Hardly any recent local topic has been productive of more genuine public interest than the questions affecting the location of the new East Side High School. Director Wittenberg, in The Oregonian of yesterday, sets forth his views at considerable length, favoring the purchase of ground separate from any other school ullding, and it is known that he even advocates the purchase of two full blocks for this purpose-one for the exclusive location of the building and the other for use as a playground for the pupils.

The site already chosen at the last tax-payers' meeting, and for which bids for excavating are now in process of publication, consists of a piece of ground 260x 460, in the block bounded by East Thirteenth and Fourteenth, East Stark and Alder, on the south end of which is lo-cated the Hawthorne School. A feature of the present agitation is based upon the idea that the situation of the new High School ought to be entirely independent of any other educational institu-

Director I. N. Fleischner agrees fully with Mr. Beach upon this subject, and said last night that, while personally he was in sympathy with Director Witten-berg's ideas, the School Board had no voice in the matter, and he doubted also whether Mr. Wittenberg would be sustained by any other meeting of taxpayers. The question was canvassed quite the oughly at a recent meeting of the Board, and it was shown that much valuable time would be lost by calling another meeting, especially when the result was involved in so much doubt

B. Lee Paget, who lives in North Albina. and who admits that his interest in the matter is based somewhat upon selfish grounds, claims that the taxpayers' meeting that selected the site chosen was not representative in any sense, and he is of opinion that another meeting would tain Mr. Wittenberg's views. Below follow some public expressions relative to

Florence Kelley's Views.

'Having read with keen interest the communication of H. Wittenberg in this morning's Oregonian I venture to submit for the consideration of its readers the recent experience of New York city, of which I am a resident," said Florence

"Last month New York city appro-priated \$2,000,000 for the purchase of land for the use of the school children out of school hours. One million is for small play grounds in the most crowded part of Manhattan and the second million is for athletic fields in the boroughs of Brooklyn, the Bronx, Kings, Queens and

This huge expenditure expresses the effort of this generation to repair the blunders of the last three generations. Our fathers, grandfathers and greatgrandfathers lacked Imagination to foresee the growth of population. They built schools with no yard, no gardens, no playgrounds, no athletic fields. They trusted to the then abundant vacant lots. But the vacant lots have been covered with tenements swarming with children

who have no refuge but the streets. Ten years ago Jacob Rits and others succeeded in accuring the passage of a law requiring that every school must have a yard or playground. In districts in which land costs \$1,000,000 an acre the have a yard or playground. In the Board of Education was reduced to evading this law by building a high stone parapet around the flat roof of the large schoolhouse and proclaiming this meager space above a five storied building the playground for the children of the neighborhood. This has been done in scores of boshood. This has been done in scores of the street with the should have sent the woman to that he should have sent the woman to that he should have sent the woman to up five long flights of stairs inside the schoolhouse to reach the narrow space where they are free to play within stone

quire for all time abundant land at modcrate prices for the use of the children.
"In Eastern cities today a school is re-garded as insufficiently equipped for edu-cational cational purposes unless it possesses a school garden, a playground, an athletic field, shower baths and a branch of the

free public library.

"It would be a tragedy indeed if the cities of the Pacific Coast in the 20th century should repeat the blunders of the cities of the Atlantic Coast, made in the 15th century. Every penny saved to the taxpayers of that century by failure to buy land for the children's use cost New York City many dollars in the form of disease and crime in the congested districts. In this century those ill-fated savings are costing hundreds of dollars for a penny saved, in the exorbitant price of the land now being bought in the interest of the public free public library. bought in the interest of the public health, morals, safety and welfare to give to our New York children a siender share of that out-of-door life which can now be GIVEN assured for all time, at a moderate cost, to the children of Portland.

Like Other Cities.

"To the thoughtful person it must be obvious that Portland is destined to un dergo the same growth in wealth and population which New York has experienced. But why should Portland ignore the blunders of New York and so repeat

'It is to be hoped, in the interest of the children of the present and the future, that the new Bast Side High School may have, as every school should have, its garden, its playground and its athletic field, its shower bath and its branch of the public library. "As a visitor filled with admiration of

this beautiful and enlightened city, I ven-ture to express this hope."

Millie R. Trumbull's Opinion.

