# KNOW HIS

Case of Senator Mitchell Will Go to the Jury Today.

WILLIAMSON CASE NEXT

Charge Upon Which He and His Associates Will Have to Answer to the Federal Government.

To Begin Shortly.

The jury which will today be given the task of deciding the guilt or innocence of Senator Mitchell spent a pleasant Sun- TOURING CARS WILL ASCEND day enjoying the sunshine and resting for the troubles of the morrow.

United States Marshal C. J. Reed has been making the confinement of the jurors as pleasant as possible during the long time they have been shut off from the world. Without newspapers or means of communication with the rest of mankind, the time has been heavy and hard to pass, once the sessions of the court were ended, but the Marshal has done what he could to lighten the burden. Each day, and several times a day, the jury has been taken for walks under the guidance of a bailiff, while the remainder of the time not spent in the courtroom has been passed at the Hotel Argyle, on West Park and Morrison streets, where quarters have been reserved for the 12 men during the course of the trial. The members of the jury will go to their difficult task today, rested in mind and body for the work that is before them.

#### Next One to Be Tried.

John Newton Williamson will be the next one of the Oregon delegation in Congress to face the Federal Court will be associated his partner, Dr. Van

The trial was set for this morning by
Judge De Haven at the opening of the
Mitchell case, but the dragging of that Mitchell case, but the dragging of that proceeding has placed the date of commeacement in uncertainty.

Saturday morning District Attorney Heney asked the court to fix Wednesday, July 5, as the date for beginning the action, but Judge De Haven left the matter in Joubt and it is now uncertain whether or not that will be the date. It was asked by Mr. Heney that another venire of jurors be drawn for the new trial but this was also taken under consideration by the court and nothing is known as to its action in the matter. It may be that after the conclusion of the Mitchell trial, which should end today or tomorrow, a recess will be taken for a short time. It is desired to make some change in the ventilation of the courtroom and it is probable that Judge De Haven will adjourn court until the beginning of next week to allow the al" terations to be completed. In that case ticles to be furnished to the leading parit will be easy to summon a second pers of San Francisco and Los Angeles, lot of jurors, should the court so decide.

Representative Williamson and his associates are charged under the indictment returned against them with having conspired to commit an offense against the United States by suborning persons to swear falsely before the Land Commissioners in order to get control of land near Princville. The indictment is brought under section 5440 of the Revised Statutes of the United States, which section provides that where two or more persons conspire together to commit any offense against the United States or to defraud the United States in any manner or for any purpose and one of the persons does an act to further the conspiracy then all are parties to the crime and are liable to a fine of not less than \$1000 or more than \$13,000, and to imprisonment for not more than two years.

It is alleged that on June 20, 1902, the defendants conspired to suborn 130 persons to commit the offense of perjury by making false declarations in the filing of land near Prineville, Marion R. Biggs, was at that time United States Commissioner and, it is alleged in the ndictment, that 100 persons went before him and swore that lands about to be filed upon under the timber and stone act were being taken in good faith by them when in fact the entries were being made at the solicitation and under the direction of the defendants who were to receive the lands once patent had been issued on them. The lands, it is alleged, were to be acquired by Williamson and Van Gesner, partners in the sheep business near Prineville, and to be used by them for sheep range.

### Will Be Stubbornly Fought.

It is probable that the Williamson case will be a most stubbornly contested one and that it will occupy as much, if not more, time in the hearing than did the Mitchell case. The prosecution will have a jarge number of witnesses to bring evidence that the allegations of the Government are true, while it is understoud that the defense has been gatherius angether a long line of men to testify against the indictment and its charges. Ex-Judge Bennett and H. S. Wilson, of The Dalles, will represent Mr. Williamson in the case while the other defendants will have special counsel whose names have not as yet been announced.

The demurrer made against this indictment has been overruled by Judge De Haven and no obstacle stands in the way of a speedy trial.

