

## HEAD OF MOSCOW POLICE KILLED

Assassin Fires Five Poisoned  
Bullets at Count  
Shuvaloff.

### DEATH COMES INSTANTLY

Prefect of Police Pays Penalty of  
Readiness to Hear Petitions—As-  
sassin Caught—Great  
Crowd Mourns.

MOSCOW, July 11.—Major-General Count Shuvaloff, Prefect of Police here, and formerly attached to the Ministry of the Interior, was assassinated this morning while receiving petitions. One of the petitioners drew a revolver and fired five times at the Prefect, who fell dead.

The assassin was arrested. He was dressed as a peasant, and has not been identified. He was recently arrested as a political suspect, but escaped from the police station before his examination.

The assassin waited in the anteroom of the Prefecture until the other petitioners had been received, and then, entering the audience-room, he advanced toward Count Shuvaloff at his desk, firing five shots at close range. The bullets passed through the body of the Prefect.

Count Shuvaloff owed his death to his custom of freely granting audiences and receiving petitions from all classes. One bullet wounded the Count in the pericardium, another pierced his abdomen, a third struck him in the arm, and the fourth in the shoulder, while the fifth bullet of the assassin struck the leg of a woman who was standing near. According to the physicians, the bullets were completely cut off. No. 1 shaft, adjoining, afforded communication with No. 2. The 86 men in No. 1 and the few who escaped from No. 2 were downed up.

Herod's efforts have been made for hours to reach the captured men, but late to night the absence of all sound from the earlies of the mine told of the worst disaster that has taken place in South Wales since 1894.

The news of the explosion spread rapidly, and hundreds of women and children and thousands of men thronged the head of the pit, seeking information. The mountain railways were crowded all the afternoon, and there are now streams of people in the neighborhood of the mine, all contributing to the pitiful scenes.

Efforts at rescue were still in progress dawned, and the current of fresh news were being driven through the shaft, but the rescuers are now working without hope of reducing the list of fatalities.

DORTMUND, Prussia, July 11.—Efforts to rescue the 28 men who were cut off by the fire in the Dortmund coal mine yesterday have been without success, and it is feared they have perished.

**TWO DEATHS FROM RIOT**  
Cuban Artillery Under Severe Discipline for Attack on Police.

HAVANA, July 11.—Two deaths have resulted from the conflicts here last night between Cuban artillerymen and civilians. Captain Portuondo, of the artillery, who received a bullet wound in the intestine, died this evening. Most of the score of persons reported injured sustained slight contusions inflicted by policemen's clubs.

The deaths occurred between the artillerymen and policemen and the toughs who infest the locality. Then the company of soldiers who were sent to restore order, and fired on the police. General Freyre y Rado, Secretary of the Interior, is rightly inquiring into the identity of the official who ordered the company of artillerymen to that district, and is also endeavoring to find out who is responsible for the lack of discipline. The Lieutenant in command of the artillery company says he was ordered to the tender of a telephone message from some artillery Captain, who had previously arrived at the police station to investigate the participation of his men in the first conflict.

General Rodriguez and other military men are ashamed of the lack of discipline shown by the manner in which 25 soldiers under arms were so easily excited into attacking the police. The soldiers have long persisted in regarding the police as their rivals.

**FLEET FEARS NEW MUTINY**  
Sailors Angry at Imprisoned Mutineers Who Surrendered.

KUSTENJ, Roumania, July 11.—The Roumanian fleet seems to be delaying here, owing to the fear that another mutiny will break out, should the ships put to sea.

The fact that 55 sailors from the Kuznetsov, who surrendered, have been imprisoned on board the different vessels of the squadron, awaiting trial, has caused intense indignation among the crews, and as a consequence there are fears of another mutiny.

CARDIFF, Wales, July 11.—An explosion of fire in No. 2 pit of the United National Colliery Company, at Wattstown, in the Rhonda Valley, the center of the great Welsh coal fields this morning, is believed to have resulted in the loss of at least 120 lives.

The explosion was followed immediately by the belching of clouds of smoke and dust from the pit shaft, in which 200 men were working. The force of the explosion wrecked the machinery at the mouth of the pit. All communication with the downing shafts was completely cut off. No. 1 shaft, adjoining, afforded communication with No. 2. The 86 men in No. 1 and the few who escaped from No. 2 were downed up.

## CALLED HIS BLUFF

Taft Spoiled Wallace's Plan to  
Raise Salary.

### DEAL WITH WESTINGHOUSE

Canal Engineer Had String to Ac-  
ceptance of Position With Elec-  
tric Railway Company, but  
Taft's Ax Cut It.

