# EXPOSE EVERY **GUILTY OFFICIAL**

Cotton Men Appeal to President for Investigation to the Bottom.

#### ATTORNEYS ARE DIGGING

Beach Getting Further Evidence for Grand Jury-Others Guilty Besides Holmes-First Charges Made Five Years Ago.

NEW ORLEANS, July 12 .- President A. Brittin, of the New Orleans Cotton Exchange, today addressed the following letter to President Roosevelt:

The recent exposure in the Statistical Bureau of Cotton, Agriculture Department, has developed a situation which in cotton trade circles for many months past has been so strongly suspected, from apparent indication, as to amount to a positive conviction of wrongdoing. And now that the exposure has been publicly announced a feeling of intense indignation prevails throughout the trade interested in fair dealing by reason of the de-partment having been used by a clique of corrupt speculators to promote their individ-ual and selfish ends. And that it should be known who have been the beneficiaries, the corrupters and the corrupted as well. With this end in view I am directed by

the board of directors of this exchange to address you direct and invoke your good of-fice in having a searching investigation carried on until the whole matter is probed to the core and the results given to the public I beg to assure you our people here are already profoundly impressed and gratified with your continued disapproval and con-demunation of impure methods in government affairs and your unyielding disposition to dis-miss from the service unfaithful agents and, therefore, anticipate your good efforts in responding to this appeal.

WILL PRESS INVESTIGATION.

#### Cotton Men Believe Others Besides Holmes Are Guilty.

ATLANTA, Ga., July 12.-President Harvey Johnson, of the Southern Cotton Association, after hearing the report of Secretary Richard Cheatham with reference to the investigation of the Bureau of Statistics at Washington, today authorized the following statement for publication:

The charges preferred by the association have been fully substantiated, and the inves-tigation of the Bureau of Statistics along other lines will be vigorously pressed by the as-sociation. We will not be content to let the matter drop where it is, as we are satisfied that others beside Holmes should be relieved of further connection with the de-

President Réosevelt has aiready taken ac tive steps in the matter and still more im disclosures may be looked for in the near future.

#### HUBBARD HAS ONE ON WILSON

#### Made Charges in 1900, but Was Called Down.

WASHINGTON, July 12 .- A new and interesting phase of the cotton-leak in- Grosscup, of Chicago, who spoke in parvestigation was developed today as follows: through the publication of the letter of Walter C. Hubbard, president of the New York Cotton Exchange, addressed to President Roosevelt, in which the writer declared the members of the exchange had been "greatly shocked" by the recent disclosures of venality in the Department of Agriculture and requesting a full investigation of the methods which led to the corruption with a view of preventing the possibility of recurrence

That letter is believed here to be the outcome of recent correspondence between Secretary Wilson and Mr. Hubbard, in which the latter called upon the Secretary to make him a public apology because he had some years really republicanized that in the public mind there will be no feeling that under our laws, and under the practical opportunities for an individual career that our laws are supposed to furnish, the field is not open to all subjects to the process of the public mind there will be no feeling that under our laws are supposed to furnish, the field is not open to all subjects to the public mind there will be no feeling that under our laws. retary wrote a tart reply in which he informed Mr. Hubbard that he owed no one an apology in the light of having done his duty to the best of his ability and that, when he got anything that looked like facts, he promptly sent it to the secret service officers to hunt down.

The case to which Mr. Hubbard referred in his recent letter to the Secretary occurred in 1900. On December 20, of that year, Mr. Hubbard sent the Secretary certain papers showing that a Mr. Sterberger wanted to sell information to a New York cotton brokerage firm, claiming that he could get it in advance from the Department. Mr. Wilson immediately turned the matter over to the secret service officers, but in about a week Chief Wilkie reported that "it looks like an attempt of Sternberger to bunco the New York firm." After allowing two months to elapse, and not hearing further, the Secretary, on March 26, 1991, called upon the secret service officers for inas follows:

The action of this man who wanted to sell information was done with the hope of be-ing able to sell information, but as a matter of fact his efforts to obtain the advance information failed, as he received no assist-ance from the person in Washington upon whom he depended for information,

This report of Mr. Gage was transmitted to Mr. Hubbard by Mr. Wilson the next day, and the matter was allowed to drop. But in January, 1982, Mr. Hubbard complained of having been advised that Southern ginners were sending to the Department returns of their ginning operations bear-ing date of December 22 or 23, "and," said Mr. Hubbard, "I am unable to understand why additional returns from ginners should be obtained, since the result is to be published." however, that the Department of Agri-culture had not called for any ginners' statistics at that time, but that the circulars had been issued from the Census Bureau.

In the same month Mr. Hubbard wrote the Department of Agriculture, asking for certain information on col ton, but the Secretary, in the course of a sharp letter denying the request, written under date of January 11, 1962,

We take the ground here that nothing goes out unless it goes to the whole people. We have no favorites." Mr. Wilson today permitted the expination of the correspondence in der to show that, as far back as five mus.

years ago, he had taken prompt action to discover any leaks in his office.

MAKING EXHAUSTIVE INQUIRY

Beach Will Get All Facts for Grand Jury's Action.

