# **CLIMB RAINIER** AND MT. HOOD

Three Clubs Will Join in Making Ascents of the Peaks.

FIRST TRIP IS TODAY

Mazamas, Appalachians and Sierra Club Members Unite for Enjoyable Outing Among Snow-Clad Mountains.

For the first time in the history of the three great mountain-climbing clubs in the United States, representatives of the Clubs met yesterday for a trip through the woods of Marleay Park and along the skyline trail yesterday morning. This tramp was preliminary to the trip which will be commenced this morning when the party of more than 200 mountain climbers will leave for Mount Hood to make the escent in common.

The tramp yesterday morning was a most enjoyable one and was much appre clated by the visitors especially, who were surprised and charmed with the rugged wilderness that has been preserved so close to the heart of the city. The first stop was made at the Wigwam, where several interesting speeches were made one of those being an address in Chincok made by Judge George. The tramp of three miles or more ended at the bear pit in the City Park early in the after

#### Start With Naval Parade.

This morning at 7 o'clock a noval parade will leave the Hotel Pertiand bound for the gnows of Mount Hood. The delegates from the Sierra Club and the Appalachian ib will go, under the guidance of the Mazamas and expect to reach Government. #### his magazine Mr. Lewis represented that he would subscribe to the capital stock a dollar for every dollar subscribed by all others, so that he would own one-half of the capital stock and that later he represented that he had pledged his entire fortune, every dollar be had, and his publishing business in this banking enterprise, and that his subscriptions would exceed a million dollars, the inspectors found that Mr. Lewis had not co-operated to the ex-

operation several months, and had a paid up capital stock of \$2,000,000. Continuing, the statement says: The inspectors found that Mr. Lewis had made an admission to that effect to the bank examiners April 3, 1965. The inspectors and their office force in St. Louis made a careful checking of the subscription books, finding that on March 15, 1905, Mr. Lewis had received and held as payment for shares of stock in the bank \$2.289,044, and had accounted to the bank in an amount not exceeding \$2,204,994. This showed that every cent of the \$2,000,000 capital stock which had been paid in was paid out of subscription money received by Mr. Lewis from the public, and that

tent of a single dollar of his own money, although the bank had been in

none of his own money had been invested in the enterprise.

This was found to be the fact, although Mr. Lewis had stated in writing to the inspectors that \$495,750 of the \$500,000 paid in at the original incorporation of the bank were his personal funds. Subsequently, at the hearing before the Assitant Attorney-General, Mr. Lewis admitted that the money

was received by him from the people and was not his own. "Although asked to do so at the hearing. Mr. Lewis failed to produce any evidence whatever that any of his personal funds had gone into this enterprise. Mr. Lewis stated at the hear-ing that the directors had never refused to make a loan he requested.

The most important of the repre-sentations were that all of the funds of his bank would be loaned by a com-mittee composed of three directors each from the five principal banks of St. Louis The evidence showed, and Mr. Lewis admitted it, that hundreds of thou-sands of dollars were loaned to himself and his various enterprises; that no committee of 15 had been establish-ed, but that the loans had been made

practically at Mr. Lewis' will '

States Bank was incorporated November 14, 1904, with a capital stock of \$1,000,000, The capital stock was increased March 18, 1965, to \$2,500,000, of which \$2,000,000 was paid in.

The original capital was divided into 10.000 shares, 8915 of which were held by E. G. Lewis. The remaining 85 shares were shown to be held by I7 others, each of whom held five shares. The men chosen for the first board of directors were: Edward C. Lewis, Frank J. Cabot, Augustine H. Coakley, Eugene W. Thompson and Guy A. Arbogast.

and Guy A. Arbogast.

E. C. Lewis began advertising the bank in the February, 1904, edition of the Woman's Magazine, a publication which he owned and controlled, and which he had been publishing in St. Louis all the time for about a year. This publication has continued to carry the advertisements of the bank since that time.

Early statements regarding the bank were filled with bone and promise. In the were filled with hope and promise. In the Woman's Magazine for July, 1904, \* was

stated by Lewis:

"Since my article appeared in our last issue over 10,000 subscriptions to the paper stock of our bank have been received. . . I am to turn nearly everything have into cash, outside of my stockho ings in my present publishing business, and expect to subscribe for at least \$1,900,000 of the stock of our bank. I must pay cash, exactly the same as you do, for my stock, as there is no promoters' stock in this bank. When it opens its doors there will be a dollar in cash in the vaults for every dollar of capital stock and every dollar of my profit will go to increase the reserve of the bank each year.

"Already the enormous success of the bank is assured. One banker of Chicago, offered to place \$1,000,000 of our stock in single day. A San Francisco banker ubscribed for \$500,000 of the stock, but was permitted to have only \$500, and if any of my readers fail to get in before all the stock is subscribed I shall not let this banker have the \$500,000 of stock."

#### RIOT IN THE TENEMENTS Whites and Blacks Use Revolvers, Stones and Razors.

NEW YORK, July 3.-Two persons were shot, one probably fatally, in a fight bemobs of whites and negroes in West Sixteenth street today. The trouble began when Henry Hart, a colored man, was attacked in the street by a number was attacked in the street by a number of white youths, who accused him of interfering with a ball game. Hart fled, pursued by a mob of whites, hurling stones and other missiles, and reached the tenement-house in which he lived and got a revolver, while his pursuers made efforts to break into the building.

