ANGRY AT ENGLAND

German Papers Accuse Her of Stirring Up Trouble.

MILD TONE TOWARD FRANCE

Many Concessions to Be Granted the Southern Neighbor on Account of Tension Between London and Berlin

BERLIN, June 26.-(6:45 P. M.)-The interview of M. Bihourd, the French Ambamador, with Chancellor von Bulow, was devoted to a detailed discus-sion of the French note, but the Foreign Office abstains from giving any informs tion regarding the results reached. It is semi-officially stated that the German an-swer has not yet been drawn up, hence the government and press resent the assertion in the London newspapers that the German government refuses to take the German government refuses to take into consideration every point raised by Premier Rouvier, and throughout the German press a growing impatience is manifested at what is regarded, as a British attempt to embroil Germany and

It is noted with satisfaction that some of the French statesmen begin to interpret Great Britain's interest in the Pranco-German difficulty in the same The newspapers quote approxingly words of General de Gallift, the ex-War Minister of France, that Great Britain alone wants war between France and Germany, for it would be to her own advantage and at France's expense. illar views are expressed in the Ger in press, the writers asguing that Great Sritain, having got rid of Russia for a ceneration through the war in the Far East, is deliberately working to fan the lames of the old hate between France and Germany and cause another war, which must weaken her only formidable rivals in Western European politics. Hence the press discussions of the Mo-roccan question are giving more and more importance to the role which is being

played in the present controversy.

It is noted that relations between Germany and Great Britain never were worse then at this moment. Hints dropped in official circles indicate that chagrin was felt at the Berlin court at the fact that King Edward sent no more important representative to the Crown Prince's wedding than the young Prince Arthur of Connaught, while it is plainly inti-mated that the failure of Emperor Wil-lam to send any representative at all to the wedding of Princess Margaret of Connaught was intended to give expres-tion to be recomment at this slight. felt at the Berlin court at the fact that sion to his resentment at this slight.

In view of this tension between Berlin and London, it is believed that Germany ill make many concessions is reach an understanding with France

Germany's Note Has Arrived.

PARIS, June 27.—A strong impression prevails that Germany's reply to the French note regarding Morocco reached Paris late last night, and that it will be presented in the course of an interview between Prince von Radelin, the German Ambassador, and Premier Rouvier, today. officials neither confirmed nor de niso the report that the reply had been received, maintaining the strictest reserve. Among the diplomats gathered at a re-ception given at the British Embassy here, the opinion prevailed that the reply was in the hands of the French officials, and the view was taken that the situation had undergone appreciable improvement. Although it was considered that the German response would not solve all dif-ficulties, yet it was expected that the ground would be cleared for the reaching of a definite understanding.

ROUVIER'S NOTE IS VERY PLAIN

Germany Alone Fails to Be Con- Former Maryland Senator to Be Jusvinced by It.

PARIS, June 35.—Premier Rouvier's note has convinced everybody of the correct and legitimate policy of France in Morocco, excepting Germany, and today the estantion is in an entirely different state Columb from that of last week. Fremier Rouvier's note clearly established the standpoint of France in one essential respect, that the proposal to an international con-ference obliges the French government to make it known that it has certain arrangements with other powers regarding Morocce which cannot submit to a revision by conference. These do not concern any other government, and must be regarded as final and irrevocable.

The Angio-French entents and the Franco-Spanish convention left France to a great extent a free hand in regard to her Morocco policy, and in this matter and not beyond it the French government can negotiate with Germany

war between Germany and France, set seem to think the outlook for the present the Kaiser's visit to Tangler the

since the Names what to denote the sequilibrium of Europe has been upset, and there is no prospect that the balance of power will be speedily restored. In this situation the idea no doubt suggests itself to friends of England and France that their respective positions in the pres ence of a common peril might be diswith mutual advantage, as the present situation might lead to unexpected devel-opments, and it would be wise to be prepared and not be taken by surprise. So far all that has taken place has been of such a nature as to open the people's eyes of France and England to the necessity of joint preparations for an emergency.

GERMANY'S POSITION KNOWN

Premier Rouvier Supposed to Have Learned From Von Bulow.

