ASKS FOR TARIFF RATES

Members Ready to Learn Best Methods of Procedure From Other States-Lysons Will Give Up Secretaryship.

OLYMPIA, Wash., June 31 .- (Spebial )-The Railroad Commission, which a large portion of the people of the state have for years been striving to ure, at 3:30 this afternoon became formally organized body ready for usiness. At that hour the three members of the commission gathered in the Lieutenant-Governor which has been turned over to the com-mission with the Senate Committee rooms for headquarters.

"Are we ready to organize?" asked H. A. Fairchild.

"I taink we sro," said J. S. McMillan.
"I move," said C. J. Lawrence, "to
make formal the election of Mr Fairchild as chairman of this commission, as already signified by Governor Mead in accordance with the provisions of

This motion was declared carried by Mr. McMillan

Prior to the organization the mem bers of the commission had had three lengthy conferences. One was with the Governor in the morning, which was followed by a round of calls upon all the state departments, another in the litchell Hotel early this afternoon and he third in the commission's offices. There were no outsiders present at

any of these conferences except the Governor at the first and J. Will Ly-sons, secretary of the last state Senate, at the other two. Following the last conference, the statement was given out that Mr. Lysons was the nanimous choice of the commission as temporary secretary, with the distinct understanding that the board at this time is not prepared to choose a permanent secretary, and with the further understanding that Mr. Lysons does not desire to be further considered as a candidate for permanent secretary.

TAX LAND IN RESERVATION

#### One Hundred Thousand Acres Klamath Subject to Ruling.

SALEM, Or., June 25.—(Special.)—The right of Klamath County to tax 100,000 scres of land owned by the California & Oregon Land Company inside the Klam-Indian reservation was sustained today in an opinion rendered by Attorney-General Crawford. The land in question was formerly owned by the Oregon Cen-tral Military Wagon Road Company, hav-Ing been acquired by that company through a Federal grant to the State of Oregon for aid in building a militury road. The owners of the land objected to having It assessed and taxed, giving as a reason for their position that the land is in the possession of the Indian and thereby of the United States, and is therefore ex-

empt from taxation. empt from taxation.

In his opinion Attorney-General Crawford quotes from two decisions of the United States Supreme Court in cases involving the title to this land. In each case the Government was trying to defeat the company's title, but in both cases the company won. The Supreme Court held that the company's title is perfect and beyond challetize. Authorities are also cited to show that private property inside an Indian reservation is subject to the jurisdiction of the state for the serving of process and for taxation. In view of these adjudications upon the subject, the Attorney-General holds that the conclusion is trresimible that the lands are subject to taxation the same as any other private property. private property.

ELECTROCUTION FOR DOGS

Scattle Has Given Up Practice of Using Them as Targets.

SEATTLE, June 23.-(Special.)-Seattle has introduced electrocution to the dog pound. Five hundred voits of electricity shot into the body of a stray dog takes the place of the pistol for killing the un-redeemed canines.

The first use of electricity in the execu-

tion room occurred today. The wires of the Puget Sound Electric Company, oper-ating the interurban road between Seattie and Tacoma, were tapped and con-nection made with a new device. A coliar with copper rivets which touch the dog's hide is strapped about his neck and another about one of his legs. The cur-rent is turned on and the dog killed. Ten beasts were killed in that manner today, and not even a groan came to tell that

any suffering was endured.

Heretofore the dogs have been killed by shooting them, and a protest has been raised that the process was cruel. The dogs furnished a good mark for practic-ing pistol shots while the reason insted.

# SQUAW KILLS HER MOTHER

CRIPPLED WOMAN IS STABBED FOUR TIMES WITH KNIFE.

Mary Aleck Accused by Other Indians of Having Assaulted Aged Parent When Drunk.

THE DALLES, Or., June 22 - (Special.) -What yesterday appeared to be but an Indian camp fracas developed into a tragedy today when a crippled squaw known as Mollie, belonging to the Indians camped near Seufert's canneries, three miles above this city, died from knife wounds received presumably at the hands of an Indian girl named Mary Aleck on

Wednesday night. According to the story reported to the police, Mollie was engaged in hanging up salmon near the tent of her mother when Mary Aleck appeared, somewhat intoxicated, and calling upon Mollie, began beating her, finally producing a pocket-knife, with which she stabbed her victim three or four times. Mary Aleck is a strong, buxom squaw, from whom crip-pled Mollie had no chance of escape. In-terference was made by other Indians, who summoned the Sheriff and a physi-

cian from this city. Mary Aleck was brought into the Jus-ice Court this morning and an examina tion held, at which she denied all knowltion beld, at which she dealed all knowledge of the crime, contending that Mollie's people had put her out of the way on account of her crippled condition. This story, however, is not believed by those investigating the case.

The examination was adjourned this morning until further inquiry into the case could be made on the second the

case could be made on the scene of the attack, which was made later. Meantime the death of the wounded squaw occurring. Mary Alack was bound over to await the action of the grand jury, with-out bonds. An autopsy showed that the cuts which caused the death of Mollie had penetrated the liver and abdomen.

TELAUTOGRAPH TOO COSTLY

#### Machines Transmitting Handwriting will Be Removed From Forts.

SEATTLE, June 23.-(Special.)-It is not cause the telautograph will not do all its inventer claims for it, but because it is a machine too expensive to operate that Major Glassford, in charge of the United States Signal Service Corps here, has directed that the instruments shall be removed from the three Puget Sound forts. Flagler, Worden and Casey. Were the telautograph cheaper it would be in-stalled in other Northwest fortifications. A very high electric current must be maintained at all times for the telauto-graph, while it is only used on rare oc-casions. On the Coast the machine is re-

garded as a luxury.

In using the telautograph, the operator writes his copy with a pencil and it is transmitted immediately in the handwriting of the sender. Where it is imperative that the authenticity of an order shall be known the telautograph removes all be known the telautograph removes all doubt. It is exceedingly rure that such

HOLD-UP GETS ONLY A YEAR

Trainrobber on Second Trial Let Off Lightly.

BUTTE, Mont., June II .- A Miner specal from Philipsburg says: George Hammond, the Bearmouth train robber, was convicted this evening on his second trial in connection with the famous hold-up. The jury fixed his sentence at one year. Railroad officials were much

disappointed over the verdict. A proposition was made to Hammond that if he would plead guilty he would he let off with a sentence of seven years. Hammond refused, declaring he preferred to take his chances with the jury, as his ons in the penitentiary had raised \$172 for his defense. Hammond has served about eight months of a 15-year sentence given at his conviction upon the first trial in connection with the holdun. It was endeavored to give Hammond an ac lative sentence, enough to about equal a life term in the prison.
