Kansas Supreme Court Decides Oil and Gas Cases.

STATE REFINERY ILLEGAL

Construction of Plant Against Constitution-Natural Gas Company Ousted From State After Spending Millions.

TOPEKA, Kan., July 7.-The last passed by the Legislature last Winter appropriating \$410,000 to build an in-dependent oil refinery at Peru was today declared unconstitutional by the State Supreme Court, in an opinion rendered by Associate Justice Green. The oil refinery law was considered one of the most direct blows struck at measures tending to restrict that concern in the handling of the Kunsas

The oil refinery law provided for the erection at Peru also of a branch of the State Penitentiary to house sufficient prisoners to work the oil plant, The opinion today declaring the act to be illegal and unconstitutional was concurred in by all members of the Supreme Court. The court holds that the construction

of the refinery and the branch peultentiary in connection with it is in violation of the state constitution, which declares "the state shall never be a party in carrying on any works of internal im-provement." The construction and opera-tion of such a refinery, it is held, would he a work of internal improvement."

The court reviews the discovery of

great quantities of oil in the state's rapid development, and the "general public complaint that a particular corporation been made upon the Legislature to enact laws to protect the producer. The court, by inference, criticizes Governor-Hoch for using a scarecrow to frighten the oil trust, so-called, and for informing the trust that the thing he has set up is a

"The indictment of the Standard Oll Company," says the court, "is no doubt true and the provocation was very great, but we must not make a scarecrow of the law." Governor Hoch was greatly disappoint-

ed at the decision and said:
"Now that we have started it, I wanted to go on and run our refinery. We would have secured more than its cost in the price of oil in a few months. If I had been the Supreme Court I would have strained a point to declare the law con-

TOPEKA, Kan., July 7 .- The State Supreme Court today rendered a decision deciaring that the Kansas Natural Gas Company, a Delaware corporation, cannot do business in Kansas. The decision, which is sweeping in its terms, makes an outlaw of the company, which, it declares, cannot hold property in Kansas and cannot operate in any manner within the

When the company applied to the Kan sas charter board for permission to do business in this state, the board denied the application. However, the company went ahead laying its pipes and contract-ing to deliver gas to many cities. To date the company has expended millions of dollars laying pipe lines from the Kunsas field to the Missouri line, and to a dozen or more Northern Kansas cities, much of which work has been practically completed.

After the charter board had acted, the Attorney-General of the state brought this proceeding in quo warranto against the company, asking that it be required to show its authority for doing business in Kansas, and that, if unable to do so, it be ousted from the state. The company answered setting forth its application to the charter board and alleging that it had

ment of ousier against the gas company.

The barred company owns a majority is capitalized at \$10,000,000. It has spent from Montgomery County to Kansas City. The company was just on the point of rence, Topeka, Ottawa and many other Kansas towns, but under the terms of

order to compel the state charter board to grant it a charter.

# Independent Refiners Rejoice.

CHANUTE, Kan., July 7.-W. S. Hyde, president of the Chanute & Austin Refinery Company, said of the Supreme Court decision: "This action of the court will not in-

jure the independent refiner. In fact, it is a benefit, owing to the removal of state competition. Our success depends upon the anti-discrimination law upon securing fair rates for transporta-tion. We can fight the Standard just as well without the state,"
