twelve-Mile House, where the injured ones were temporarily cared for until an ambulance from one of the hospitals, which had been summoned from the city, could arrive to take the victims where they could receive medical attention. "Sketch" Davis, it is reported, escaped without any serious injury. He was acting as driver for the party. Allen and the unknown driver of the wood wagon are said to be badly hurt and the two women in the party sustained severe injuries.

LAST HOPE FOR HER LIFE

Appeal to Federal Court to Save Mrs. Rogers From Gallows.

WINDSOR, Vermont, June 19.—It is reported here tonight that a writ of habeas corpus in behalf of Mrs. Mary A. Rogers, whose execution for the murder of her husband is fixed for Friday next, has been granted late tonight at Brattleboro by Judge Wheeler, of the United States District Court. According to the report, the prison officials will be required to produce the woman in court in this town at 2 o'clock on Wednesday, only six hours before the time set for her execution. It is said that the state will be required to show that Mrs. Rogers is not illegally restrained of her liberty.

Will Speak at the Fair.

Berlin, June 19.—Professor Hirschberg, of Berlin University, the specialist in ophthalmology, leaves Berlin today for Portland, Ore., where he will make an address before the American Medical Association.

FAMILY LIFE IN DANGER

ARCHBISHOP FARLEY INDORSES ROOSEVELT'S VIEW.

Declares Divorce May Destroy Social Structure and Holds Up President as Noble Example.

NEW YORK, June 19.—Archbishop Farley declared at Carnegie Hall tonight at the commencement exercises of the College of St. Francis Xavier that the laws of divorce were undermining our society, and that the whole structure would shortly collapse, should no hand be raised to ward off the advance of this tendency. The archbishop spoke as follows: "I believe no President since Washington's time has had a more beneficial effect on the roots of society and the family than Roosevelt has by means of his frank declarations. Not only does the President preach the doctrine he believes, but he exemplifies it in his own life, and his own family stands as an illustration of what the Nation's executive thinks and says. It is likewise gratifying to find that the President has not confined his labors in this direction to the heads of our Government, but has taken this question up and will deal with it. When the heads of our Government take up a problem of this grave nature there can be no need for the people doubting that the situation must be gravely considered, and we feel that much good will be done if effort is properly directed."

Torrid Weather in New York and
Pittsburg Slays Twelve Persons
and Prostrates Many—Stam-
pede to Ocean.

LONDON, June 19.—According to the Daily Chronicle, experiments conducted for six years in the Cavendish laboratory at Cambridge University by J. Butler Burk, a young professor, who for a long time worked with Professor Thomson, have almost certainly demonstrated the possibility of spontaneous generation. By means of radium and sterilized bouillon placed together in a test tube, Professor Burk obtained cultures presenting many appearances of vitality, such as growth and subdivision.

HE HAS PRODUCED LIFE

Cambridge Professor Solves Problem of Spontaneous Generation.

NEW YORK, June 19.—Many prostrations and four deaths, the latter all of young children, accompanied the renewal of yesterday's torrid temperature, aggravated by a high degree of humidity in the early hours of today. At 11:30 P. M. the thermometer marked 88 degrees with every indication of a further rise, but soon afterwards relief came in the shape of a cool breeze from the sea, accompanied by a rapid fall in temperature and humidity which continued steadily until tonight, when the air was almost too chilly for the comfort of the thousands who had fled to the seaside resorts to escape the heat of the morning.

FIERCE BLAST
AT MAYOR DUNNE

Civic Federation Delivers At-
tack on Municipal Own-
ership.

BEEN TRIED AND FAILED

Bad Management of Water and Elec-
tric Light Plants Cited as Warn-
ing Against Municipal
Street Railways.

NAME PEACE COMMITTEE

TEAMSTERS MAKE NEW EFFORT
TO END STRIKE.

Appoint Two Committees, and Shea
Promises to Stand Aside—Break
in Strikers' Ranks.

CHICAGO, June 19.—(Special.)—Municipal ownership and the policy of Mayor Dunne, to say nothing of Chicago voters, who went on record last Spring, received a slap in the face today when the Civic Federation unanimously adopted a resolution strongly advising against municipal ownership. The report deplored what is called the municipal frenzy and pointed out some of the weaknesses of the plan as thus far tested in Chicago. It reads in part: "The executive committee is unanimously opposed to municipal operation of public utilities and it regards municipal ownership of any of them under present conditions as impracticable. It does not feel that in the nature of things the city can possibly be successful in the management of any of the so-called public utilities."

Two-Thirds of Water Wasted.

The waterworks system, operated by the city, is arranged as an instance of bad management, in that the receipts are only 24 cents a thousand gallons, although the water rate is supposed to be 3 cents. The conclusion inevitably is, according to the report, that two-thirds at least is wasted of the 137,000,000 gallons of water pumped annually. "We feel," says the report, "that in the reorganization of the pumping, distributing and merchandizing of the water alone the present administration has a tremendous problem on its hands which will take considerable time to work out."

Electric Light Too Costly.

The plant has been in operation some 15 years. The cost of operating the 5900 arc lamps owned by the city, adding interest