NEW YORK, July 11.—(Special).—A high financial authority made public to night the reason underlying the retirement of John F. Wallace as chief engineer of the Isthmian canal. It discloses for the first time the influence back of Wallace and presents an enterprise of gigantic proportions. The story as related by this authority is this:

George Westinghouse, president of the Westinghouse Air Brake Company, and some high officials of leading railroads conceived the plan of constructing electric railways in such portions of the country as would make their construction profitable in competition with steam roads. When purchased by the steam roads, the line would cease and revenues would eventually reach the treasury of the steam road. The plan, this authority has it, was to force the sale of present profitable electric lines by threats of constructing competing lines.

Westinghouse, Wallace and the railroad men interested in the undertaking were to get an equal division of the profit derived from the sale. It was estimated that the salary and profits would net Wallace \$50,000 annually.

The acceptance of Wallace had a string to it. He came to the United States to secure from the President and Secretary an increase of salary of \$50,000 and the appointment of chairman of the Canal Commission, with a residence of Washington. The President and Secretary learned of the engineer's intention and called his bluff. It is declared.

**KNOX VISITS THE PRESIDENT**  
Probably Will Confer on Public Affairs—Reception of Rosen.

OYSTER BAY, July 11.—Senator Knox, of Pennsylvania, is an overnight guest of the President at Sagamore Hill. He arrived from New York at 5:45 o'clock this afternoon and dined at once in the President's carriage to the President's home. The President's second son met Senator Knox at the station, and Archie and Quentin, the younger sons, accompanied the Senator to Sagamore Hill, together with Mrs. Richardson, who had come down from New York to continue her visit to Mr. Roosevelt.

Senator Knox said his visit, so far as he was aware, was of no special significance. He came by invitation of the President and did not know that the President desired to consider with him any particular subject. A former member of President Roosevelt's cabinet, Senator Knox sustains close personal relations with him, and their conference is certain to relate to many important governmental matters.

Arrangements practically have been completed for the reception of the President of Baron Rosen, the new Russian Ambassador, next Thursday.

**CALLS ON THEM TO EXPLAIN**  
Richards Wants to Know What Are  
Mormons' Land Connections.

WASHINGTON, July 11.—The Post today says: Letters have been placed before Commissioner Richards, of the Land Office, written by members of the Mormon hierarchy, advising brethren who desire to settle on lands within the Utah reservation in Utah, which will soon be thrown open to settlement, to do business with the presidency at Heber City, Utah. These communications state that certain Mormons have "Land Office connections," which will be of value to those of the church who desire to enter upon the Utah lands.

Mr. Richards has addressed a letter to Joseph Murdoch and James E. Jensen, Mormons, living at Heber City, asking them what is meant by the assertion that they "have land office connections," that can be used to advantage in making settlements upon the public domain.

**St. Gaudens' Inauguration Medal.**  
OYSTER BAY, L. I., July 11.—President Roosevelt today received the St. Gaudens' medal, designed and executed to commemorate his inauguration to the Presidency. It is of gold and is about six inches in diameter. On its face the medal bears in relief the life bust of the President, the view being a sharp profile. Around the bust is the inscription, "Theodore Roosevelt, President of the United States," and to the right of the bust is the Latin phrase, "Aequum Culque." On the reverse side in relief is an American eagle perched on a crane. Around it is the inscription, "Washington, D. C., March IV, MCMV, E Pluribus Unum."

Vice-President Fairbanks was presented with one of the medals in gold, while Secretary Loeb and each member of the inaugural committee received a medal of the same design in bronze.

No official visitors were received by the President during the day. It is expected that Senator Knox, of Pennsylvania, will arrive overnight guest of the President at Sagamore Hill.

It is recommended that the academy course be restored to the full four years; that the two years sea service of the midshipmen as such be abolished and that after serving the four years course midshipmen be commissioned as ensigns, and that the maximum age for admission be placed at 18 years instead of 20.

**Shonts and Stevens Going to Panama**  
WASHINGTON, July 11.—Chairman Shonts, of the Panama Canal Commission, and Mr. Stevens, the newly appointed chief engineer, are in Washington. Both expect to leave here tomorrow night, and will be received by the President at Oyster Bay Friday. They will leave for Panama July 18, and Mr. Stevens' family will follow him in the Fall. Mr. Stevens is now considering the question of filling the vacancies in the engineering corps, and will familiarize himself with the available material here before he inspects the forces at Panama. No appointments will be made, however, until he reaches the Isthmus.

**Shaw Says Camel's Hair Is Wool.**  
WASHINGTON, July 11.—Secretary of the Treasury Shaw today heard a number of representatives of wool manufacturers in relation to the importation of half-pressed cloth. He issued a statement making it clear that camel's hair wool and all manufactured therefrom should be classed as woolen manufactures and that this would have no effect on other half-pressed cloth which is admitted at a lower rate of duty.

**Ravages of Yellow Fever.**
