TO CONSIDER THE TAXATION QUESTION Multnomah County Pomona Grange will meet today at Rockwood with Rockwood Grange. It is the regular quarterly meet-ing, but is expected to be of more than usual importance. At this meeting the taxation question will be discussed. Resdutions passed by Lents Grange will be resented to Pomona for consideration by A. F. Miller, a special committeeman. These resolutions protest in strong terms against the increase in the taxable valuation Assessor Zigler has announced he wil make on farms and all property in the county. Pomona will likely take some action in the matter, although it may not accept the resolutions as passed by Leuts. An interesting discussion is expected when the question comes up expected when the question comes up.

BOY BURGLAR CAUGHT .- "I was hungry and wanted to get something to eat," was the explanation Earl Hastey gave to Pothe explanation Earl Hastey gave to Po-liceman Quinian while being taken from the residence of Mrs. Frey, 760 Savier street, to police headquarters, late yesterday afternoon. The lad, who is but 15 years old, was caught in the act of ransacking bureau drawers. He was held by Mrs. Frey until the arrival of the police in a patrol wagon. The boy was not in-clined to talk much, but said he was from Texas. When found by Mrs. Frey, he had her purse. He was locked up, and will have a hearing today. When he entered the house from the rear, he could not see or hear the family, who were in the front yard, and he was thus entrapped.

DISTRICT MAKES GOOD SHOWING.-Mon-taville School district makes an excellent showing this year. The report of Clerk Ehlers shows that \$1900 of the bonds was paid off, and an addition of two rooms on the grounds was erected at a cost of \$1200. This is the first step taken toward paying off the bonded indebtedness of that district, which has carried \$12,500 in bonds for more than 12 years. The present Board of Directors. D. B. Dickinson, chairman, decided that a start should be made to pay off the bonds. Last year the census showed that there were 500 chil-dren in this district, and this year the ensus returns showed that there are 611 cupils of school age.

NEW YORK STATE SOCIETY MEETING The New York State Society will hold its semi-monthly meeting in the Elka Hall, Marquam building this evening at & o'clock. A pleasing programme will be rendered, and an enjoyable evening is assured. The society is desirous that all New Yorkers who are residents of Ore-gon, or who intend to reside here, should come to the meeting and be enrolled as members. All visiting New Yorkers will be cordially welcomed. Members of the other state societies are also invited.

To FLOAT THE BONDS.-Recorder Hanks. of St. Johns, is having the bonds to the amount of \$10,000 printed preparatory to placing them on the market. It is ex-pected that these bonds will be floated cithout trouble, although it was reported nat there was a flaw in the election, for the reason it was not specified on the ballots the separate items for which the bonds were intended, but good legal au-thority says that this was not necessary.

Struggle Promised in Good Roads Convention.

STRUGGLE FOR PRESIDENCY

Secretary Richardson Will Be Nominated Against President Moore for Highest Office in Gift of the Association.

In the National Good Roads Convention which opens this afternoon at Festival Hail, on the Exposition grounds, there will be an outward harmony and striving for the betterment of highways, but be neath the surface there will be a continua-lining up of forces on the question of elec-

The struggle will be for the presidency The struggle will be for the presidency between W. H. Moore, the incumbent, and R. W. Richardson, the present secretary. Both men have retained their offices since first elected, five years ago, and the prospective change does not come directly from them. It has been an outside movement and first took definite shape yesterday morning, when a committee of delegates from Oregon, Washington, Idaho and Colorado called on Colonel Richardson in his office in the tower of the Chamber. In his office in the tower of the Chamber of Commerce building and requested him to run for the office of president. "I had contemplated not running for secretary again," said Colonel Richardson,

"and giving up my connection with the organization altogether." But he was urged, and finally consensed to having his name introduced

Schism Among Delegates.

It immediately developed that the Na-tional Good Roads "Association has a broad schism in it, and that President Moore, after serving continuously since 1900, has recently acquired some powerful enemies, who are anxious to oust him from office. They speak of his methods of carrying on the association unfavorably, and indicate that Colonel Richardson

would be a more fitting man.
But there may be no election at all.
President Moore said last night that it rested with the executive cor centers of population. Those who are op-posing Mr. Moore, however, say that the

election will take place, and it is an-nounced on the programme.

James W. Abbott, Pacific Coast agent for the Office of Public Road Inquiries. for the Office of Public Road Inquiries, has been mentioned as a candidate for secretary of the Association, in case Colonel Richardson is elected president. He is an ardent supporter of Colonel Richardson and open in his denunciation of Mr. Moore, saying that the methods of the last year have been destructive and that Mr. Moore has made promises in the way of readpublidites which he cannot fulfill. roadbuilding which he cannot fulfill. Mr. Moore, on the other hand, states that the Natibual Association has never been in such good condition as at the present time, and that, so matter how carried on, it will be ultimately very suc

AT THE THEATERS

What the Press Agents Say.

