WITTENBERG IS AGAINST SITE

Would Leave Question to the Taxpayers of the East Side.

HE ISSUES A CHALLENGE

Asks Bolse and Hislop to Call Meeting of Citizens to See if They Favor Projected Site for New High School.

H. WITTENBERG'S CHALLENGE.

H. Wittenberg has issued a challenge to Whitney L. Boise and Thomas Hisop to call a tuxpayers' meeting of East Side citizens to determine whether for the East Side High School, He declares that the vote would be four to one against the sits. Mr. Wittenberg says that any reliable physician will may it is not conducive to good to place 2000 children in so small an

PORTLAND, July 10,-(To the Editor.)-Will you permit me, through Why is it that they hang back when here the columns of your paper, to correct we are brought face to face with a propoa statement that seems to have gone out to reference to the location of the High School on the East Side, Statements have apeared in the different newspapers of our city in large headlines that "Wittenberg has been defeated in his attempt to change the location of the East Side High School,

I desire to state that "Wittenberg has not been defeated," but that the in the matter to present it to the public, children, the parents, and the taxpayers of the City of Portland are the mes who have been defeated; and it is a great misfortune that such is the

I do not believe that the taxpayers fathers and mothers of this city resi-ize what a serious mistake will be made if the High School is located alongside of the grammar school on the East Side. They will not, in my opinion, realize it until it is too sate to make the charge. When the building Pas been completed and the little nar-row 60-foot street between the two places will be the only air space in children will be permitted spend their recesses or time before school, they will realise what a small space of ground has been left for comfort. In my opinion, the reason that young men, or boys, become dissatisfied with their school days is because they have not got some o the conveniences and games of amuse-ment and athletics that are found is many of our private schools. The old saying is that "All work and no play makes Jack a dull boy." This applies boys and girls in their school work as well as in any other vocation

If the people of Portland will buy a block of land on which to place the ot and a block of used as a campus for games and sport-ing grounds for the children they will Oaklanders a shutout, their single run bebe doing more in the way of improving the condition of the young men and the condition of the way of improving the condition of the way of o women of this city than they can in any other way. And as before stated, when Los Angeleas 2 2 2 0 0 0 1 0-8 10 too late they will find it out. In the interest of health and the welfare of the children, I ask that these two ols be not put together. I ask that the taxpayers and parents study quickly the situation; for, remember, tant you are placing over \$100,000, and possibly \$150,000, in a location that is not fit for the purpose, and once placed there it will be there for generations to come, and will stand as a monumen of mistaken judgment to those who

of mistaken judgment to those who permitted it to go there.

Why should a few individuals on the East Side be able to control the location of this building? The Hawthorne estate, of which Whitney L. Boise is agent, seems to have the pull, if you please, to control the location of this building. Another party, Thomas Hislop, if you please, is another party with the series. Being a cloudy day, the last innings were played almost in the dark. Eagan's home run was the feather building. Another party this building. Another party in the last inning. The score: Hislop, if you please, is another party to this blunder that is being perpetrated on the citizens of Portland.

The score: and Shea. Umpires-Fitzgerald, Whalen and "Slate" Davis. and possibly, in their opinion, to en-hance a few town lots which they possess. Should that be taken as a meanst of making this location? I say, by all means no. Waitney Boise's children will never, in my opinion, attend the schools in this city; at least, he has cial.—Pitcher Oscar Jones is tired of working for a tail-end organization, and he has asked Ned Hanlon to dispose of him to the Los Angeles Club. Jim Mor-ley received a wire from Hanlon stating that he could buy Jones for a certain figure, and it is very likely that he would have been called, but for the addition of Wright and Toxer. none attending our schools at this time. I hereby challenge Messrs. Boise and Hislop to call a taxpayers' meeting of the East Side and find out whether they are in favor of the location or not. I am positive that the vote against them will be four to one. A few misguided "mossbacks" may side with them. I ask that the people Morley has six pitchers now, and if he bought Jones he would have seven. Brook-lyn is a weak club, and yet he has won. of Portland ask any reliable physician of this city if it is conducive to good health, public morals, and public safety to place 2000 children in a small area as is now being figured upon in the location of this building? You will find that 29 out of every 100 physicians will tell you that it is not the proper thing to do. Possibly Dr. Josephi will be of the same opinion as Mr. Boise, but even he, I believe, is in Mr. Boise, but even he, I believe, is in won the first of the series from Cleve-favor of more air space and more play- land. Jose pitched a strong game except grounds. They tell you that there is in the first inning. Attendance, 4500, a 60-foot street. This we will concede. Score: between the two buildings, but on the other side there is only a 38-foot space. Cleveland . 3 10 4 Philadelphia 6 10 (I believe, lying along the entire front. Is it not possible in the interest of and Schreck. the good people of this city, in the interest of the children of the future, who must accept the conditions and attend these schools, that we should enter into a careful study of this sub-ject before it is too late? It is not a personal matter with me. I am not master of the situation today, and not only shut out Detroit, but not one of the locals got to second and only two to looking for Wittenberg's interest or his glory. I am endeavoring with all first. Attendance 1500. Score: glory. I am endeavoring with all glory. I am endeavoring with all strength and knowledge to pro- Detroit 6 4 1 New York .. 3 9 1 tect in every possible way the interests of the children of this city.

