

RATE WAR NOW ON

Michigan Central Notices the Interstate Commission.

PRICES CUT TO THE EAST

Tickets Will Be Sold From Chicago for \$16 First-Class and \$15 Second-Class by This Railroad.

CHICAGO, June 29.—The threatened war in passenger rates to the East was precipitated today by the Michigan Central, which filed notice with the Interstate Commerce Commission that on July 1 it will sell tickets between Chicago and Eastern points at the differential rate awarded it by the board of arbitrators.

The differential rates will apply over the New York Central, as well as over other connections east of Buffalo. It is understood the Grand Trunk will meet the cut rates of the Michigan Central by putting its rates of \$16 first-class and \$15 second-class, from Chicago to New York, on July 1.

PALL OF SMOKE OVER CITY

Rattle of Volleys Is Heard Every Few Minutes.

ST. PETERSBURG, June 29.—(4:50 P. M.)—Shortly after noon an untimed dispatch was received here reporting that complete anarchy reigns at Odessa. The inhabitants are panic-stricken and are huddled together in the houses, fearing the mob and torch. The streets were filled with frenzied workmen fighting the troops. The warehouses, quays and some of the shipping in the harbor were in flames.

The correspondent of the Associated Press who forwarded this dispatch had to make his way to the telegraph office through dense smoke which covered the city like a pall. He heard volleys every few minutes. In the darkness the mob was beginning the work of pillage and plunder.

The correspondent added that blue-jackets with muskets were being landed from the battleship Kniaz Potemkin in the hands of the mutineers and they fought with the strikes behind barricades against the troops. Hundreds were killed and the ships were crowded with wounded.

There were rumors, the correspondent also said, that some of the soldiers had joined the mutinous soldiers in fighting against the troops, but he was unable to confirm this report.

There are about 40,000 troops of all arms at Odessa, but there is no doubt he rides through. But these engineers communicated their thought, made their plan, did the work, and made no such blunder. Did they think?

The engineers of the Mont Cenis tunnel did not make the French and Italian approaches meet exactly in the center. A traveler can feel the slant of the car as he rides through. But these engineers communicated their thought, made their plan, did the work, and made no such blunder. Did they think?

fought on the side of the rioters against the troops. A state of siege has been declared in the city. The conflagration is sweeping along the harbor front, the sailors and strikers refusing to permit attempts to extinguish the flames. Three uninsured ships of the Pan-Russian Company have been destroyed.

The offices of the port administration, the stores of the Pan-Russian and Russian Companies and many private establishments and a great number of wood yards have been burned, and the fire is now consuming long lines of railroad cars, containing cargoes unloaded from foreign ships. Many ships succeeded in leaving the harbor.

BLOODSHED BRINGS QUIET

Lodz Is Dominated by Troops and Factories Will Open.

LODZ, June 29.—Lodz today is quieter than it has been for months past. The continuance of martial law makes life and property safer than since the strikes began in January and January excellent prospects for the resumption of work in practically every factory in the city.

Today is a holiday. The people are promenading the streets and attending church as usual on such occasions and thousands of workmen and their families are picnicking in the near-by woods.

Millowners are looking forward to at least several weeks of steady work, giving them a chance to fill orders which have piled up, owing to the strikes. Martial law has permitted the authorities to announce such measures as will make the resumption of disorders practically impossible.

The streets are deserted after 9 o'clock at night, and the theaters, concert halls and wineries are closed. Conversely the life of the city is proceeding normally, and with the exception of numerous parades of Cossacks and infantrymen in the streets and military detachments stationed at the biggest factories there is no sign of the terrorizing days of the past week.

These days were indeed fearful, marked as they were by the killing of many innocent persons and great brutality on the part of the troops. The estimates of 200 or 400 people killed and 1000 wounded would appear to be justified, though it is impossible to give anything like the accurate figures. It is believed that even without martial law the people would remain quiet, as they have had severe treatment at the hands of the troops.

As a result of the strike since January the workmen have gained an increase in wages averaging 25 per cent and now they apparently have decided to work quietly for the present.

Several of the occupants of the car were precipitated into the water, but all were promptly rescued. Mrs. Swan P. Swanson, of South Seventh and M street, had her wrist cut, while Andrew Anderson's arm was slightly hurt by being caught between his craft and a launch.

It is reported, and generally believed, that the sailors at all of the Russian ports on the Baltic Sea have revolted and are now in arms against the government. Serious disturbances are said to have begun at Kronstadt, where it is rumored the rioters burned the government storehouses and alcohol depots and have erected barricades.

Only the most strenuous effort on the part of the troops prevented the burning of every building in the City of Odessa. A mob of 10,000 desperate incendiaries, bearing torches soaked in petroleum, time and again tried to set fire to buildings in the resident section of the city. Neither public nor private structures were safe, and it was only by the free use of their machine guns that the authorities managed to drive the infuriated rioters toward the waterfront.

Sailors of the Potemkin, who came ashore to join in the fight, have repeatedly asked for the exact situation of the Cossack barracks on the landward side of the city, and it is expected that an attempt will be made to destroy it with shells from the battleship.

