Oregon Water Power & Rallway Company is completing extensive bunkers for crushed rock at a cost of over \$16,690 on the terminal grounds south of Hawthorne avenue. There will be a succession of elevated bins for the different sizes of crushed rocks, beginning to the south side of the grounds and extending northward a distance of about 500 feet. First there is a long trestle and upon this comes the rock bins in series. Double tracks run over the tops of these blus so that the crushed rock is dropped down to them. Wagons may take the gravel from the lower sides and will be driven under the tier of rock bins. The rock comes from the crusher located at Estacads. This material is being used quite generally on the streets, and seems to make a permanent pavement

U. S. Senator to Be Chosen by New Method.

PEOPLE WILL HAVE VOICE

Primary Act Dictates That Senator Shall Be Elected From One Candidate Selected by Each

Political Party.

Oregon's next Senator in Congress wil be chosen by a new method if the pur-pose of the direct primary law shall be carried out, for by that law each party, Republican and Democratic, will name a candidate for that office at the primaries, the intent being to force the legislature by public opinion into electing the candi-

by public opinion into electing the candidate of the party which is dominant in the lawmaking body.

This plan was tried in the legislature which met January, 1903, but failed. T. T. Geer secured the Republican nomination at the poils in June, 1902, and C. E. S. Wood the Democratic. However, C. W. Fulton was elected by the legislature. By the new method nominees for Senator would be chosen at the Republican tor would be chosen at the Republican. would be chosen at the Republican and the Democratic primaries—one by each party—for election by the legislature in January, 1907, just as nominees would be chosen for the various state offices for election by the people in June, 1996

Primaries in April.

The state primaries will be held next April "for the purpose," says the law, "of choosing candidates by the political parties, subject to the provision of this law, for Sen.tor in Congress and all other elective state, district, county, precinct, city, ward, and all other officers and detegates to any constitutional convent conventions that may be realter be called, who are to be chosen at the ensuing election wholly by electors within this state or any subdivision of this state, and also for choosing and electing the count central committeemen by the several par ties subject to the provisions of this law. The aim of the law is to take the choos ing of United States Senators away from legislatures and give it to the people. But since popular election of United States Senators cannot be effected without an amendment of the National Constitution to that effect, the direct primary law offers a plan for nomination of party candidates for Senator by the people, in-tending that members of the legislature in electing a Senator shall ratify the will of the people, as expressed at the pri-

A law with this purpose in view was A law with this purpose in view was enacted by the legislature in 1901, providing that "the names of all candidates for the office of Senator in Congress" should be placed on the ballot in state elections; that each house of the legislature should canvass the votes "and announce the candidate for Senator having the highest number and thereupon the house shall proceed to the election of a Senator as required by the act of Congress and the Constitution of the State."

Ignored Law in 1903.

But when the legislature met in 1903 the two houses ignored that law, inasmuch as it had no binding legal force and proceeded "to the election of a Senator as required by the act of Congress and the Constitution of the State"—the usual-

The direct primary law has no more binding force on the legislature in the election of Senator than had the law of election of Senator than had the law of 1993, and the members may vote as they please, except that they are likely to feel obliged by promises to their constituents to vote for the primary nominees for Senator. It is common gossip in political circles that candidates for legislative nominations, in order to win votes in next April's primaries will promise to vote for the "people's nominees" for Senator.

ment in this County. A Multnomah man now holds the office-John H. Mitchell. Since the men whom this county will put forward will have to make a campaign before the people, doubt has been ex-pressed that the men of the class desired will enter the race. Should only one Multnomah aspirant come forward the chances of his nomination would be favorable because of the large vote would receive in this county and the probably scattered vote of his rivals in other counties. This power of big counties in controlling nominations for all state offices has made aspirants from small counties anxious and has caused politicians in big counties like Multnomah and Marion to fear that the inevitable effect of the direct primary law will be to give big counties too many nomi-nations and to endanger the success of the ticket throughout the state,