PARIS, June 26.-(5:45 P. M.)-Although Germany's formal reply to the French note has not yet been received, there is reason to believe that the interview be-twen Chancellor von Bulow and M. Bihourd, the French Ambarcador to Germany, resulted in quite fully foreshadow-ing Germany's intentions. The results of the interview are now in the possession of Premier Rouvier and he is not likely to make them known before the meeting of the Council of Ministers tomorrow, when the status of the negotiations will resignation, but he said that he could

However, a definite determination either favorable or unfavorable will not be red. Several proposals are under deration with a view to terminating the crisis, but until one of these is definitely chosen, the officials will be unable to predict its chances of success.

M. Rouvier conferred at noon with M. Leon Bourgeois and Jules Cambon, the

Public tension over the controversy is much relieved, the Bourse sharing in the

Report of Investigation Into Steam boat Inspection Service.

WASHINGTON. June 26.—Secretary Metcalf of the Department of Commerce and Labor today presented To the President the report of the Investigation into the steamboat-inspection service recently made by high officers of the Navy. This investigation was directed by the President, following the reception of the report of the committee which investigated the circumstances attending the disaster to the steamer General Slocum, when about 1000 persons lost their lives in New York bay.

The secretary says that the evidence before him from all sources indicates

before him from all sources indicates clearly that there has been a great increase in the past year in the efficiency of the steamboat inspection service, due in large part to the work of the commission that investigated the disauter to the General Slocum and to the

reinspection made subsequent thereto by the officers of the Navy.

The results of the investigation, which was made by officers of the

not see any reason why he should change his mind.

Received by Corean Emperor.

SEOUL, June 36.—Edwin V. Morgan, merican Minister to Cores, and the to predict its chances of success.

M. Rouvier conferred at noon with M. Leon Bourgeois and Jules Cambon, the French Ambassador to Spain. M. Bourgeois has been under consideration for a special mission to Berlin. It is understood that M. Rouvier will receive Prince. Radslin, German Ambassador to France, after the meeting of the Council of Ministers to Corea, and the Emperor today. Minister Morgan presented his credentials and a letter to the Emperor furnished Minister Morgan a guard of honor and said that America was the first western power that had treated with Corea and was laters tomorrow.

Morgan Presents Credentials. WASHINGTON, June 26 .- The State Department was advised today that Edwin V. Morgan had presented his credentials at Seoni as American Minthat

Specialists Are Hurried to Summer Home.

SERIOUS DANGER IS PASSED

Day Passes Without Recurrence of Bad Symptoms, and Secretary of State Is Expected to Be Out in a Few Days.

NEWBURY, N. H., June M .- The con NEWBURY, N. H., June S.—The condition of Secretary of State John Hay, who is confined to his hed at his Summer home near Lake Sunapec, by an attack of uremia, was regarded as favorable tonight by his physicians. After a few days of rest it is expected the Secretary will be able to leave his room. Dr. Charless L. Scudder, of the Massachusetta General Hospital, Boston, who came here with Dr. Fred T. Murphy, of Boston, Sunday night on a special train in response to a message from the family, remained in the village tonight, but Dr. Murphy returned home.

Dr. J. T. Cain, of Newport, N. H., who

was called to the Hay home before the arrival of the Boston physicians, is with Dr. Scudder. Both doctors are of the epinion that Mr. Hay will have no difficuity in overcoming the effects of the present attacks. An operation was con-sidered at one time by Dr. Cain, but the three physicians, after a careful ex-amination and a consultation, decided it would not be necessary. The attack was due to a chill caught on the journey from Washington, and is similar to one that Mr. Hay had four years ago. The Secretary passed a comfortable at-

ternoon and evening, and his family con-sidered that there is no need of further anxiety. Secretary Hay arrived at his

Summer home Saturday night. Secretary Hay began to be in pain early yesterday. Remedies which have given relief on previous occasions were applied, but failed to help him, and Dr. Cain was called from Newport. He found that in changing from the climate of Washington to the cooler tem-perature of the Lake Sunapes region the Secretary had taken a severe cold, and that organs weakened by previous attacks had been variously affected. Upon learning this, Mrs. Hay desired that specialists be summoned at once, and as soon as possible Drs. Soudder and Murphy were on the way here by special train from Boston.

The Boston & Maine Ballroad cleared

its tracks from Boston to Concerd, N. H., and the special made fast time between those two cities. The train then proceeded to Newbury by the Concord & Claremont branch. A launch was in waiting to convey the surgeons across Lake Sunapee, and the doctors reached the Sedside of the secretary at about midnight. A quick but complete ex-amination of the patient was made, and

midnight. A quick but complete examination of the patient was made, and it was seen that his condition, while exceedingly painfuly was not, for the time, at least, serious.