BARNEY BERNARD'S SUCCESS Clever Comedian Making Big Hit at

the Marquam.

The clever Hebrew impersonator, Barney Bernard, in his jatest comedy-dram-atic success, "The Financier," which is being presented at the Marquam Grand Theater this week, more than pleased the big audience that witheased the second performance last night. Mr. Bernard's stage "Jew" is different from any other flebrew character ever produced on the American stage. To characterize his American stage. To characterize his work would be nothing short of foolish-ness. In the beginning, everyone who attends theaters knows what Bernard is like, knows he is indescribable, knows that to see him is to laugh and to keep on laughing. His comedy in the new play is as infinitable as it has always been, though in the continuous effort he has not as many chances perhaps as the enappier action of burlesque wo

the company, and that his duties con-sisted of office work, and he had little or no experience with the "trouble" depart-ment. Notwithstanding this fact. Albee, it is alleged, was sent out by the defendphone connection. There was a high wind, and he climbed a pole and supported himself when standing upon the cross-arm by holding the pole. It is also alleged that there were several wires of the old Columbia Telephone which had not been removed by the Pacific States Company, which succeeded to the interest of the former, and that one of these wires became entangled with an electric light. or the former, and that one of those wires became entangied with an electric light wire, causing it to become beavily charged, and the shock caused Albee to fall to the ground, a distance of @ feet, fracturing his skull.

TO NEW YORK IN 16 HOURS

Via Standard Line of America, the New York Central.

Just to demonstrate to the world the superiority of the Lake Shore and New York Central as compared with any other railroad in existence, on the initial trip of the "Twentieth Century Limited," on its 18-hour schedule from Chicago to New York, Sunday, June 18. the actual running time, including stops, was less than 16 hours. This was accomplished by the train running into each of the division terminals from 15 to 30 minutes ahead of schedule; and on account of it being impossible to leave the division terminals ahead of the advertsed leaving time; by way of novelty passengers were given an autoobile ride about the various cities while waiting for such leaving time.
The train was loaded to the limit with many prominent American and foreign people, including quite a num-ber of ladies, and they were unanimous in expressing themselves, not only en-route but on arrival in New York, that it was the most deligatful trip they had ever taken. They further stated that the performance of he train was so easy and comfortable, and devoid of every feature that would indicate any strain or special effort, that they were at times doubtful whether they were traveling on the renowned "Lake Shore Limited," on a 42-hour schedule. or on the famous "Twentieth Century Limited" on a 15-hour schedule. This performance of Sunday, how-

ever, was simply to show now easily it' could be done. Both east and west-bound trains are arriving at the New York and Chicago terminals each more ing a few minutes ahead of their sched-ule in every instance.

RELIEF IS NOW IN SIGHT

Water Shortage Down the Peninsula Soon to Be Over.

Residents on the Peninsula and at Highland are experiencing a water short-age as far as Portsmouth. This was exage as far as Portsmooth. Ins was ex-pected, but relief is now in sight, at least for the residents down the Peninsula from Commercial street. From this street a 16-inch main is being laid. At Ports-mouth it will be reduced to 12 inches. but will carry a great volume of water. The present shortage in that portion of the city is due to the smallness of the mains, and while the pressure will not be increased very much by this large main the water delivered will be several times more in volume than at present, the big main acting as a reservoir. The smaller mains in that district will be conemailer mains in that district will be con-nected with the big pipe as fast as they are reached and gates put in. It is not the intention of the Water

sittee to connect this main with the Upper Mount Tabor reservoir this year. This will be done next year. When so unected this pipe line will supply water for 35.000 inhabitants. This does not hold out any hopes that Mount Tabor people will get Bull Run water very soon. A member of the Water Committee said yesterday that Portland was growing faster than the facilities to lay mains and supply water. Special effort is to be put forth to stop the great wastage of water known to be going on.

was instantly killed.

Seven sallors of the French ship, which is loading lumber at the Eastern lumber mill, were out on the upper topmast yard overhauling the gear. Le Gac was almost at the yard arm, and none of his companions were looking directly at him.

The first the other men on the spar

knew of the accident was the sight o Le Gae turning head over heels in a rapid downward flight. He was so near the end of the yard that he fell clear of the side of the ship, striking his head and side upon the big rouga logs of the raft. A fall into open water might have saved his life.

Apparently Le Gac had loosened his hold upon the stay and loat his balance, dropping backward so suddenly that he had no time to cry for help.

Deputy Coroner A. L. Finley was summoned and made an examination. The remains were taken to the Finley undertaking establishment. The funeral will be held from there ton morning, the interment being in Mount alvary Cemetery.
