Crook County-All crops are growing well, Lake County-Wheat is heading very rapidly. The bureau's summary of general crop cor one in the mate follows:

The past week has been showery and or pecially during the afternoons, when the mperature was usually 4 or 5 degrees be normal. Forage crops are generally heavy, his time of the year. The first crop of alfalta comd crop promises to be above the aver ing general, has been delayed by the rains or less injured by the wet weather. Potatoes and gurdens are making splended growth. Hops, although uneven, are now making eat plentiful in the market, although the crop

plentifol in the market, although the crop is considerably smaller than usual. Apples, peaches, promes and pears continue to make good advancement, but the fruit crup generally will be lighter than usual, owing to frosts and cold rains at the time of pollenian tion.

PRUIT SHIPMENTS DELAYED.

Market Bare of Many Summer Varieties.

The delay of the California express was the rause of a bare market for must kinds of California fruit yesterday. The messing train, however, worked but little hardship, as the demand was very shark. Most of the fairy-over stock was worked off except plans, while said as low as 75 points for fairy while less desirable offerings were quoted at 80 cents. Fearther eleaned up well and held steady at the former price for the best, but some poor goods were larned over to the hardsy at the former price for the best, but some poor goods were larned over to the hardsy at the former price for the best, but some poor goods were larned over to the hardsy at the former price for the best, but some poor goods were larned over to the hardsy at the former price for the less that some poor goods were larned over to the hardsy at the former price for the less that some poor goods were larned over to the hardsy at the former price for the less that some poor goods were larned over to the hardsy at the former price for the less that some poor goods were larned over to the hardsy at the former price for the less than some poor goods were larned over to the hardsy at the former price for the less than some, less than and could be had at aimst any price, but good stock was scarce and firm. A supposed of new California tornations within 15 days, figure to pound reassed, see plans, and price, but good stock was scarce and firm. A supposed of new California tornations within 15 days, less than 15 days, les

The car of watermelons, the second of the season, due yesterday morning, failed to arrive, but will be in teday on the same train with the straight car of Coachella cantalloures. Two cars of bananas came in yesterday, also three mixed cars of potatoes and onlose, the latter to fill a tiovernment order.

HEEF-Irressed buils, 182c per pound; couldn't, the straight car of Coachella cantalloures. MUTTON-Dressed, 100 to 125 pounds, 687c. TST to pounds, 4865c; 200 pounds and up, 687c per pound.

EGG MARKET ADVANCING.

There was nothing new in the butter situnition. Receipts were heavy and the local
trade dragging, but an surside cutlet was
found for the surplus, and this will probably
keep the market in its present chape until keep the market in its present chape until the supply of cream decreases, which will be

effect. I don't expect prices to advance much for some time, but the market is ceron a sounder tests now than it has Another well-known trader said: "The man

Provisions and Canned Meats.

Frontisions and Canned Meats.

Some Dealers Quoted 21 Cents Tester-day.

Notwithstanding the receipt of Eastern eggs, the market has an upward tendency, as is usual at this time of year. While 20 cents was quoted as the market value, many sales were reported at 21 cents in the afternoun, and it is probable this price will soon become general. Oregon eggs are not coming in very freely, and although Eastern are plentful. they cannot take the place of the home article in the best trade. Speculators who put away aggs searly in the season are interested in getting the price up, and as realisms are not complaining of the advance and farmers profit by it, the movement is receiving considerable encouragement.

Receipts of positivy were heavy yesterday. Some dealers complained of a stow demand for Springs, but on the whole the market was fately active.

There was nothing new in the butter six.

LONDON, June 27.-Console for money,

Other Causes Than Friction With Germany Responsible for Paris Demand for the Yellow Metal-Money Firmer.

NEW YORK. June 27.—Profit-taking made more impression on the stock market today than at any time since the speculation first showed signs of revival early last week. The campaign for the advance was not abandoned by any means, and operations to lift prices further were still consolicuously in syldemor. by any means, and operations to lift prices further were still comapicuously in swidence, but they were shifting to new quarters of the list and embraced stocks whose move-ments are, not of each widespread symma-thetic effect on the rest of the market. Mean-time the prominent market beaders in which the strength hitherto has centered were sub-jected to seiling to take profits. It would be difficult to say how far the seiling was promoted by any change in con-