STATE OF WAR IS DECLARED

Car Invests Military Commander at Odessa With Special Authority.

ST. PETERSBURG, June 29.—The Emperor has issued the following ukase addressed to the ruling Senate: "In order to guarantee public safety and to terminate the disorders at Odessa and neighboring localities we have found it necessary to declare a state of war in Odessa and vicinity and to invest the commander of the troops in the military district of Odessa with the rights of military authority and special rights of civil administration for the defense of order and public tranquility."

Several passengers were severely shaken up, but otherwise uninjured, and were able to continue the trip to Chicago. Both trains were running at a good rate of speed. Both engines were badly wrecked, the forward combination car on the Limited was slightly damaged, and half a dozen stock cars were demolished. Blame for the collision has not been fixed. The limited train apparently had the right of way.

TRANSPORT SEIZED BY MEN

Officers Turned Over to Crew of Kniaz Potemkin.

ODESSA, June 29.—The crew of a government transport which arrived here today from Nikoloffa mutinied, seized their officers and joined the crew of the battleship Kniaz Potemkin, to whom they turned over the captain and other officers of the transport. It is understood that foreign Consuls have applied to their respective governments to send warships to Odessa.

MANY ESTATES ARE ABANDONED

Agrarian Riots Extend Over Government of Kherson.

ST. PETERSBURG, June 29.—Agrarian riots now extend over almost the entire government of Kherson. Many estates have been abandoned, their owners fleeing to Elizavetgrad. There is a similar state of things at Ekaterinoslav, where incendiaries are rife.

FIRE ON OFFICERS' QUARTERS

Mutinous Sailors on the Baltic in Fight With Soldiers.

LIBAU, Russia, June 29.—The Russian sailors here mutinied last night, attacked the government stores, seized the arms and fired into the officers' quarters. Infantry, artillery and Cossacks were brought to the scene of the fighting, but the result is not known. Intense excitement prevails here.

Mutineers Add to Crew.

SEMI-CABLE.

ODESSA, June 29.—(1:15 A. M.)—Firing continues in all directions in the city, the soldiers shooting indiscriminately. The crew of the transport Vecha, who mutinied on the voyage from Nikoloffa, has gone on board the Potemkin, with the result that the ship now has plenty of men on board to handle her guns should a fight come.

Eleven surviving officers of the Potemkin and the officers of the Vecha were sent on shore this afternoon. Six were killed.

No British Steamers Injured.

LONDON, June 29.—Telegrams received from Odessa by shipowners in London and Liverpool, confirm the reports of the state of anarchy prevailing in the Russian city yesterday. These reports state that the British steamers today, the soldiers shooting indiscriminately.

To Show Good Faith.

Owing to the recent general clamor made against medicines containing large quantities of alcohol, Doctor Pierce has decided to prove to the public that his "Favorite Prescription" for the diseases and weaknesses of women is not a patent medicine in the full acceptance of that term. Hereafter the ingredients of his "Favorite Prescription" will be printed on the wrapper of every bottle that leaves the laboratory.

YOU CAN TRUST

A medicine that has been deservedly popular for over a third of a century—that has cured thousands of women of those diseases peculiar to the sex—and in which the manufacturer has sufficient confidence in the sterling merit of the medicine to give to the public a full knowledge of its ingredients.

EVERY WOMAN

Who takes this "Favorite Prescription" of Dr. Pierce, will know just what she is taking. This medicine contains the non-alcoholic extracts of the following native plants:

- LADY'S SLIPPER (Cypripedium Pubescens). BLACK COHOSH (Cimicifuga Racemosa). UNICORN ROOT (Chamaelirium Luteum). BLUE COHOSH (Caulophyllum Thalictroides). GOLDEN SEAL (Hydrastis Canadensis).

NATURE'S OWN CURE

For those distressing complaints so common to women. During an extended practice, in which Dr. Pierce made the diseases of women a specialty, he found that a rare combination of American medicinal plants would almost invariably cure all the debilitating wastes and drains, all the aches and pains incident to womanhood. Consequently he put up this favorite remedy in a form that could be easily procured at every drug store.

DR. PIERCE'S FAVORITE PRESCRIPTION

Keeps women looking young by keeping disease away from those marvelously delicate organs which distinguish the female sex. It quiets the nerves, and stops those bearing-down sensations. It fits the wife for the task of child-bearing, making the period of gestation one of comfort, shortening labor and making it almost painless. It fortifies the whole system, so that recovery after confinement is quick, and there are no dangerous after-effects. The babe of the woman who takes "Favorite Prescription" is sure to be healthier than the babe of the mother who does not take it.

Pommery Champagne THE STANDARD OF QUALITY Quality VERSUS Quantity One reason why Pommery Champagne maintains its popularity with those who demand the best of wines, is that the Pommery standard of quality is never lowered in order to join the race for quantity.

mauranders outside. The cellar floor was perfectly cemented, except a little hole where the water pipe came up in a corner 12 feet diagonally away. Between those inside and outside they agreed upon the following plan. Each party of sappers and miners should excavate a tunnel under the passage and meet half way from the furnace inclosure and the water-pipe hole. This they did, and every last rat escaped, the dirt being about equally thrown out at each end.
