

MAYO THE MAN FOR PRESIDENT

His Election by Medical Association Is Deemed Certain.

LAST DAY OF CONVENTION

Election of Officers Occurs Today. Entertainment Given Tonight at "The Oaks" by City and County Medical Societies.

CLOSING DAY A. M. A.

Election of officers of the associaon by house of delegates. Election of officers of sections.

Programme of demonstrations, given ender direction of Frank B. Wynn, director of American Medical Associaion Scientific Exhibit,

Closing programme at each of 12

sections of the association. Entertainment.

Reception and musical entertain given by Portland city and county, assisted by the state and district societies, at the "Oaks." Special cars leave First and Alder streets at Instrumental and vocal music,

luncheon and fireworks. Special pro-

Ethical observance extends to the many fine points of parliamentary usage among medical men assembled in annual confer ence. Election of officers occurs, under the amendments to the hylaws introduced at the session of 1904, after reading the minutes of the previous session on the morning of the last day of the session. Nominations for president are by ballot of the members of the house of delegates, and for all other officers, except treasurer, by a committee of seven, representing the us geographical divisions of the The treasurer is nominated by the board of trustees. All nominations must made orally, and no nominating speech may exceed two minutes.

Mayo for President.

Dr. W. J. Mayo, of Rochester, Minn., an eminent practitioner, who has won distinction, especially in surgical work, will probably be chosen the successor of President Louis S. McMurtry. Last year at between the two distinguished members, the present official head of the body being victorious by only one vote. This year these seems little doubt that Dr. Mayo, representing what the East regards as the Far Northwest and the Pacific Coast terms the Middle West, will be elected to take his seat at the opening of the session

ext to the presidency, the second ques tion of prominence uppermost in minds of the doctors is where the next session shall be held. Boston seems to have a strong following, and, it is probable, will be the choice of the members of the house of delegates. Atlantic seaboard locations attract a large attendance of physicians engaged in local practice, and since no centrally located city is making an urgent request for consideration, it is probable that the Hub will be honored.

No Opposition to Simmons.

Dr. George H. Simmons, general secre tary, has so long presided at the desk that a great many of the members will promptly declare that the position is a permanent ne, however, provision is made for election to this, as to other official positions and, apparently, there will be no opposition to Dr. Simmons.

Next in relative importance are the three members of the board of trustees, E. Montgomery, of Pennsylvania; H. E. Johnson, of the District of Columbia, and A. L. Wright, of lows, whose election is for a term of three years. The board is composed of nine members, three elected at each annual session. There are our vice-presidents, the positions being honorary, and which are usually distributed with reference to the geographical

Election in Sections.

In addition to the election of general officers there will also be elections in each of the 12 sections, either at close of the forenoon or opening of the afternoon ses-This will, in fact, be the closing day of the convention business, and every hour will be occupied with some of the hest events of the week to the progre sive doctors, such as may be justly ac-

this strong organization of the advanced practitioners of the American continent. The programme of demonstrations that given today under direction of the scientific exhibit of the association, which attendar was published yesterday in these columns, desired.

this character during the session. In the evening, as a concluding social event of the series that has made the time pleasant for accompanying ladies of the delegates, the City and County Medical Society of Portland will entertain at The Oaks with presentation of the finest musical talent of the city in a specially arranged programme, and likewise a strong band to furnish instrumental se-jections that will make the Tavern echo with symphony.

RIVER RIDE, SALMON DINNER

How Doctors Will Enjoy Themselves During the Day.

