CONSUMPTION CURED

Pierce Clobessy, of El Paso, Texas, Declares Duffy's Pure Malt Whiskey Healed His Lungs, Repaired His Digestive Organs and Restored Him to Vigorous Health.

"I began to improve at once and in three weeks gained fifteen pounds in weight." He writes:

"From personal experience I can testify to the remarkable curative properties possessed by Duffy's Pure Malt Whiskey. I commenced using this splendid medicine the first week of last December, and although suffering greatly from tuberculosis I improved from the start, and in less than three weeks I gained fifteen pounds in weight. It is the only medicine I use, and I take it in small doses five times a day. It has restored my appetite, healed my lungs, and my digestive organs are in most excellent condition. I feel as if I were a new man. PIERCE CLOBESSY, El Paso, Texas."

Duffy's Pure Malt Whiskey

It cures consumption by going to the source of the disease, killing the poisonous disease germs and driving them from the system. It is a perfect tonic-stimulant, invigorator and blood purifier, and the only positive preventive and cure for consumption, pneumonia, bronchitis, grip, coughs, colds, malaria and low fever, dyspepsia, disease of the throat and lungs, and every form of stomach trouble.

For over fifty years Duffy's Pure Malt Whiskey has been prescribed by doctors, recommended and used by ministers of the Gospel, temperance advocates, nurses and people prominent in every walk of life. It is the only whiskey recognized by the Government as a medicine. Free from fusel oil. Tails is a guarantee.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, unafraid of the excellence of this preparation, will try to sell you cheap imitations and malt whiskey substitutes, which are put on the market for profit only and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure Malt Whiskey. Sold in sealed bottles only; never in bulk. Look for the trademark, the "Old Chemist," on the label, and be certain the seal over the cork is unbroken. Beware of resealed bottles.

All druggists and grocers, or direct, \$1.00 a bottle. Interesting medical booklet free to anyone. Duffy's Malt Whiskey Co., Rochester, N. Y.

RUSSIA MUST GIVE PLEDGES

Japan Delays Armistice Till Assured Enemy Is in Earnest.

WASHINGTON, June 23.—(Special.)—There seems little probability of President Roosevelt's efforts to obtain an armistice having fruition at St. Petersburg. The character of the recent notes that have been exchanged still remains secret, but there seems no question that all related to a temporary suspension of the progress of the negotiations at St. Petersburg. The character of the recent notes that have been exchanged still remains secret, but there seems no question that all related to a temporary suspension of the progress of the negotiations at St. Petersburg.

During the day the State Department receives information through its own channels that Count Lamsdorff's illness was in a measure relieved for the minor delays now being encountered in the progress of the negotiations at St. Petersburg. The character of the recent notes that have been exchanged still remains secret, but there seems no question that all related to a temporary suspension of the progress of the negotiations at St. Petersburg.

NO HOPE OF EARLY ARMISTICE

Russia Suspects Oyama of Sparring for Time to Fight.

ST. PETERSBURG, June 23.—There is not likely to be any further move in the direction of an armistice until the plenipotentiaries are appointed and the time of their meeting definitely fixed. Japan seems unwilling to discuss any new issue until these two questions are settled. This does not necessarily mean that all hope of arranging a suspension of hostilities before the meeting has disappeared, but as an indication of Japan's mood it increases the doubt as to whether she could be induced to relinquish temporarily the strategic advantages which she evidently believes she enjoys. Indeed, it might raise the suspicion of sparring for time until Field Marshal Oyama has developed his offensive and is actually in process of delivering his blow, when Japan could easily plead it was too late.

The delay in settling the matter of the plenipotentiaries is, therefore, all the more deplored by those desiring to avoid further bloodshed. Both countries seem perfectly willing to name negotiators, but each evidently desires the other to show its hand first.
