Mayor Says He Befrauded City in Building Filtration Works--Special Session of Council on City Finances.

PHILADELPHIA, June 21 .- For the second time this week John W. Hill, exchief of the Bureau of Filtration, was arrested today on charges of forgery and fested today on charges of longery and falsification of certain books and papers for the purpose of defrauding the City of Philadelphia. After a hearing lasting nearly six hours, he was held in \$2000 bail for trial. His arrest today was a great surprise, coming so closely on his statement of innocence of forgery and faisingation of records on which charges he

cation of records, on which charges he was held in \$5000 ball on Wednesday.

The principal witness against Hill was S. G. Garrett, a former employe of the Filtration Bureau. Evidence was produced tending to show that estimates of the work done by Daniel J. McNichol, a contractor, were passed, and that the city was defrauded of about \$40,000. Counsel for the defense claimed that the evidence produced did not prove Mr. Hill guilty of the offenses charged.

There were many rumors affoat today that as a result of the arrest of Mr. Hill. other persons of prominence in municipal affairs would be arrested, but up to a late

hour tonight nothing developed.

Mayor Weaver today decided to call a special session of the City Council to take up the matter of city finances and to consider propositions for the removal of dangerous railroad grade crossings.

Mr. Carter says he has urged President Reconveit to accept his resigna-tion and appoint a successor. His action, it is declared, was not due to the election f A. M. Brown as High Sheriff, but had bost under consideration for some time. It was first written out on June 6, but was held on the advice of friends, who asked him not to send it to Washington. The resignation was the culmination of a long series of events which led Mr. Carter to the conclusion that he could be of more service to the territory of Hawaii outside the gubernatorial chair

than in that position.

Territorial Secretary Atkinson arrived today from China. He had been regarded as likely to succeed Governor Carter. This has been found to be impossible, as he is only 24 years old, while the law rene is only a years out, while the law requires the Governor to be at least & years of age. Among those mentioned as possible appointees to the office are H. E. Cooper, W. O. Smith, Edward Tenney, H. P. Baldwin and Senator Dowsett.

SKIFF CAST HIGH AND DRY

Guests on the Grim-Looking Torpedo-Boat Destroyer Enjoy the Swiftest Ride Ever Made on the Columbia.

The fastest time ever made on the Co lumbia River is 11 miles in 16 minutes, the speed made by the torpedo-boat destroyer Perry yesterday afternoon. This is at the rate of 41 miles an hour.

Something unexpected happened to a man sitting in a skiff close to the bank, The Perry was leaving behind huge swells that raced madly out on either side. The insuspecting man in the skiff was so in terested in the black-painted phantom that he forgot about the swell. The swell came along. When it was through with the boat, the skiff, with the man in it, was high and dry on the bank seven feet

above the level of the river.

Captain Bailey piloted the Perry on her
trip. A party of Rear-Admiral Goodrich's riends were taken up the Columbia, above the rock quarry, 35 miles from Portland. The fast time was made on the run back. Among the guests were C. N. Dolph and Captain W. H. Patterson. On the trip made earlier in the week

the Perry passed the fast steamboat Bailey Gaizert. One of the terrific awells from the twin screws struck the steamer and spiashed a good many gallons of wa-ter upon her lower deck.

There are about 400 bundles of gunnyascks on board, coming from Hongkong: also 1880 sacks of sul-phur, 126 slabs of tin, 1700 sacks of rice and 100 sacks of coffee.