Tomorrow delegates to the American

Medical Association and accompanying ladies to the number of 2000 will view the magaincence of the great river of the Northwest, the closing entertain-ment provided for the visitors by the Portland committees for the conven-tion. In order to provide boats to accommodate the visitors the steamer T. J. Potter has been detached from its regular schedule for the trip, and the Balley Gatzert, Charles W. Spencer and Undine chartered. This fleet will depart from the Ash-street dock at 9 A. M. These splendld steamers are not surpassed by any boats of their re-spective types in lake or river servce in the West and the trip will be not only instructive and enjoyable for its scenery unsurpassed on the continent, but will demonstrate to the professional men from other sections of the Union one of the great industries of

After four hours on the river the beats will return to Bonneville, where a salmon dinner will be served in the vention to those who are fortunate enough to participate, exploiting the salmon industry. The dinner will be served during the hour from 1 to 2

WILL PUBLISH NEW DIRECTORY

Physicians Vote to Print Book Containing All Names.

Whether the American Medical Aslation should publish a directory, and, if so, whose names it should co tain, was the chief topic of discussion efore the house of delegates vester-The matter was finally left to the board of trustees, and that organization had already come out advocating a directory giving the names of all practitioners licensed by the states.

Politics shoved its dragon head in the door for a few minutes while this discussion was forward, principally over the purchase of some list of names now copyrighted by which to begin work. That matter also went to the board of delegates for decision When the directory is published it will be composed of all the licensed doctors, with the members of the Medical As sociation in black-faced type, to the sheep from the goats, as they themselves expressed it.

Dr. George M. Kober, of Washington, chairman of the committee medical education, carried out the auggestions of Dr. Arthur D. Bevan, of the council of medical education, made the day before in recommending to iniplent doctors the greatest attention to their chosen profession rather than in preparing to take it up. He also recommended some sort of business

course in medical schools. Secretary Simmons read a recommen-ation by which contract doctors in the United States Army should be placed on a ranking list, rather than spend their time "avoiding slights." By the same token the dental corps was also recommended for receiving a

certain rank The greater portion of yesterday afwas taken up in the receiving

Convention Notes

and referring of routine reports.

In the surgical section yesterday Dr. W. Grant, of Denver, a member of the board of trustees of the association, read a most interesting paper which he presented a new operation for cancer of the lip, chin or cheek. The operation is Dr. Grant's own device. The paper was illustrated by drawings of the faces of several patients before and after being operated upon. By Dr. Grant's method, contraction, or change of the expression of the face, always resultant in the old speration (which is known as the Vcut), is prevented, a point most worthy of consideration in facial surgery. Dr Grant's priority in removal of the appendix is a well-known fact in the profession, operating first in 1884, a matter of record as established by the investigation of Dr. Merrill Picketts.

Oculists Will Combine. Oculists of the Pacific States will hold a meeting at 1:20 P. M. today for the pur-pose of forming a Pacific Coast Ophthal-mological Society. The meeting will take place in the Selling-Hirsch building, where sectional meetings of that branch of the association have been in session, Large attendance of Pacific Coast doctors is

A committee composed of wives of prominent local physi-cians received the guests and others acted as hostesses. Light refreshments were served and handsome floral decora-tions added to the beauty of the handsome parlors in the Oregon building.

Private Receptions Held.

series of private receptions given at the homes of Portland physicians was a feature of last night's entertaining and one much appreciated by the visitors. Dr. and Mrs. William Jones, Dr. George Wilson and Mrs. R. B. Wilson, Dr. and Mrs. K. A. J. Mackenzie, and Dr. and Mrs. Henry Waldo Coe all gave elaborate affairs, extending the hospitality of their homes in the most gracious manner.

At the residence of Dr. and Mrs. William Jones, hundreds of guests came and went from 8:20 to 10. Their handsome Colonial home, which is admirably fitted flowers and trailing greens, Dr. and Mrs Jones were assisted in receiving by Mrs. Henry Jones, Dr. and Mrs. James Bell. Dr. and Mrs. Harry Lane, Dr. George Story and Mrs. Henry Story. Ices and punch were served and string music

played throughout the evening.

