ENLARGING MILWAUKIE CLUBHOURE.-A large room for a restaurant is being built on the east side of the Milwaukie clubhouse, and on the west end a two-story annex is being put up, mainly for sleep-ing apartments. When these improve-ments are completed the clubhouse will cover about half a block of space. May-or William Schindler, who is making the improvements at the clubhouse, says that e sees nothing objectionable, and thinks will become one of the largest clubhouses around Portland. "It brings money here," ne says, "and we now have \$600 in the City Treasury for electric lights and ute car service with Portland. I have seen nothing objectionable in the club-house, notwithstanding the roar made about it. It is about the same as the Golf Clubhouse."

It be a ten-room building, and the addition will cost \$10,000, with the furniture. On the grounds is a two-room structure, which will be used as an auxiliary to the thain structure and will likely have the main structure and will likely have to be occupied some time next year, per-haps at the opening in the Fall. MAYOR POWER

Milwaukie Clubhouse Can Be Suppressed by the Executive.

OPINIONS WIDELY DIFFER

Declare Charter Would Not Hold in Test Case, Others Say Charter Is a State Law and Valid.

WHAT THE CHARTER SAYS.

Section 194-Whenever the Mayor or the Executive Board ascertains or rebeives satisfactory information that any house room or premises within such city or within four miles of the corporate limits thereof is being kept or used as a common gaming house or common gaming premises for playing therein for wager of money at a game of chance, or if the same is kept or used for any lewd or obscene public amusement or the deposit or sale of lottery tickets or policies, it shall be lawful for the Mayor or the Executive Board to authorize and direct the Chief of Police or any officer of the force to enter such house, room or premises and forthwith arrest all persons therein found offending against any law and to seize all instruments of gaming, lottery tickets and lottery policies, and bring the said articles into court,

Can and will Mayor Lane close the Mil waukle Country Club, and keep it closed? Has the Chief of Police of Portland and his men jurisdiction in the case? Does the provision of the charter relating to the control of gambling within a four-mile radius of the city apply in this case, and can its power be brought to bear in abolishing this club, which is defying the law just outside the environs of the city A great many of the law-abiding citizens of Portland are discussing the question in its three-fold application, and a large number incline to the belief that

the Mayor has the power to put an end to the modern Monte Carlo. Section 134 of the charter of Portland provides that the Mayor or the Executive Board shall have jurisdiction in all cases where the gambling law of the state is being violated within a radius of our miles of the corporate limits of the ity. In forcing the observance of the city. law, power is given the Mayor or the Executive Board to raid any place violating the law and arrest those found

Diversity of Opinion.

Attorney McNary takes the stand that it is not within the power of the Mayor to act in the suppression of the club for the reason that the grounds are situated within the corporate limits of Just as he was going to get off the Milwaukie, which city has exclusive jutrain before reaching the Steel bridge. its police can no more force an institu-tion under the protection of Milwaukle to close, or to observe the law, than it could in the case of a similar place lo-

could in the case of a similar place lo-cated at Salem or at Pendleton.
District Attorney Manning contends that it is a question of jurisdiction Mil-waukie is without the boundary of Multinomah County and is governed by the machinery of Clacksmas. For that rea-son he and Sheriff Word cannot get at the gamblers and will have to allow them to run in peace. In the same way he does not see that Portland can dictate to Milwaukie, or Multnomeh to Clackamas, in regard to what may be permitted to be done there. In other words, the minions of the law in Portland and in Multnomah County have no right to make a foreign invasion into an adjoining county.

Charter Is State Law.

The people who believe that it is wrong to play at gambling games, however, take the ground that the charter, as an enactment of the Legislature of the state, is in effect a state law as far as it goes and has the power of applica-tion as such a law in all of its provisions. They argue that when the charter says four miles around the city it means that the circle is to be complete and not to extend in some directions and not in others. Therefore, since it is in effect a state law, and since it means what it says, the Mayor holds the solution of the question in his own hands and can bring the gamblers to book if

he sees fit to do so. It is further contended that should the Mayor desire, he could send his men to the place and force it to close and no one could oppose him. He could arrest the men found there who were violating the law, and could bring all the gambling effects into court as evidence against the gamblers. Then, if the proprietors of the place wished so to do, they could take the matter into the higher courts and test the provisions of the charter. If this were to be done they contend there is no done they contend there is no done they can be done they contend there is no done they can be done they contend there is no done they can be done to they can be done they can be done they can be done they can be done to they can be done, they contend, there is no doubt that the section of the charter would be found to apply and would give the city the power to put the clubbs

SAYS CHARTER IS AT FAULT

Attorney-General Crawford Doubts Its Power.

SALEM, July 5 .- (Special.) -- Attorney-General Crawford says that with-out having had an opportunity to give the matter investigation, he is of opinion that the Legislature could not give the Chief of Police of Portland power to suppress gambling outside the city limits. He thinks that whatever the Chief Goes outside the city ne must do as a private citizen. If the Legislature could, by a charter provi-sion, authorize the Chief of Police of Portland to act in his official capacity four miles outside the city limits, it would seem that it could authorize him to so act 40 or 400 miles outside. If the Calef's authority can be extended to the City of Milwaukie., it could be extended to Salem and Roseburg. Though he gives his opinion only as first impression, Attorney-General Crawford is satisfied the charter provision referred to does not give the Chief power to act in his official capacity outside the city limits.

"John Henry, a Kansas farmer, was the victim who related his story to me on the train. The two men worked the old card game on him, and beat him out of \$44-all the money he had.
