WASHINGTON, D. C., June 18 .- (Special.)—President Roosevelt is urging the completion of the steps preliminary to peace negotiations between Russia and Japan in the hope that an armistice may be arranged before a battle is fought in Manchuris. The indications that a battle impending have spurred the Presiden

int Cassini, the Russian Ambassador and Mr. Takahira, the Japanese Minister, called at the White House this afternoon by request of the President, who urged each of them separately to hasken a conclusion of preliminaries. They were asked to further the prompt naming of piculpo-tentiaries, and the fixing of a date on which the begotiations will begin. WILL MEET MIDDLE OF AUGUST

Peace Conference Must Await Arrival of Envoys From Japan.

WASHINGTON, June 19.—Kogoro Takahira, the Japanese Minister, called at the White House today to inform the President that the Japanese pleni-potentiaries would be able to reach Washington the first part of August, if it was deemed desirable for them to be here by that time. The personnel of the mission has not yet been an-nounced. When the President re-turned to the executive office after recelving Mr. Takahira, he found Coun Cassini. Russian Ambassador, await-ing him. The information brought by Minister was communicated to the Am bassador, who is cabling his govern-ment tonight to find out when the Rus-sian mission will arrive. When this is known, it will be possible to decide upon a date for the conference. The general belief is that it will convene about the middle of August.

No Armistice Before Battle.

As has been reiterated in these dispatches, Japan will not ask for an armistice, insisting that the initiative must come from Russia. The optimistic reports of the last few days received in St. Petersburg from the front have greatly raised the hopes of the Bussians that a land victory is near. and the war party is opposed to the nding of a request for an armistice this time. Japan is not at all desirous of a temporary cessation of hostil ities, for between now and the begin ning of the rainy season in August. Oyama is expected to accomplish great achievements in Manchuria. However, after the pienipotentiaries have been appointed, the informal discussion of an armistice will be resumed, and, in case the President takes the initiative in suggesting a limited truce, both belligerents will give the matter serious consideration.

Mr. Takahira will leave tomorrow morning for Tufts College, where he will deliver the address upon the fifti-eth anniversary of the college, and will receive the degree of Doct The Minister will return to Washington to meet the President upon his

No Heip in Booming Towns.

Whether the conference will actually sit in Washington or not has not been determined, as that is a detail that will be left to the envoys themselves and their respective governments. It is said that decision will be reached on that point intil the conferees meet here and organthe. If the weather in Washington at that time should be unfavorable, it will be within the authority of the plenipotentiaries to adjourn to some other city. that decision will be reached necessarily ing the past few days the President has received as many as 100 letters suggest-ing various clies in the country as desir-able places for holding the conference. The President will not permit himself to be drawn into the discussion of this subect, and the Government will not at choice of the conferees. It is regarded as probable that this city will be at least the scene of the beginning and the end-ing of the conference, although the in-tervening sessions may be held clas-where. It will be known in diplomatic history, therefore, as the "Washington Conference," and the convention, if one

Impending Battle May Endanger Negotiations for Peace.

WASHINGTON, June 19.-While progress of the preliminary negotiations for peace between the Far Eastern belfor peace between the rar mastern per-ligerents is necessarily slow at this stage of the proceedings, it is known that Presi-dent Roosevelt hopes they practically may be concluded before he shall go to Oyster Bay for the Summer. It is expected that if nothing unforescen shall have oc-curred in the meantime, some definite announcement of the status of negotiations may be made soon after his return. There is a possibility even that the se-lection of the plenipotentiaries of both Russia and Japan may be announced be-fore the President leaves tomorrow night

for Mussachusetts. It is the hope here that the arrange-ments for the conferences may proceed with such facility as to avert a general engagement in Manchuria between the

It can be said that President Roosevell It can be said that President Hoosevelt is giving no heed to irritating personal references to him which have appeared in a part of the Russian press. His conduct of the peace negotiations thus far has been as nearly directly as possible with the Emperors of the belligerent powers, and the arrangements concluded represent their personal views, as well as his own. The reference to the President by an important St. Petersburg newspaper own. The reference to the President of an important St. Petersburg newspaper as a "broker" is regarded here as most unhappy, although it is known in Washington that it does not reflect the sentiments of the St. Petersburg government.

Such comments serve, however, to ac stuate the desire of the President and of the powers generally to avert, if pos-sible, another serious engagement on the Manchurian battlefield, lest the conciliatory efforts heretofore made may be ren-dered fruitless through the utterances of the Russian press, backed as they may be by the powers of the war party in the

On the contrary, backed by the military element, it is making a concerted effort to dissuade the Emperor from concluding peace. In the meantime, so far as indicated here, there have been no moves in the direction of a suspension of hostilities. No confirmation has been received here of the report that negotiations for an armistice had been begun between Oyama and Linievitch. On the contrary the latest news from the front leaves little doubt that Oyama's col-umns are in motion, and disquieting rumors are current here regarding the position of the Russian army, according to which Oyama has succeeded in pushing both bis flanks far forward, respectively, opposite Kwanchengtsu and Kirin, whence he can draw a noose around the troops below this line.

JAPAN'S TERMS ARE MODERATE

ST. PETERSBURG, June 28 .- (2 A M.) Japan's terms of peace, according to an interview had by a correspondent of the Novos Vremya with a member of the Japanese Embassy at Vienna. will prove to be more moderate than had been expected, and will be based on the propositions made in the Japanthe addition of an indemnity covering

the cost of the war.

Japan will not insist on humiliating terms such as the cession of the Island of Sakhalin, the disarmament of Viad-ivostok or the limitation of Russia's naval rights in the Pacific, but will in-

sist on guarantees against renewal of the war for half a century at least. The diplomat is quoted as saying that Japan wishes to live on terms of friendship with Russia in the future, and is not disposed to make over-harsh

Most Brutal Act of War Committed on Red Cross Hospital-Japanese Turn Russian Right and Force Retreat.

SPECIAL CABLE.

LONDON, June 20.—The Manchurian correspondent of the London Daily Telegraph cables particulars of what he characterizes as the "most brutal development of the war to date." He declares that on Sunday a band of Cossacks made an attack in force on a Japanese field hospital within which were some three hundred wounded Japanese soldiers and sick noncombatants. sick noncombatants.

The Cossacks, according to the corre-pondent, disregarded the red cross signal, which was prominently displayed, and fired several volleys of rifle bullets at close range. They then charged the hospital inclosure, putting to the bay-onet and sword all of the inmates. Some of the Russians dismounted and thrust their bayonets down the throats of the Japanese soldiers, almost decapi-tating them. Others were disemboweled. The scene was like a slaughter-house. Twenty surgeons were taken prisoners, after which the Cossacks fired the camp, burning everything, including large quantities of medical stores, which they could oot carry away.

The correspondent states that Field Marshal Oyama has sent a protest to General Linievitch and that the Japanese soldiers in the field threaten reprisals.