The grounds of Mre. R. B. Wilson's brilliantly illuminated with ropes of electric lights for the reception which she and her son, Dr. George Wilson, tendered to the visitors, and the house profusely decorated with masses of Summer flowers and greens. While the guests were received inside and refreshments served there, the beautiful lawn which surrounds home were thronged by callers dur ing the receiving hours. Mrs. and Dr Wilson were assisted in receiving by Miss Wilson, Mrs. Edward Brooke, Mrs. W. J. Burns and Mrs. Stewart R. Linthicum,

Lawn Entertainments.

Dr. and Mrs. K. A. J. Mackenzie entertained in elaborate style, and received a great number of guests. They also utilfine lawn, and supper was served outside in a marquee. Palms and ut flowers were used with great prodigality for decorations, in connection with electric lights. Parsons' Orchestra played in the hall and a mandolin orchestra was stationed on the lawn. Dr. and Mrs. Macwere assisted by Mr. and Mrs. R. Lee Barnes and Mr. and Mrs. Thomas

and Mrs. Henry Waldo Coe were hosts of the most elaborate reception of Wednesday evening this event being given in honor of the retiring president of the American Medical Association, Dr. Lewis McMurtry, of Louisville, Ky. The Oregon building, at the Fair grounds, was utilized for this occasion, and the immense Colonial rooms served admirably for private entertaining. A rose table was the eature of the decoration, and attracted the attention of every visitor present. Mrs. Coe presented large bouquets to all who wished them, and it seemed that everyone did. Roses were also used in the wall decorations, intermingled with ferns and

Receiving with Dr. and Mrs. Coe and their guest of honor were Brigadier-General Robert M. O'Reilly, Surgeon-General Walter Wyman, Mr. and Mrs. Jefferson Myers, Dr. and Mrs. A. J. Glesy and Dr. Andrew C. Smith. Mrs. Coe was band mely attired in an imported net gown, which was elaborated with delicate hand embroidery and palliated in green. Two

received cards at the door, and about 25 young ladies assisted the hostess in enter-taining and serving. The music was by Wilder's Orchestra

BANQUET AT HOTEL PORTLAND Women Physicians Entertained by

Portland Society.

The Portiand Women's Medical Society tendered the visiting women physicians who are in attendance upon the American Medical Convention an elaborate banquet at the Portland Hotel last night, when nearly 100 guests sat around a beautifully decorated table. The large pariors of the hotel were converted into a bower of green by festoons of Oregon grape which hung from the ceiling, entirely covering it, and the large columns in the room were made into realistic trees with the aid of greens. The table, which was in two sections, was rounded at each end and so arranged that guests were not hidden from each other's view. Trailing green festoons were wound about the table in graceful lines, and through them ropes of miniature green electric lights glimmered. Pink sweet peas were used on one table and lavender on the other, the color effect being carried out by Parisian bows and streamers of tulle of the same tones. The high effects were attained by clusters of white lilies

were attained by clusters of white lines in cut glass vases.

Receiving the guests were Dr. Mae Cardwell, Dr. Esther Pohi, Dr. Edna Timms, Dr. Mary MacLachlan, Dr. Jessie McGavin, Dr. Katherine Manion, Dr. Amelia Zeigler, Dr. Kitty Gray and Mrs. Henry Waldo Coe. All the visiting physicians were present these including mani-

at the Oregon building on the Exposi- Shaw, Miss Gail Laughlin, Dr. Howard tion grounds and the attendance was (idaho), Dr. Annice Jeffreys Myers, Dr. large. Many of the guests had been doing V. Latham (Chicago), Dr. A. H. Chapman V. Latham (Chicago), Dr. A. the Exposition during the day and the (Washington), Miss Clay and other mem-

bers of the suffrage convention.

At the close of the banquet the party took carriages and drove to the various receptions which were given last night for the convention delegates and visitors.

Officers Are Elected.