"In this morning's Oregonian is pub ished a letter from Mr. Wittenberg, in which he makes a strong appeal to the Portland people to help him in his fight for the children's rights. "He rebukes the friends of the play-

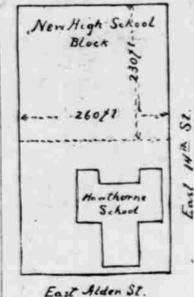

grounds and the children's park for in-attention, and the rebuke is deserved. While the women have been busy with club elections, suffrage conventions and unveiling monuments, the enemy's work has gone steadily on," said Millie

"The children face a curious situa tion. On the one hand we have a Ju-venile Court, recently established, out of which there is being organized a Juvenile Aid Association, which proposes to provide camping grounds, swimming pools, to organize ball teams and plans generally to supply to these restless wards of the court the opporunity to work off in a legitimate manner their surplus energy. Why is this new organization necessary? *Because in the rush and hurry of our struggle for material gain, we have robbed the children of their right to play; we have forced them to take to the streets.

Need Fresh Air.

The Child-Labor Commission is busy issuing employment permits to children who should be out of doors, romping in the sunshine and fresh air, gathering strength for the school work, instead of going into the canning and the bag fac-tories, because the mothers do not wan them on the street. The Park Commission has closed the parks to the children and as a consequence they are being taken care of by the Juvenile Court. It is surely a wasteful policy that walts un-til the child is on the delinquent list before his right to be a child is considered. There are few open spaces accessible to the children who need them most. What

we need now-today-are playgrounds for our children, not workshops or reforma-tories. It is not a question of taxes—it is a question of the childhood of the city. of its future citizenship. In all institu-tional work, the lendency is away from the congregate system—away from the old-fashloned idea of crowding as many human beings as possible into a given space. Give the chiscren the extra block for a playground, and locate the new High School somewhere else. Portland is too spiendid a city to commit the crime of exploiting her children. The boy without a playground is father of the man without a job," and every mother and father in Portland should applaud Mr. Wittenberg for his splendid effort."

All Points in Dispute Will Be Cleared Up by Special Commissioner Appointed by President - To Study Asphalt Cases.

OYSTER BAY, July 11.-Judge Will-iam J. Calhoun, of Chicago, has been appointed by President Roosevelt to be special commissioner to Venezuela. He will make a thorough investigation into the conditions in Venezuelafar as they relate to the United States and its interests. The following official announcement

was made: "The President has appionted Mr. W. J. Calhoun, of Chicago, special com-missioner to Venezuela. The President has been familiar with Mr. Calhouo's service in connection with the report n Cuba which he made for President McKinley's private information and has also known of his work as Interinformation and state Commerce Commissioner. He also has been designated as special commissioner to examine fully into the situation in Venezuela and report to the President exactly what the differences are between Venezuela and the United States and Venezuela and other foreign powers, and also as to what has been arranged with other powers which in any way conflicts with the interests of the United States. He is also to examine into the complaint made by American companies as to the con-duct of Venezuela and report to the President exactly as to what the equi-

Judge Calnoun will make no inquiries relating to the Bowen-Loomis case.
The President regards that as practically a closed incident. Judge Calhoun visited the President about ten days ago. BY ELECTRIC COMPANY.

Six Million Dollars More May Be Sold When Trustees Deem It Best.

Four millions of dollars in bonds will be issued by the Portland General Electric Company to refund the old bonds and the floating indebtedness of the company, to take up the old 6 per cent bonds and issue in their stead new 5 per cent bonds. This action was taken at a meeting of the stockholders of the company held yesterday afternoon. The company had advertised a meeting of the stockholders for the purpose of authorizing an issue of \$10,000,000 in bonds, and this was done at the meeting of yesterday. In order to do this the by-laws of the corporation were amended, giving the trustees power to sell and transfer the property of the

HOT FIGHT ON SEPARATION

Senate Takes Up Bill, Which Must Pass Before Election

PARIS, July 11 .- The appointment today by the Senate of a committee on separa-tion is another step toward the final adoption of the bill dividing church and state, already passed by the Chamber of Depu-ties. Interest in the question now centers Balley, all residents of this city. The in the action to be taken by the Senate, funeral was held yesterday from the and fears are expressed that the long and family residence, Belmont and West avein the lower house will be renewed. Neither the adherents nor the opponents of the bill are entirely satisfied with it as

it stands. Partisans of the concordat recognize that the measure impoverishes the church and express the intention of endeavoring to obtain better terms re-garding the disposal of church property. On the other hand, advanced Republican Senators argue that the measure is too liberal, especially with reference to the formation of the district bodies, which, according to the bill, are henceforth to the text of the measure, further debates from that malady this Summer.

would be provoked in the Chamber of Deputies. The government, however, is determined to have this measure of re-form finally adopted before the dissolu-tion of the chamber, which will take place early in 1906. Therefore the Senate committee will meet during the parlia-mentary vacation, which lasts from July 13 to October 15, in order to avoid delay as the dissolution of the chamber annuls all bills which have not been entirely ratified by both houses.

REDUCE IRISH MEMBERSHIP

Redistribution of Seats in Parliament Will Cause Fight.