### Militia Practice Shoot.

The first practice shoot of the season among the various local companies of the Third Infantry, O. N. G., occurred yesterday on the range near the park reservoir, and was participated in by Companies B, C and E. Next Sunday, Companies B, C and C an

panies F, H and K will try conclusions at the butts, and every Sunday thereaf-ter a practice shoot of some sort will occur until October Si, after which there will be a competitive shoot between all the various companies throughout the state composing the regiment of state

Company E turned out 32 men yesterday Company E turned out 32 men yesterday, but the scores were nothing to boast about among any of the different organizations, although they will unquestionably improve. The boys have been out of practice a long time, and some of them in consequence seemed to regard pulling a trigger as a lost art, but for all that, and in view of the fact that Company E shot in the afternoon with the aunlight strong in the faces of the marksmen. Corporal George Bundy and Sergeant W E. Spencer made II out of a possible E at 200 yards, while Corporal C. H. Arns scored 20 at the same distance.

Licutenant W. W. Wilson and Captains Loren Bowman and C. T. Smith were in command of Companies B, C and E, re-

command of Companies B, C and B, re-spectively, while Lieutenant J. B. Hib-bard, of the general staff, was range of-

Major Frank C. Baker, State Rifle Inspector, visited the range in the morning. Lieutenant W. A. Ormandy was on duty with Company E. while Lieutenant D. E. performed a like function for

### PREPARE FOR THE CLIMB

MOUNT HOOD.

Sierra Club, of San Francisco, to Be Here in Force and Participate

in the Event.

E T. Parsons, chairman of the Press Committee of the Sierra Club, of San Francisco, has written to C. H. Sholes, who has charge of the outing committee of the Mazamas, stating that those who will take part in the automobile ascent of Mt. Hood, have planned to leave the Portland Hotel July 16 for the trip to the mountain. The party will consist of about 60 members of the Sierra and Ap-palachian Clubs, and a number of Maz-amas will act as guides.

amas will act as guides.

Members of the local mountain climbing organization are taking great interest in the coming automobile mountain climbing event of the California climbers. They believe that this trip will stimulate interest in good roads and will be the means of making the automobile trip to Mt. Hood one of the many very tracresting side trips out of Porland and interesting side trips out of Porland, and Congress to face the Federal Court in connection with the Lewis and Clark upon a charge in connection with the Exposition. It will bring Portland promland frauds of the state, and with him inently to the attention of the tourists of the world as the only large city from which an automobile trip can be made Gener and Marion R. Biggs, ex-United to a mountain perpetually snow-covered, an ascent of the mountain be made and an ascent of the mountain be made and

trip in one day.

The programme arranged, unless there is a change, will be that the party will be loaded into the automobiles at the Portland Hotel at 7.A. M. and arrive at Mountain View Hotel at 2.20. Then the ascent of Mt. Hood Tuesday and return to Portland on Wednesday in time for lunch. The following letter from Mr.

explains itself: I. Sholes, Chairman Mazama Committee, Portland.-My Sholes: The list of members of the Sierra Club outing party is now complete, and party is now complete, and includes about 25 of the Appalachian Mountain Club of Boston, which is the chief association of nature lovers of the Atlantic Coast states. Among our own members are college professors, teachers, professional men and their families, including also a number of newspaper and magazine writers who have been assigned to prepare papers on the various features of the outings on Mt. Hood, Mt. Rainier, the Columbia River and Puget Sound, these articles to be furnished to the leading paragraph of the reach professional form of the tide of tourists will not reach of the tide of tourists will not reach professional form of the tide of tourists will not reach of the tide of tourists will not reach Appalachian Mountain Club of Boston, which is the chief association of nature to the Pacific Coast magazines and to

lot of jurors, should the court so decide.

If the time for opening the trial is set for Wednesday, nowever, there will be no time for such action, and the case will have to go to trial with those men now summoned.

Charge Against Them.

to the Pacific Coast magazines and to some of the leading Eastern periodicals. I feel warranted in assuring you that this party is perhaps the most significant of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the mountain, forest and river secentry of Oregon and Washington—the field so combinitarities it is not to the Pacific Coast magazines and to some of the leading Eastern periodicals. I feel warranted in assuring you that this party is perhaps the most significant of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the mountain, forest and control of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the mountain, forest and control of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the mountain, forest and control of the season in its intelligently control of the season in its intelligently cultured love of Nature, and its power to make known far and wide the superb features of the mountain, forest and control of the season in its intelligently control of enthusiastically appreciated and culti-vated by our enlightened fellow mountaineers-the Mazamas.

