Mr. President, when I became a can didate for the principal office of this Association I yielded to the solicitation of my friends before becoming a competitor of President Moore, and whatever I have done in marshaling my force of delegates for the election has been open and above board. I protest against such tactice as you propose, which takes the reins of this Association out of the hands of the delegates and the people they rep-

of the delegates and the people they represent and puts them in the hands of
a few who are centered on one interest."
With these words Colonel Richardson,
the Becretary of the National Good
Roads Association, yesterday afternoon
answered the attempt of President
Moore and his friends to do away with
the election of officers, under the pretense that the matter of election was
not in the official call for the convention.

"It never has been in an official call," said Colonei Richardson.

Shout at President.

Colonel Moore interrupted the speaker, and there were cries from all parts of were cries from all parts of "Walt until he gets through.

The scene yesterday afternoon was one of greater tumult than any ever seen in count of the Exposition. The by-laws of the Association set forth that officers shall be elected at the regular annual meeting. 'In such manner and by such method as the delegates of the Association shall determine.' Colonel Richardson called the attention of this to the delegates when the order of business reached the nomination of a committee to receive nomination for national of the matter resided with the delegates and to receive nominations for national offloers. President Moore immediately took things in charge and announced that there was a mistake in the programme. that the committee would not be ap-pointed and that an election would not

take place at this time.
"Why?" demanded Colonel Richardson. There was a meeting of the executive ommiffee at St. Louis at which time it was decided there would be no election, said Colonel Moore.

over the floor delegates spring to heir feet and addressed the chair. Colo-

nel Richardson was given the floor.

"Mr. President," said he, "It was un-cratood by the Lewis and Clark Fair, by the people of Oregon and the citizens of Portland that this convention was a Na-tional convention. The call was issued for a National convention. You made arrangements for a National convention arself. It is only since you have learned it I control the majority of delegates in this convention that you have changed your mind. If you say this is not the regular annual National convention you insult the good people of the State of Oregon and of the City of Portland, people who have put up their dollars to pay the expenses of a National convention. and who expect to see a National con-vention gathered here. If this is the reg-ular annual National convention, I demand-you proceed with the regular order of business and appoint a committee to receive nominations of officers. If it is not, you and I and every delegate will have to answer to the people of Oregon for the deception we have played upon them, and also to the people of this coun-iry who think we are in annual convention, and who expect some material re-sults, rather than a fight that is unjust and contrary to the laws of this associa-

As Colonel Richardson resumed his seat the delegates cheered and appinnede, despite the efforts of President Moore to call the convention to order. It was moved by Jackson, of Maine, to proceed with the appointment of the nominating committee. The chair declared the motion out of order. Colonel Richardson and others appealed from the decision of the chair. Colonel Moore would have none ber of Commerce are confident that a

To build up woman's nerv-ous system and during the period of change of life we know of no better medicine than Lydia E, Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Garfield Avenue, Chicago, Ill., writes:

"I have used Lydia E. Pinkham's Vogetable Compound for years in my family and it never disappoints: so when I felt that I was nearing the change of life I communed treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dirry spells, pains in my back and the headaches with which I had suffered for months before taking the Compound.