At the concluding session of the So-ciety for the Study and Cure of Inebriety heid yesterday, officers were elected as follows: Honorary president, H. D. Didama, Syracuse, N. Y.; honorary vice-president, H. O. Marcy, Buston, Mass.; president, W. S. Hall, Chicago, Ill.; vice-presidents, L. D. Mason, Brooklyn, N. Y.; T A. McNicholl, New York City; E. DeWill Reese, Courtland, N. Y.; John Mrdden; secretary, T. D. Crothers, Hartford, Coan.; corresponding secretary, C. E. Stewart, Battle Creek, Mich.; treasurer, G. W. Webster, Chicago, Bl.; executive committee, L. D. Mason, T. A. Mc-Nicholl, A. E. Ellsworth, T. D. Crothers.

Many California Doctors.

California has more delegates in attendance at the sessions of the American Medical Association than any other six gle commonwealth, members of the med ical profession of that state being prominent in all of the sectional, general and auxiliary work of the convention. Registration reached 1615 yesterday evening with a close check secured at the regis tration bureau that places the number of visitors accompanying the delegates at a slightly higher number, fixing the total of guests within the gates of the city attracted by the coming of the National body at 3300

ciety, convened yesterday in the Atkinson School, will be concluded this afternoon. This is the fourth annual meeting of this organization and its fifth annual will occur at the same time and place as the American Medical Association

Rev. Dr. J. W. Lee Will Preach.

Dr. J. W. Lee, who comes to preach annual sermon to the National Association of Charities and Corrections, which convenes next Saturday in this city, is one of the most prominent men in the M. E. Church, South. His pastornie at present is at St. John's Church, St. Louis, which is said by Dr. Buckley, editor of the New York Christian Advocate, to be the best Methodist caurch building in America; the \$12,000. Dr. Lee was at the head of a large expedition which traveled all over the Holy Land in the interest of hiblical history. He is the author of several splendid works, the most prominent of which are: "The Making of a Man," "Footsteps of the Man of lee," and "Methodist History," The annual sermon to the National Asso-ciation of Charities and Corrections will be preached at the Auditorium of at 3:30 P. M. At 8 P. M., the same day, he will preach at the First M. E. Church South, 1714 Second street, Foresters' Hall. He will also address the

ADDRESS BY DR. MARCY

Auditorium of First Presbyterian Church Filled by Medical Convention Delegates, Who Esteem Founder's Memory.

Eloquent, scholarly and expressive of York. He began practice in Ringhampton, later removed to New York City and was the founder of the American Medical Association, being the founder and edi-tor of various of the leading medical journals. In 1849 he transferred to the Rush Medical College at Chicago, and from that time identified himself actively, not only with teaching, but with about very sanitary, scientific and educational interest of the city. In 1859 he became the active head of what is now known as Chicago Medical College, This was closing peroration of the address:

Dr. Marcy's Address.

"Wearing the crown of earthly hono as a simple exponent of service, interested in the present, as in early man-hood, seeing the victories yet to be won in the field of science, as the vista of the future opened before him, in the full ripeness of many years, the eternity of the present blended harmoniously with eternity of the future as he calmly

awaited its dawn. "Firm is the assured hope with which the great Apostle of the Gentiles was persuaded that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, or any other creature, shall be able to separate us from the love of God which is in Christ Jesus our Lord: thus was the spirit freed from the broken body, and June 16, 1904, we irned Nathan S. Davis as numbered

with the dead. "The subject of personal relationship is ost too tender for public expressi Thirty years' acquaintanceship ripened friendship sweeter to me by far than to him, because of the personal profit of the relationship. If anything lasts over into the great beyond it will be such ties of congenial loving friendship. which, without a ripple, ripened and strengthened to the last.

High and Noble Career.

"Let the tender associations of the home life be held sacred. Let the city of his choice, which had grown under his charge from a struggling village to the ond city of the continent, enshrine his mory in their hearts and perpetuate his form in imperishable bronze, looking out upon the great lake whose pure waters he gave to the public need. But above all let the American Medical Association hold unsullied the example his high and noble career and perpetuate his memory during the centuries to come by imitating his glorious example of a

ong life given to public service."