Anticipating a delighful time on our joint outings on the Columbia, Mt. Hood and Mt. Rainjer, I am yours faithfully, E. T. PARSONS, Chairman Press Committee, Sierra Club

### MAY BUY WATER WORKS

St. Johns Considers Proposition to Purchase From Local Company.

In accordance to a call issued by Mayor W. H. King, of St. Johna, the citizens of that place held a well attended meeting Saturday night to consider the pur-chase of the St. Johns Water Company's plant. Mayor King presided, and made a statement to the effect that the company would dispose of its property the city for a reasonable consideration. There was some discussion of the proposition, but no action was taken it being deferred until a definite offer is made by the company, which will be submitted to the meeting of the Council this evening. Manager J. C. Scott will be pres-

ent and give some figures.

Up to the present, exclusive of the new water tower and reservoir, now under construction, the company has expended go Mr. Scott says, about \$18,000, and the new tower will run it up to \$25,000, so that to secure the plant as it stands with water tower completed. would likely have to pay out \$25,000 after which would come the improvements and extensions needed at once. To take up the present plant and make it effective for fire protection as wen as for domestic purposes the city would have to issue nearly \$50,000 in bonds. Water is pumped from wells, and Councilman T. L. Leggett says that for fire protection water will probably have to be pumped from

Just what action will be taken will rest on Mr. Scott's proposition to the Council this evening. Mayor King and many other prominent citizens and tax-payers are favorable to the city owning and operating its own plant, and point to Portland as an example. They say that St. Johns now has a population close to 3000, and the revenue from the water plant would pay interest on the bonds and provide money for extensions as required. The subject promises to be one of absorbing interest to the people of St. Johns until settled.

### Burnt by Exploding Lamp.

OREGON CITY, Or., July 2 .- (Special.) OREGON CITY, Or., July 2.—(Special.)—
In removing from his residence at Giadstone a lamp that had exploded, C. A.
Nash, leader of the Oregon City Band,
was very painfully burned late Friday
night. While the injuries, which consist
of the burning of the right hand and side
of the face, are most painful, they will
not now acres.

## BREAKS THE RECORD

Exposition Attendance for the First Month Is Large.

OMAHA HAS BEEN OUTDONE

Total of 419,179 People Passed Through Gates of Lewis and Clark Exposition During Month of June.

ADMISSION 9881. The admissions to the Exposition yesbe the lightest day of the week in attendance.

The total admissions to the Lewis and Clark Exposition for the month of June was 419,179. This record establishes a precedent that will undoubt-edly stand for many years as the first month's attendance at Portland has never been equaled at expositions. It is nearly 100 per cent more than the attendance at any other Fair held in the United States in comparison with the size of the Exposition and the cities in which they were given. The Omaha Fair, which is considered

the most successful of all expositions, only had an attendance of 289,351 for June, the opening month the same as at Portland. The stockholders at Omaha only lost 2 per cent on their invest-ment. Considering the benefit derived by the city, the Omaha exposition was

looked upon as a great success.

With the exception of the opening day, it rained hard in Portland during the first week. June was a rainy month and there were more cloudy days than clear days. The unfavorable weather visibly reduced the attendance. The admissions have never falled to be large during pleasant weather. In Omaha the weather during June was favorable and there was comparatively little rain.

The admissions for June at the Exposition exceeded the most sanguine expectations of the Exposition officials as they hardly counted on an attendance of more than 150,000, taking the other expositions into consideration. The management now freely predicts that the Fair will be a paying investment and that it will be even more successful than the Omaha exposition.

Omaha is in the center of a very thickly populated part of the United States and within a radius of 200 or 300 miles there are ten or 15 cities as large, or larger than either Portland or Seattle. Omaha alone has a population of nearly 200,000 inhabitants and it only takes a few hours to go from there to St. Joseph and Kansas City. The pes-simists who have from the start pre-dicted dire disaster for the Lewis and Clark Exposition are undergoing a change of conviction and beginning to take a more cheerful view of the situa-

It is confidently expected that the