Mrs. L. W. Sitton, chalrman of the board, favors a different location, and she will tell you so. I. N. Fleishner, the newly-elected School Director, will tell you that a mistake is being made; that the school ought not to go there, but he came out in a card just previous to his election and made a statement that "he was in favor of the building going where the taxpayers wanted it and he does not see his way clear to vote different to what he stated in that card." Mr. Beach will tell you that "it is not the proper place for that school but he believes that the taxpayers want it there as expressed in their recent meeting and he haten to cause any rumpus." As to Mr. Williams' lews, I have not heard him make a RHE statement except that "the school dis-

trict owns the block and he believes TODAY'S PROGRAMME should be utilized for that purpose."

I am strongly in favor of locating this school on Twelfth and Davis streets, on

rould be willing to do it."

Now, fellow-citizens, let us see

anybody paying taxes on \$1000. Are there any fathers or mothers in the City of

Portland who would not be willing to pay 20 cents on \$1000 to insure to their chil-dren and the children of the future a proper place for a schoolhouse, insuring them health, comfort, strength and in-

telligence, making all of them better men Is it possible that my plea for the chil dren of this city will not be heard? Is it possible that a little personal prejudice,

a little, if you please of penuriousness

shall make in this matter? I feel that I

have done everything that is possible to prevent this blunder being made. I feel

that the responsibility of this mistake must be placed where it belongs-upon

my colleagues of the board, upon the

parents and taxpayers of Portland who

should be interested in preventing this mistake from being made. And if this statement of facts shall prove of suffi-

ient interest to the taxpayers of Portland, especially of the East Side, to

rant them in calling a meeting of the citizens to discuss the matter (as should be done), I assure you that I will be more

than repaid for every effort that I have made in endeavoring to prevent the mis-

placing of the High School of the East

Where are the people who some tir

ago were making a crusade against having schools in this city without play-

were fighting for the sanitary conditions

sition that is more serious than anything

that they have brought to the public notice in any report they have made?

Where are the people who represent our public parks, asking for more air space

and more room for our people, and now permit this outrage to be perpetrated upon the City of Portland? Won't they

except one who has been willing to throw cold water on every effort that has been

made by the writer in bettering the con-dition of the school children of this city.

Therefore, permit me to say that it is not Wittenberg that is being defeated."

BURNS GOES TO MEET KELLY

Will Have His Second Battle in Los Angeles This Time.

Tommy Burns, the local boxer, left last Tommy Burns, the local boxer, left last night for Los Angeles, where he goes to meet Hugo Kelly, July 25. Burns has been doing his preliminary training in the city, and when he boarded the train last night he said that he felt in condition to enter the ring right then. He will fight Kelly 26 rounds, and as soon as the will cover he will return to Portland. mill is over he will return to Portland, rest up a few days and then start train-ing for his battle with Philadelphia Jack

O'Brien, which takes place at Tacoms

n August This will make the second time that Burns and Kelly have exchanged wallops. They fought a ten-round draw at Detroit recently, and according to the press ac-counts of the battle Burns would have won, had he not entered the ring in a won, had he not entered the ring in a greatly weakened condition. Burns went into training for the fight here, and had reached the point where he was ready to take the train, when he was notified that the fight was off. When the telegram came he let up in his work, and several days after he had let up he received a message to come on at once. He reached Detroit only a few days before the fight and was forced to reduce almost the fight, and was forced to reduce almost ten pounds before he could make weight. One poached egg and some beef tea was all that he ate for two days, but in spite of this, he came near putting Kelly out. This time when he meets Kelly he will be in the pink of condition. It is to get used to the California climate that he is

going to the scene of the battle so early. THE DAY'S HORSE RACES,