It would be difficult to say how far the selling was promoted by any change in conditions and how far merely as a result of the ancrued profits on the advance hitherto. As the rise has gone on with trifling interruption for six days, the profits to those who have held stocks from the beginning are attractive. The outward movement of gold inaugitated yesterday was much discussed, and doubtless was the impelling motive, for a good part of the seiling. Great confidence was professed, nevertheless, that the present resources of our money market can spare a considerable outgo of gold on French demand.

mand. The money market today was not materially affected, although a firmer time was reported on time loans. The atmosphere of foreign politics was decidedly clear, and there was a smart recovery on the Paris Rourse. There were considerable purchases of stocks here for foreign account, but with little effect on the market here. With no available attenues sailing tempurous the outer available steamer sailing tomorrow the que available steamer sailing tomorrow the ques-tion of further gold exports this week was held in abeyance. Discount rates advanced, however, in both London and Faris, in spite of the relaxation of the political tension. For-eign exchange rates here were only alightly lower on foreign buying of stocks, the gold engaged for export swidently providing supply of exchange for the market. It is supposed, therefore, that other causes that the friction with Germany are responsible to the Paris demand for gold, possibly prepara-tion for a Russian indemnity loan. The assurance felt by benkers of immunity

against any real stringency for money does against any real etringency for monoy come not apply, judging from former precedents, to the possible needs of speculators in stocks on margin. There was a rather pronounced desire attending the speculative contingent, reflected in the hesitating tone of the stock market, to see how far the gold outflow is likely to extend and what the consequences may be to the money market.

may be to the money market.

Weather conditions in the crop regions were reported favorable to the crops today, and consequently favorable to values of railroad stocks, but the mixed complexion of the weekly bulletin of the Weather Bureau served to confuse to some extent the conclusions over the crop cunditions. The efforts to continue the rise, however, proved unavailing, and before the end of the day a definite reactionary tendence was exabilished although may be to the money market. and before the end of the day a country re-actionary tendency was established, although remnants of the early advance made a mixed showing of gains and losses for the day. Hoods were generally steady. Total sales, par value, \$1,800,000. United States bonds were all condensed on all

were abundant and only selected shipping siock showed any firmness. Crabappies are now arriving, but the quality is poor. Some driblets of Bartlett pears are coming in, and bringing fancy prices for best stock. Bartletts will be burely half a crop this year.

Discount rate, short and three months hills,
21-16924 per cent. SAN FRANCISCO, June II .- Silver bare,

offer the opening July weakened under seiting by it traders, the price dropping to Shya. The cause of this selling pressure was excellent harvesting weather in the Southwest. The slump in July had only a siight effect on other menths, September selling off to Shyadalise, but quirkly regaining the loss. The reaction was due to an active general many of the loss. The reaction was due to an active general to be supplied to the library of a library many of the loss. The reaction was due to an active general to the near future had a bearing effect on the July option, but the more distant deliveries were little affected thereby, the possibility of damage by rust to the Spring-sown wheat crup being regarded as a much more potent intusers. Another factor that helped to strengthen prices late in the day was a decrease in primary receipts, arrivals today being 281,700 bushels, compared with \$40,000 bushels a year ago. A strong market at Minneapolis was a further help to bulle here. The Chicago market became increasingly Soupant during the last half hour of trading, September advancing to \$60,000 kg. July opened with \$40,000 kg. Fined quotations on September were at \$650,c. and closed at 180,c. Sentimen in the corn pit was bullsh, July opened with \$40,000 kg. Killed Man Who Threatened Him. killed Jesse E. Thompson, a switchman recently discharged from the employment of the Chicago Terminal & Transfer Rallway Company, Yardmaster James S. Walsh, of the company, last night telephoned to the police to remove the body, then gave himself up. Thompson was discharged by Waish for alleged neglect of duty. He had announced his intention, it is suid, of killing Waish, and leitered in the yards, repeating the threat. When Waish left the yards, Thompson followed him, and, after taunting him, hurled a cobblestone. Walsh drew a revolver and dred killing bis assailant.

volver and fired, killing his assailant.

CLINTON, Mo., June 21.-It is reported today, but not confirmed, that alleged forgeries of notes used by the County Bank of Salmon & Salmon as securities, amounted to nearly \$100,000. State Bank Examiner Cook declined today to indicate the amount of the forged notes.
"I cannot give the amount," said Mr.

Cook. "The Kansas City State which lent \$150,000 to the Salmon & Bank, holds \$307,000 worth of securities of the Salmon Bank, more than sufficient to cover the loans, even after the straw notes have been deducted from that