Under treatment the patient soon showed improvement, and the necessity of an operation, which had been discussed, was averted. During the latter part of the night Secretary Haygrew steadily better, and by morning had regained the strength which had been exhausted by hours of incessant pain. On account of the organs affected by the cold, however, the physicians ruled that the Secretary remain in bed for a day or two. Dr. Scudder then left for home, placing Dr. Murphy in charge, with Dr. Cain assisting. Dr. Cain said today that the members of the Hay family were greatly alarmed because of the fact that the usual remedies failed to give relief.

"I understand," said Dr. Cain, "that

Secretary Hay's present illness is of a different kind from that for which he went abroad for treatment, and for which he took the baths at Bad Nauheim. Should attacks such as he experienced yesterday occur frequently, there is enced yesterday occur frequency, no doubt but that there would be jus-no doubt but that there would be jus-no doubt but that there would be justification for grave anxiety, but Mr. Hay seems to have got clear of all dan-ger in the present instance."

FIGHT OVER THE RICE BILL

Cuban House Adjourns Without Taking Final Action.

HAVANA. June M.-The opponents of HAVANA. June M.—The opponents of the so-called rice bill (which doubles the duty on rice and other products, with the two-fold purpose of encouraging the home culture of rice and enabling the United States, instead of Europe and India, to supply foreign-bought rice) argued long and afrenuously against the measure in the House of Representatives tonight. The Speaker adjourned the House without permitting the bill to be placed on its passage, but an amendment to eliminate rice, leaving the increase of duty only on corn, onlone. crease of duty only on corn, onlone, starch and potatoes, was defeated by a vote of 27 to 7.

Representative Castellano declared that Representative Castellano declared that the bill was wholly in the interest of the United States, and said the people of Cuba were under no obligations to favor the rice people of that country at the expense of Cuban consumers. Other opponents of the measure denounced the reciprocity treaty and cited the long delay in its approval by the United States. They said that the treaty was grudgingly given by the United States Government, and predicted that it would prove a detriment instead of a benefit to the people of Cuba.

The rice bill apparently will have a large majority in the House of Representatives.

Dufree Suspected of Poisoning.

ELGIN, Ill. June 26.-A strange narital mixup and suspicions of poison ningle in the case of W. H. Dufree, shose third wife. Elizabeth, died June whose third wife. Elizabeth, died June 20. Her stomach will be analyzed. Dufree today explained the burial of a fourth Mrs. Dufree. He said that the person buried under this name was a wife of his elder brother. Charles H. Dufree, and that she had lived with himself and a second wife.

A further investigation will be made to determine whether the Mrs. Mary Dufree recorded as the widow of Charles H. Dufree was not in fact a bigamous wife of W H. Dufree.

COUNCIL'S LAST DAY

After Acting on Measures, It Adjourns Sine Die.

TESTIMONIAL TO MAYOR

Punch Bowl and Eleven Decanters Presented to Williams by the City Fathers With Eulogistic Speeches From All.

The City Council adjourned sine die at the close of its session yesterday afternoon, and appropriate remarks covering the episode were indulged in by the Mayor and several members of the body. Just before the Council was called to-gether. Mayor Williams was presented with an elegant cut-glass punchbowl and il decenters, symbolic of the official per-sonnel of the municipal lawmakers. He responded feelingly to this composite exresponded reclinity to this composite ex-pression of regard, taking occasion, in the course of his remarks, to refer to the uniform harmony that had existed be-tween the administration and the Coun-cil during the past three years. The question of increasing the pay of

the Fire Department came up, and, after one or two technical hitches, was finally recommended, and the Mayor will approve the measure, as it is understood be is very much in sympathy with the idea. The petition of Nottingham and others to improve East Washington street was

WHY DOCTORS FAIL

AND MRS. PINKHAM SUCCEEDS

Pfain Reasons Are Here Given to Explain
Why Lydin E. Plakham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole

and tells him a story, but not the whole atory.

She holds something back, loses her head, becomes agitand, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blumg the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her ses. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs Plukham during the last year is indicative of the grand results which are produced by her unequaled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to

from the simplest local irritation to the most complicated womb diseases, This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the

siling women of America than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice. The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.