The memorial service to Dr. Davis will be continued today in room 15, Atkinson School, where other of his professional associates will be heard.

The auditorium of the First Presbyterian Church was occupied by about 255 delegates and accompanying ladies last evening to listen to the addresses. first was that by Dr. George Blumer, of San Francisco, in which the introduction of subtropical disease as the result of the equisition of island possessions by this country was discussed, the yellow fever, hook worm disease, dysentry, and other kindred tropical fils were discussed. Spe-cial attention was given the hook-worm disease, which the speaker believes may be diminished through a better knowledge of it by the profession generally, but also believes its territory will be found more extensive than now proven. He com-mended in unqualified terms the work of the United States Public Health and Ma-Methodist Congress July 19, at 8 P. M. rine Hospital Service for its research and effective work in eradication of the yellow fever mosquito.

Will Discharge Special.

Special Policeman Gardner will be dis-

charged from the service, it is stated, for negligence in the care of a stranger who became intoxicated recently, and during the course of his spree was robbed of \$170. Special Deputy Sheriff Howland was with Gardner and the man, and it is said that both were grossly negligent in caring for the man, who was escorted about by them. Both abandoned him, although they took him from a saloon for the express pur-

pose, they told the saloonkeepr, of taking him to his lodgings.

There has been so much trouble with special policemen during the past two years that the service has been handicapped, and Chief of Police Gritzmacher is going to draw the lines pretty tight in the near future. All "specials" will be under strict discipline, and will be held to account for their actions.

CONTRACTS PROTESTED.

Federated Trades Council Discusses Convict Problem.

A protest against letting five or tenyear contracts with stove manufacturers for the state convict labor has been made by the Portland Federated Trades Coun-cii and the State Federation of Labor. Governor Chamberlain has been criticized by these bodies for allowing long-time bids to be advertised for in view of the fact that at the last session of the Legislature an act was passed authorizing him to appoint a commission to look into the feasibility of employing the inmates

of the state are aroused by the advertising for long-time contracts with the convicts when there is a hope of utilizing them for road building. A two-year contract at most. Mr. Gram believes, should be made

The resolution passed by the Federated Trades Council of Portland, and Indorsed by the State Federation of Labor follows:

Portland, Or., July 12, 1965.-The 10-year contract of the Lowenberg-Going Co. with the State of Oregon for the use of the labor of the convicts of the Oregon penitentiary at the rate of 3% cents per hour per man having expired, and under the law the Governor in his discretion having the power to renew and contract the labor of said prisoners to any party or parties he might so elect for any length of time; and in view of the fact that a bill passed the 23d semion of the Oregon Legislature giving the Governor autherity to appoint a road commission, whose duty shall be to investigate the feasibility of building a broad highway from the northern line of California to the northern line of Oregon with convict labor, and report their findings to the 24th Oregon Legislature, we, the undersigned citizens of the State of Ore-gon, hereby protest against the renewal of the contract with the Lowenberg-Going Com pany, or any other party or parties for the hire or seiling of the labor of the state prisoners for a period not exceeding the 24th Analysis, by Dr. W. D. Bigelow, Chief Buscesion of the Oregon Legislature, and we reau of Chemistry, Washington, D. C. hereby request the Honorable Governor this petition:

RELATIONS ARE STRAINED Count." by Professor William M. Searby, San

Police Captain Dislikes Deputy City Attorney Fitzgerald.

