

GIANTS WIN AGAIN

Schiaffly Makes Great Triple Play Unassisted.

PORTLANDERS SMASH BALL

Pitcher Roach, of the Swashes, Fails to Puzzle McCredie's Men With His Twisters and Is Batted Over Diamond.

The Giants again defeated the Swashes yesterday, and this time it was "Handsome Skel" Roach that received a trimming at the hands of McCredie's Invincibles. "Skel" once upon a time made the assertion that the reason he would not sign with Portland was that he wanted to secure a berth on a winning club. Yesterday the local fans made him wish that he had never made the statement, for they battered the big fellow unmercifully during the engagement.

Triple Play Unassisted.

The real feature of the game was a feat that will keep the fans who witnessed yesterday's game talking about it for many moons to come, for in the very first inning when things commenced to assume a threatening attitude, Harry Schiaffly came to the rescue by pulling off an unassisted triple play. Plays of this kind are as scarce as the proverbial hen's teeth, and "Larry's" feat was greeted by one of the heartiest demonstrations ever given a player at a local game. The play came about in the following manner: French started off badly by losing Walters, and the former "Skel" ambled to first on four that were not over. He followed this by hitting Captain Rusty Hall in the stupa, which made two on the sacks and none down. Herr Wilhelm Kemmer, said by some authorities to be the greatest pitcher in the world, a dangerous man with the willow, ambled to the plate and took a mighty swing at one that he liked and connected for a line drive that looked for an instant as though it would go safe, but it curved toward Schiaffly, who was playing close to the bag, and he caught the drive, touched the base, returned to the pitcher's box and started for third, and in a few swift strides overtook Rusty Hall, completing the only unassisted triple play in the history of the Coast. French had done so quickly that it was several seconds before the fans realized what had taken place, and when they grasped the situation they gave the popular second baseman an ovation. While the crowd was applauding the feat, the Portland players surrounded Schiaffly and congratulated him, in which they were joined by several of the visiting men.

McCredie's Batting Good.

Aids from the triple play the batting of McCredie was the feature of the afternoon, for the "Judge" drove in all the runs scored by Portland. A pass to Runkle, an error by Roach on French's sacrifice bunt, and a two-base walkoff by the manager gave the locals their first tally in the third inning. In Seattle's half of the eighth, Hall's men tied up the game, Feeney broke into the hit column by busting one that French could not handle. Roach helped him along with a neatly placed sacrifice, Walters fled to center, and Rusty Hall earned himself a run by hitting the Seattle reuters by lining one to left, on which Feeney registered.

Portland was not to be outdone in this manner, and before they finished with Mr. Roach two runs had crossed the pan and the game was won.

Win Off Roach.

Ely Cates led off with a single, and was sacrificed to second by Runkle. French found Roach for a safe one, and Cates advanced to third. Atz' pop fly was muffed by Walters, but French was retired at second. Atz' sole second while Roach stood with the ball in his hand, and both he and Cates scored on McCredie's hard drive which was partially stopped by Hall. The manager essayed to steal second, but the pitcher's foot retired the locals and ended the scoring, for Seattle went out in one, two, three order in their half of the ninth.

The feeding of Lew Freeman at third yesterday is worthy of mention, for this hard-working player made several pretty stops and throws, getting his man in each instance. The other fielding features were the work of Atz and Feeney, and a running catch by Ralph Frary.

Bert Jones or Garvin will pitch for Portland, while Freeman Fitzpatrick will bend them for the visitors, in the game scheduled for this afternoon.

The score follows:

READY TO COMBINE

Launches Will Swing Trade to Fair if Necessary.

OFFER FOR OAKS LANDING

Boathouse Men Forget Their Feud and Wait Upon Manager Hurlburt With Counter Offer of Payment.

Either the Exposition or the Oaks is to profit by the passengers carried by the 25 or 30 launches which are looking for business, and which yesterday were ready to enter into a combine and bury the hatchet.

On the steamer Canby late yesterday afternoon representatives of nearly 25 launches met to reach an understanding. The launch war at the Oaks has so demoralized business that were it not for the presence of the cruisers in the harbor there would be none at all. All four boathouses were represented, including the exclusive rights at the Oaks. Tuesday no boats were allowed to land there.

If Manager Hurlburt, of the Oregon Water Power & Railway Company declines the offer, the launches will have made their own will a golden opportunity for the Exposition management to swell their gate receipts, particularly on Sunday, when 5000 to 6000 are carried by launches to the resort up the Willamette. That many people went up the river on each of the three Sundays thus far, indicates that the launches will enter the harbor there would be none at all. All four boathouses were represented, including the exclusive rights at the Oaks. Tuesday no boats were allowed to land there.

Creditable Publication.

The Lewis and Clark number of the Pacific Northwest is a credit not only to its publishers, but to the entire state. Oregon is thoroughly exploited and the Fair visitor or homemaker can find detailed information about any locality in the state in its columns. The first section of the magazine is devoted to a review of the six great districts of Oregon with general information about the soil, climatic conditions and resources of each. Counties are taken up individually after this and many valuable statistical and other facts concerning real estate, agriculture and other sources given in detail. The mineral wealth of Baker and the rich agricultural and timber districts of Benton contrast pleasantly. Clackamas with its stock, grain, timber and fruit; the fisheries and dairies of Clatsop; the magnificent timber of Columbia and of Coos

WARSHIPS TO LEAVE SOON.

Cruisers Expected to Go to Puget Sound, Starting Sunday.

On Sunday morning the cruiser Chicago, the flagship of the Pacific squadron, is expected to leave down the river, and it is probable that the cruiser Boston and the destroyer Perry will also go at the same time. The collier Saturn, which was reported as leaving San Francisco for the Columbia, did not stop, but proceeded to Puget Sound. The annual target practice for the fleet begins soon, and will continue for nearly a month. All the vessels of the fleet will be on Puget Sound by that time.

Make Run to Coos Bay.

When the steamer Alliance goes south on her next trip she will only go as far as Coos Bay. She is due here tonight, and will leave tomorrow night.

One hundred and twenty-five days out from the Columbia, the French bark Eugene Faurel arrived at Falmouth Sunday. NINE NEWLY MARRIED COUPLES AT ONE HOTEL

BLUSHING brides and sheepish husbands had complete control of the Oregon Hotel, to the exclusion of all other guests, yesterday. Eighteen couples tied with the knot that no man should put asunder had rooms in the hotel at one time. Arrivals of the newly united couples kept the clerks busy carrying packed trunks and suitcases and dress-suit cases. Applications for the bridal chamber were repeatedly turned down. An old married couple that had weathered the storm for over 40 years and possessed one of the sacred chamber and under its inducements would give it up. The gray-haired veterans were J. F. Sloan and wife, of Salem. Miss J. F. Stevens of rice and one old shoe were still in the hotel at an early hour this morning, waiting to be removed by the porter. Some obnoxious genius with a bump of frankishness, but who is thought to be known to one of the newlyweds, procured a key from the day clerk
