MILITIA HAS SHOOT

Companies F. H. and K. at the Butts.

SCORES ARE MADE

Oregon National Guard May Send Men to Scagirt to Compete With Other State Military Organizations at Targets.

Companies F, H and K., O. N. G., had their final practice shoot at their range yesterday prior to their departure for Camp Gearhart next Thursday morning. Everything considered, the boys did fairly well, although it is expected that during their seven days' stay at the seashore they will greatly improve in their marks-

Captain W. L. Gould was in command of Company F. Captain Roy M. Dobie of Company H and Captain Ryland O. Scott of Company K. Altogether about 30 men participated in the shooting, and were very equally divided among the at 200 and 500-yards, while the other two military organizations indulged in practice over all three ranges-200, 300 and 500

Captain Scott, of Company K, made some good scores at the different disconsidering that it was his initial performance at the butts this year. He made 20 out of a possible 25 at 200 yards, and his marksmanship throughout stamps him as likely to help repre sent the state at Seagirt, N. J. Sergeant Boytana and Corporal Sever, both of the ame company, also made 20 each over the shorter range, and several of the boys scored 18 and 19. Sergeant Bird carried off the honors at 300 yards by makng a total of 20. Captain Scott is quite jubilant over the showing made by his men, and is confident that other comof the Third Infantry will have to

nustle to keep up with them.

Musician H. R. Cooley, of Company F distinguished himself by making 20 at 500 yards, which was the light score of the day at the distance. Sergeant L. E. Crouch, and Privates L. C. Seitzer and V. Compton, also of Company F, secured 17 and 17 respectively over the 500

yard range. The score of Company H was unobtain able, hence no accurate record of their shooting was available, but it is under-stood that one of its men made 21 at 200 ards, and that several others were not

used by the local state military companies consists of a deep depression between the butts and the firing station. The wind ucks through it like a funnel, and has a drift the bullets of the smallcalibered Krag-Jorgensons several feet at 600 yards, and makes the marksmanship certain at the other ranges while there