LONDON, July 11.-The Government proposals for the redistribution of seats have been issued. The idea is to give one member for every \$5,000 of population, thereby abolishing the constituencies having populations under that figure. The effect of the proposals will be a gain of 11 seats to England, one seat to Wales and four seats to Scotland, and a loss of 22 seats to Ireland. The redistribution scheme is regarded as being in the na-ture of a compromise. On a strict basis of population, Ireland is now considered to have 30 more members in Parliament than she is entitled to, and that she will lose only 22 members under the new arrangement is a more favorable outcom nevertheless, will be fiercely opposed by the Homerulers and Liberals.

TEN YEARS FOR FRENCH SPY

Convicts Bougouin of Betraying Military Secrets.

TOKIO, July IL-The judgment in the case of Captain A. E. Bougouin, the French resident who was sentenced yesterday to 10 years' imprisonment at hard

labor on the charge of being a Russian spy, declares the accused was engaged in searching for and reporting military se-crets. The counts follow: First-Last November, Bougouin ascer tained the departure of a certain division, and sent a cipher message to Kessier, a Frenchman, of Shanghai, who telegraphed

the information to the Petit Parisien. In November a certain division effected a landing and dispatched cavalry. Bougouin nailed the facts to the same newspaper. Second—The departure northward by rail of a certain division was ascertained and

ported to the same newspaper.

Third—A division reported its destination in January, and another division was moved northward. The facts were reported to Captain Delabry, of Paris, through the mailouch of the French Legation. Fourth-The composition of the various artillery detachments of Port Arthur, and

the kinds of guns, were ascertained in Auame manner. Fifth-The organization of a new division the recruiting of regiments at Sendal, were

ascertained in February; the dispatch of regiments from Yokohama, the recruiting at Nagoya, and the dispatch of regiments from Nagoya, and the dispatch of regiments from Taketoyo were reported to Captain Delabry in the same manner.

Sixth—The formation of certain bodies at Hiroshima was reported to Captain Delabry in the same manner. The presence of a feet of 80 transports at a certain point in April was reported to Kessier at Shanghai, and cabled to Captain Delabry.

the cargoes of transports was re ported by letter. The judgment recites that Bougouin his interpreter Maki to ascer tain the movements of troops, and that

daki confessed his guilt.
The judgment declared that the laformation covered by counts two and three related to the northward movement of the investing army of Port Artgur after the capitulation of that fortress and previous to the battle of Mukden. The decision declared that therefore the information constituted an important military secret.

Funds Enough in Closed Bank and Large Dividend for Stockholders.

ST. LOUIS, July 11.-Receiver S. P. Spencer, of the People's United States Bank, was today directed by Judge THEY WILL BE ISSUED AT ONCE Mclihenney, of the St. Louis County Circuit Court, to pay depositors demand. The order was issued at the request of Receiver Spencer. On Spen-cer's suggestion also the bond of the receiver was increased from \$250,300 to \$1,000,000.

Mr. Spencer states that he believes he will be able to pay all of the depos-itors in full and have enough money left to pay the stockholders not less than 75 cents on the dollar. The depositors will be paid from the funds now deposited in various St. Louis banks. Mr. Spencer said that he has not taken action to obtain authoritative valuation of the property which constitutes the bank's security for loans made to the University Heights Realty Company, the Woman's Magazine and other concerns controlled by President

WASHINGTON, July 11.-By appointment, Kogoro Takahira, the Japanese Minister, will call on the President at Oyster Bay next Friday morning for a conference regarding the peace negotiations. He will return, probably to Washington, Saturday, and then go away for a brief rest, of which he is much in need. The Japanese mission is expected to reach New York about the last of July. Baron Komura will be accompanted by Colonel Tachibara, the newly-appointed military attache at Washington, who will be one of the advisers of the mission; Mr. Adacho, first secretary of legation, unattached, who served with Mr. Takahira

while the latter was Minister to Rome; Mr. Sato, of the Foreign Office, who accompanied Prince Fushimi to this country last year; an American lawyer, who has been legal adviser to the Foreign Office for 25 years; Mr. Yamaca, chief of the Japanese political bureau, and two private secretaries. The Japanese mission will be supplemented at Portsmouth by Mr. Taka-hira, the other plenipotentiary; Com-mander Takashita, the Japanese naval attache at Washington; Mr. Hanihar, the third secretary of the legation here, and probably several other secretaries from the legation. Throughout the conference the Japanese legation will remain at Washington, with Mr. Hioki, first secre-

tary, in charge. The legation will keep in close touch with the pienipotentiaries, and through its proximity to the State Department will render material assistance Nothing more is heard here of China's request to be represented at the conference. This action has by no means cleased Japan, and the latter's objection to the suggestion was fully expecte the Washington Government.
