The recent hot spell in California cut down the supply from there, as apricots and other soft fruits were simpst cocked on the trees. In this state it is too early for oat orchard varieties and too late for berries, and therein lies the trouble. There will be a fair assortment when the San Francitco steamer gets in Thursday and until then the trade will have to get along with melons and such lines as are brought from local petnts.

Three curs of Fresno watermelous yesterday and were quoted at 1% to 2 cents a pound. Cantaloupes were again scarce, A car is due from Coachella Thursday. Early Alexander 'peaches were received from The Dalles, Ashland, Medford and other points and brought anywhere from 80 cents to \$1 a box. A lot of new Oregon cooking apples came in from The Dailee and offered at \$1.50. New California apples brought \$1.5 G1.75. Oregon apricots sold well at \$1.25. Very few cherries were seen and they were not good and hardly quotable. Berries were

The market is bare of lemons and practically bare of oranges. A mixed car of the two will arrive Saturday and there will also be some lemons on the steamer tomorrow night. Three cars of banarias will come up later in the week. Only green bananas were offering yesterday.

PASTURES ARE DRYING UP.

But No Change is Noticeable Yet in the Butter Market,

The butter market continues steady with no change in the local demand and ample stocks on hand. Receipts on Front street are as large as ever and the same difficulty is shown in moving the surplus. The <text><text><text><text><text><text><text><text><text><text> city creameries are getting plenty of cream,

The vegetable market was almost as well <text> cleaned up yesterday as the fruit market, and

Mrs. Eddy's Income.

PORTLAND, July IL-(To the Edior.)-Will you kindly give space to the follow-ing letter from Mr. Alfred Farlow, publication committee of the First Churca of Christ, Scientist, Boston, which refers briefly to an article appearing in The Oregonian of recent date. DAVID E. OGDEN. date.

"In The Sunday Oregonian of June 25 appeared a story entitled "Six Most Famous Women in the World." In it most gracious reference is made to the Rev. Mary Baker G. Eddy's most excellent labor for mankind, and incidentally it is stated that tewspapers have figured that ner gross receipts must have been \$1,230, 00." I only wish this were true, since no benefactor in the history of the world has given more valuable labor than Mrs. Eddy for the compensation received. Since this subject has been introduced, it seems to us proper that it should be supplemented with a fuller expression of the facts in connection therewith.

"A targe number of the students which Mrs. Eddy taught and nothing to pay and were accepted free of charge. Another large percentage were in limited circumstances and re-ceived liberal discounts, while another large percentage came in pairs, husband and wife, paying only one tuition. "While some newspapers have speulated concerning her fortune, it is well known to those who are nearest her that she has already given away a very large portion of it to her church and to charities. Her bookkeeper informs me that these have sometimes reached more than \$80,000 per year. Mrs. Eddy seems not to care for money except for the good which she can do with it. She seems to regard herself as a sort of treasurer for the public good. Moreover, her loyal students who have paid tuition fees for her inestimable service regard themselves as having received more

sard themselves as having received more than they could ever pay in money. "Since Mrs. Eddy is so well pre-served, the question of successorship seems a very remote subject, but since you have introduced it, it seems proper to state that Mrs. Eddy will never

Playspaces for Children.

PORTLAND, Or., July 10 .- (To the Ed-[tor.)-I wrote The Oregonian lately a lamentation on the "passing" of the play-ground close to the Hawthorne School.

Vigorous, athletic play is as necessary to the physical good of our boys as the brain gymnastics for the intellectual culture of the schoolroom. In fact, one helps the other. As the city increases these playspots decrease. I am delighted to find that, though the building of the East Side High School is a settled fact, a little factorist increase. foresight in arrangement will leave an open central court intact. If the new buildings are flush with the streets, corner of Stark and Fourteenth, the whole center of the three blocks will be left available. Besides which the basement windows, entirely above ground, will be open to perfect ventilation. I am not the only one who hopes that you will use your strong influence to preserve one of th few playspaces left to the children. LOUISA A'HMUTY NASH.