Strained relations exist between Captain of Police Balley and Deputy City At-torney Fitzgerald because of the fact that yesterday morning William R. Cody, of the Girard Cafe, was quietly fined \$25 by Judge Cameron in the Municipal Court for keeping his saloon open after 1 A. M. No testimony was taken in the Cody case, although this was his third offense, he having been fined by ex-Municipal Judge Hogue previously. The fine yesterday was the minimum

In the case of August Erickson, charged with the same offense, no testimony was taken, either, but H. Fleidner, who runs a saloon near the Lewis and Clark Ex position grounds, was tried out in part and his case continued for further evi-

"Cody is a persistent violator of the law," said Captain Bailey, after sitting about the courtroom for more than an hour before being apprised of the fact that Cody had been fined. "It strikes me that it is peculiar not to take evidence in these cases, and more peculiar that officers are obliged to sit in court hour or more without being made aware that their cases have been disposed of." August Erickson was fined \$15 on harge, and has to face three additional charges of a similar nature. Patrolman R. F. Smith is the complainant, and says Erickson's saloon is open every morning.

VANCOUVER TRIPS.

For an enjoyable short ride on in River to Vancouver, take steamer Undine at Taylor-street dock, leaving as follows: Leave Portland at 8 A. M. and 1:30 P. M. Leave Vancouver, 10 A. M. and 4:45 P. M. Fare, 25 cents each way.

Hood's Sarsaparilla cures scrofula, sait theum and all other troubles caused by mpure blood.

DRUGGISTS ARE IN SESSION

PACIFIC COAST SOCIETY TO BE ORGANIZED.

W. M. Searby Presides and Important Papers Are Read on . Technical Subjects.

Druggists of the Pacific Coast who are now holding an annual congress will organize a permanent organization to be known as the Pacific Coast Pharmaceutical Association. This was decided at the initial session yesterday morning at the American Inn. The idea met general favor at a later meeting in the Atkinson School, and will probably be perfected today, when the congress will close its work with two sessions, one in the afternoon in con-junction with the pharmacology section of the American Medical Association. At yesterday's meetings W. M. Searby presided with Albert Schneider

as temporary secretary, Many important papers were read on technical subjects. The speakers of the day and the subjects of their papers

were as follows: "Retail Pharmacy and Store Management," historical section, H. P. Hynson, Baltimore, Md.; "Cultivation of Cin-chonas on the Pacific Coast," Albert Schneider; "Fluctuations in Market Prices of Drugs and Chemicals on the

Pacific Coast," Mrs. N. R. Case, San Francisco, Cal. Yesterday afternoon papers were read as follows: "Price-cutting and Competition," S. A. McDonnell, San Francisco: "Pharmaceutical Jurispru-Morphology and Taxonomy," Henry Kraemer, Philadelphia, Pa.; "Entrance Requirements of Colleges of Pharmacy," W. M. Searby; "History Pharmaceutical Titles in America," I. Wilbert, Philadelphia, Pa.: "Educational Standard of Pacific Coast Col-leges of Pharmacy," W. M. Searby, San Francisco; "Present Status of Food Analysis," W. D. Bigelow, chief Bu-reaus of Chemistry, United States Department of Agriculture; "Analysis of Drugs," L. F. Kebler, chief drug laboratory, Bureau of Chemistry; "American Cod Liver Oil," L. M. Tolman, Bu-

reau of Chemistry. Following is the programme for today's sessions in room 13, Atkinson School, beginning at 9:30 A. M.:

"Mercurial Poisoning From Amalgam Used in Filling Teeth," by Dr. E. H. Bartley, of Brooklyn College of Pharmacy. "Pharmaceutical Education," by Fred J.

Walling, Minneapolis, Minn. Retail Pharmacy and Store Management" "The Present-Day Retail by H. P. Hynson, Baltimore, Md. "Pharmaceutical Jurisprudence," by Har-ley H. Wiley, San Francisco, Cal.

Synthetic Remedies and Their Manufacture," by William J. Schleffelin, New York. The History and Present Status of reau of Chemistry, Washington, D. C. "American Cod Liver Oils," by L. M. Tol-

on to carefully consider the purport of man. Bureau of Chemistry, Washington, D. C. "Cenchona Culture in California," by Professor Albert Schneider, San Francisco, Cal. "Pharmaceutical Education on the Pacific
