Not Ready to Announce His Chief of Police.

TAKES OFFICE SATURDAY

Until Then He Declares That He Will Not Divulge Who Are to Be Named for Vacancies He Will Create.

"I'm not yet Mayor," responded Dr. Lane yesterday, when asked who would be his Chief of Police, "and until I'm be his Chief of Police, "and until I'm Mayor I shall not make any appoint-

And because the new Mayor will not

that mone of the cligibles so far on the list was of the right material; therefore Dr. Lane might make only a temporary selection, until he could find the right man for the job. In that case, one of the present captains of police might be promoted, either Charles Gritzmacher, Democrat, or George H. Builey, Republican.

Dr. Lane has not taken Democratic leaders into his confidence nor asked their leaders into his confidence nor asked their

advice, except perhaps in a few cases; consequently many men who have con-sidered themselves leaders in the Democratic party are ignorant of Lane's inten-tions. Some of them are saying that mem-bers of the Municipal League are not dwelling in the same darkness, but lead-ers of that organization deny that Dr. Lane has shown any partiality to them-

of for the Police Chief job, since Lame's election. First of them was John Lamont, an old-time Democratic warhorse, who was boomed by the Sweek-Manning-Malley influence, but who has since confessed himself out of the race. Next to bob up was L. T. Peery, representing the element that has fought the Sweek contingent in primaries and conventions hitherto. Then came G. P. Morden, Republican Deputy Sheriff under Tom Word, but he put the kibosh on his own boom by declaring that he would prefer to stay in the Sheriff's office. Another Republican groomed for the honor was Captain E. W. Spencer, but he promptly announced that he wanted to run his steamboat and not a police force. A. F. Fiegel had a boom at one time, but it collapsed: likewise M. J. Clohesay, who was Chief under Mayor Pennoyer. About

My. Nagi used as illustrations about 20 collapsed: likewise M. J. Clohessy, who was Chief under Mayor Pennoyer. About that time William Reidt hove in sight; likewise John Driscoil and John Sperry. Dave Houston, railroad conductor, was the recipient of a boom; also Joe Reilly. Finally Captain Gritzmacher and Captain Balley were trotted out into the course. A strong pull was made for Lamont by Alex Sweek John Manning, M. J. Malley. McBride, who obtained the course of the different schools. These paintings will hang in the museum until Saturday. The lecture was thoroughly enjoyed and well attended, several hundred indies being present. The event was made possible through the courtesy of Mrs. George McBride, who obtained the consent of Alex Sweek, John Manning, M. J. Malley and Governor Chaliberiain, but Lame turned them all down and yesterday Lambout was telling his friends that he was

out of the race. The story goes that Lane put his foot down hard. A con-ference had been arranged for last Sun-day in, Mamning's office, between Lane and the friends of Lamont, but Lane refised to attend the rendezvous. Malley, Sweek and Manning used the telephone for all it was worth, and persisted in hunting Lane up. When they found him

ment, and the appointments thereto are awaited with intense interest. Among points of historical interest, and marveled the men spoken of most prominently for the men spoken of most prominently for the men spoken of most prominently for the board are Richard W. Montague, who was chairman of Lane's campaign com-mittee; John M. Gearin, T. G. Greene, R. mittee; John M. Gearin, T. G. Greene, R. D. Inman and Marcus G. Fleischner, all Democrats. Others are: A. F. Flegel, F. V. Holman, Thomas O'Day, D. M. Denaugh, John Montag, G. W. Allen and L. T. Peery, also Democrats. The

ber of the Civil Service Commission, building inspector, plumbing inspector and deputy, and perhaps Mayor's secreand deputy, and perhaps Mayor's secre-tary. Should the new Mayor dismiss the present water, park and health boards, several other far jobs would be made available for new men, such as superin-tendent and chief engineer in the water department; City Physician and Health Officer in the health department; and Parkkeeper in the park department. Many Democrats are trying to persuade the Lane to dismiss the present boards. Dr. Lane to dismiss the present boards appointed by Mayor Williams, and to make a clean sweep, but other strong influences are working on Dr. Lane the other way.

WESTERN PACIFIC MANAGER

Report Has It That B. A. Worthington May Get Place.

From San Francisco comes the information that B. A. Worthington, recently general manager and vice-president of the Oregon lines of the Harriman system. now vice-president of the Wheeling & Lake Erle road, may soon return to the Pacific Coast as general manager of the new Western Pacific Company, of the for the Best.

It is claimed that previous to Mr. Worthington's selection to head the Haran interests in the Northwest, George J. Gould had heard of his ability as a railroad man in conferences with finan-clers interested in the Western Pacific and that he was considered as invaluable to the enterprise because of his intimate knowledge of California, where many obstacles will be met that must be surobstacles will be met that must be surmounted before trains will actually arrive and depart from a Pacific port over the first really transcontinental road contolled by one man. Election as vice-president of the Wheeling & Lake Erie is now said to have been simply a part of the plan thoroughly to acquaint Mr. Worthington with the immense traffic of the exatern end of the system that will form a part of the transcontinental bosiness no other road may command, and ness no other road may command, and
with details of the Gould plans, after
which he will be returned to San Francieco as head of the western interests

of portions of the Western Pacific in Utah Nevada and California within a few days will signalize the beginning of actual construction and selection of a general manager will follow at no dis-tant date. Portland railroad men would not be surprised to hear of the return of Worthington to the Coast in that ca-pacity.

FIR IN EASTERN MARKETS

Oregon Lumber Is Growing in Demand on Atlantic Seaboard.

Harry McCormick, operating two big mills at McCormick, Wash., has just re-turned from an extended Eastern trip and stated last evening that conditions of the lumber market were most satis-factory at the present time throughout

"Our fir is constantly reaching markets "Our fir is constantly reaching markets further toward the Atlantic, and Philadelphia dealers tell me that grades of hemiock that have been so generally used in large orders are running out and that it will be only a matter of two or three years until big consumers there will have to come to the Pacific Coast for fir to take its place. Italiroada of the East have had great difficulty in getting hig orders filled recently and must soon look to this region for reilef. I think the Fall trade will be better than that of the Spring and Summer, and the demand is And because the new Mayor will not take up the reins of the city government spring and Summer and the demand is until next Saturday, he will cut no pte already strong and quite satisfactory.

Mills are beginning to run night shifts The Mayor-elect does not deny that he has men in mind for the several jobs, but intimates that since circumstances might arise before next Saturday to alter his selections, he will not make known his choices before that day.

Dozen Men Mentioned.

Nearly a dozen men have been talked of for the Police Chief job, since Lane's election. First of them was John Lamont, an old-time Democratic warhorse.

hunting Lane up. When they found him they got a refusal.

Stories of a rupture between Lane and Chamberiain have been affoat ever since, but they are scored as false on both sides. As evidence of the cordiality between the two, it was told yesterday that the Governor and the new Mayor walked the streets arm in arm, seemingly as affectioned as a wife. Yesterday the members of the National