Having armed himself, Hart ran down-stairs and began firing into the crowd, one of his shot striking James Hunter in the side. At this point Policeman John Loye ran into the hall and arrested Hart, after the latter had fired at him

As Loye brought his prisoner out, swarm of negroes, armed with clubs, razors and other weapons, out of the tenement bent on a fight. The policeman's helmet was emashed and he was knocked down and kicked, but he kept a firm hold on his prisoner and finally succeeded in getting his back against a wall, where he stood off his By this time the whites had been rein

forced to the number of several hundred, and the negroes broke and fied in every direction. A shot fired from a negro tenement struck Mrs. Mary Donohue, who was attempting to lead a child out of the tenement, in the head, inflicting a probably fatal wound.

The police broke into the house and arrested Albert Middleton, who is supposed to have fired the shot, and five other negroes.
In spite of the presence of a large body

of police reserves, desultory fighting be-tween whites and blacks continues until a sudden downpour of rain scattered the combatants.

#### POSSE IS PURSUING TWO MEN Believed to Be Convict Escapes From McNeil's Island.

TACOMA, July 9.-Between 9 and 10 o'clock tonight a posse in charge of Dep-uty United States Marshal Morris was in close pursuit of two men, supposed to be Convicts George Wade and W. T. Mc-Carty. The report, which came from the Ledger dispatch-boat, was dated Vashon and stated that the pursuit was between Vashon landing and Aquarium, on the east shore of Vashon Island. Aside from this report and the finding of the clothtoday, the man hunt was rather un-

The four men sighted in the vicinity of Page's landing Saturday night later believed to have been surrounda posse, could not be located today and were believed to be working their way to the north end of the heard. United States Marshal C. B. Hopkins said tonight he expected the next live news to come from farther north on the island. The point at which the two convicts were pursued tonight is near where Malon-was captured Saturday evening.

There were the usual number of rumors which were investigated, only find that most of them were groundless.

## BODY FOUND IN A CELLAR

'Annie" was found today buried in the cellar of a house in the northeastern part of the city, formerly the home of Charles Bluhm, a German, who died in the hospital on May 16. The police believe that Bluhm murdered the woman, who was his housekeeper, and buried the body in

A hole had been dug in the middle of the cellar and a quantity of quicklime thrown in. The body was then placed in the hole and covered with earth. After an investigation the police came to the conclusion that Bluhm killed the woman during a quarrel and in his frenzy to hide the crime, hacked the body with a hatchet and buried it. The quicklime has consumed only a small portion of the body.

# OFF ON FAST TRAIN

Cowboy Croesus Leaves Los Angeles for Chicago.

2265 MILES IN 48 HOURS

Attempt Will Be Made to Cover the Distance in Four Hours Less Time Than It Has Ever Been Done Before.

LOS ANGELES, July 9.-The special train of Walter Scott, the "Cowboy Croesus," left Los Angeles for Chicago noon on what is expected to be a record-breaking trip between these two cities. The Santa Fs has guaranteed to get Scott into Chicago, a distance of 2265 miles, in 45 hours, which is four hours quicker than the run has ever been made. In addition there is an agreement, it is said, between Scott and the passenger department of the railroad, by which the company is to forfeit \$30 per minute for every minute they run over the speci fled 48 hours up to a total of \$1000. On the other hand Scott is to pay the company \$20 per minute for every minute that the company heats the guaranteed time, up to \$500.

It is Scott's intention, if he succeeds in lowering the record between Los An-geles and Chicago, to charter a train when he reaches the latter city and make for the record between Chicago and

New York. Advices at the office of the train dis-patcher of the Santa Fe Railroad Com-pany in this city tonight show that the Scott special has been losing some time, and at Kingman, Ariz. was 32 minutes behind its schedule. It was due there at 8:13 and arrived at 5:45. The train was unning at about the average rate of 48 miles an hour.

It is the expectation of the Santa Fe Company that after leaving Albuquerque the time that has been lost will be made up. The train consists of a baggage car diner and combination Pullman and observation car.

## SIRE TO SON

Boy Can Sometimes Learn From His Father.

When you catch them young enough you can usually make your sons profit your own experience. Afterwards, it's different. A lady tells how her son was made to profit by what his father had learned; "My husband was always fond of cof-fee, and after his business took him frequently into a German community he drank it more, with the result that his kidneys became affected, and he suffered greatly with pains and de-spendency, till, as he says, coffee near-ly killed me." So he stopped using it, and began to drink Postum Coffee. It

cured him; and in a very short time his kidneys resumed their normal functions, his pains were allayed, and the despondency which had nearly driven him crazy ceased to trouble him. My little boy, a year old, had suf-fered ever since he was weaned, from stomach and bowel troubles. He could not properly digest the milk he drank. It passed out of his bowels in hard lumps, sometimes large and again like small pellets, frequently producing di-arrhoes, and then we would have to arrhoes, and then we would have to call in the doctor. But the trouble re-

turned, again and again.
"We used to give him a taste of Postum Coffee occasionally, and as I saw that he relished it and realized how much good it had done his father, I began to put a little in his bottle of milk. The effect was so salutary that