WASHINGTON, July 12.-The investigation that will be made by District Attor ney Morgan H. Beach, into the charges that there has been a leakage of information in the matter of preparing the Government cotton statistics will be far more exhaustive than that conducted by Se-cret Service operators at the request of Secretary Wilson, of the Department of

Acting Attorney-General Hoyt has con pleted his examination of the papers transmitted to him by Secretary Wilson, and he thinks there should be further and detailed legal inquiry. With that end in view he has committed the entire matter to Mr. Beach, who intends to complete his examination of the case. He has taken up the subject as prosecuting attorney, and in all probability will assist the Gov-ernment when the matter is brought into the courts, an outcome of the investigation that is believed by Department of Justice officials to be a certainty.

Expense will not be spared in gathering evidence of the methods alleged to have been employed by Edwin S. Holmes, the dismissed Associate Statistician of the Department of Agriculture, and in exposing any accomplices he may have had in his operations. Mr. Beach will have the benefit of the labors of Secret Service men who were employed by Secretary Wilson, and also of the best legal talent in his own office. in his own office. Working in the case will be a number of men who ferreted out much of the evidence in the prosecution of postoffice frauds. It is planned to con-duct the examination secretly, on the grounds that it will be much more effec-tive. It has not been decided whether the case will be submitted to the grand jury prior to arrests, if it is found that arrests are warranted, but it is not be-lieved this will be the procedure."

#### WANTS GUILTY ONES PUNISHED

#### New York Cotton Exchange Appeals to President for Action.

NEW YORK, July 12-The New York Cotton Exchange made public today the following letter:

The Hon. Theodore Roosevelt, President of the United States, Washington, D. C. Dear Sir: On behalf of the New York Cot ton Exchange I want to say that its members have been greatly shocked by the recent dis-closures of venality in the Department of Agriculture, upon whose report they have de-pended for accurate information on the con-duct of their common business.

I beg to request that a full investigation be nade of the methods which led to the co ruption, with a view of preventing the possi-bility of recurrence, and that the guilty ones

adequately punished. Official reports should be above suspicion of publication in the interest of any persons for their individual benefit, and as president of this exchange I wish to put its members upon record as utterly opposed to such culpable

your most emphatic condemnation and action upon the practices which make legitimate business impossible and put the members of our body at the mercy of tricksters and

With great respect, I am, yours truly, WALTER C. HUHBARD, Prosident New York Cotton Exchange.

## DOMAIN OF CORPORATIONS

Judge Grosscup Would Broaden It by Interesting Whole People.

PUT-IN-BAY, O., July 12.-Five bun fred representatives of the Ohio Bar Association, including many eminent jurists any cognizance of the affair, of the state, assembled here today for the annual session of the State Bar Association. The feature was the address on "The Corporation Problem; the Lawyer's Part in Its Solution," by Judge Peter S.

The great new domain of property represented by the corporation; nor how to hinder or hamper it, nor how to take it over into National proprietorship; nor simply how to make those who have already come into its pro-prietorship deal fairly and benignly with the people, as the great proprietors in the monarchies of Europe might be required to deal fairly with their peoples.

The great problem that confronts the statesmanship of this day, like that which had to deal with the public landed domain. is how to people'ze the ownership of this new domain; how to widen and deepen the popular stake in this new possession how to swoop forward into the age that is to come. losing nothing overboard from the age that is passing, but with everything aboard so

It is not the appetite of the men and omen of America for food that creates our oblem. What creates our problem is that under present corporate policies the instinct of independent manhood, the instinct that characterizes us as a people, finds no field for exercise. And what confronts us is, to find a way that will, with reasonable secur-ity open to this instinct the whole domain of industrial restrictorship. Industrial proprietorship.

I do not expect that way to be found in a day, or in a single measure. It is not or dained that a people shall go through a great crisis so easily. I do not expect that e way will be found by the men who are called the party leaders, or that immediate help will come from them. Party leadership is timid. Men in Presidency and Senatorships and Governorships are men who think many times before they take any step that might separate them from the prevailing I am at, and what I ask

ou to join in helping along, is to set n motion the public opinion that lies be-sind party leadership. When the deeper judgment of the nation is reached; when the vested inferests of this dountry come in see that their greatest security lies in having all about them neighboring vested in formation as to whether they had made any discoveries. On the following day and out until, carrying reasonable security. Secretary of the Treasury Gage replied it is within the reach of all; when the men who toil for wages, without abating their appreciation of their present protective agencies, come to actually wish for an individual share in the country's property; when the country wakes up to the conscioussexs that benevolence is not the only thing that is human; that just dealing is not the thing that is human; but that indiidual ambition to get on in life is human also; that the wish for a career is human; that individual independence is human; that some share in the world's inheritance from nature is human; when the spirit that in-spired the pre-emption and homestead laws -peopletzing the domain that fell to our fathers—revives us, dealing as we have to do with the larger and more difficult domain that has fallen to us; when the public mind and honor have been lighted up, ways will be found, abundant ways, to infuse into this be found, abundant ways to intuse into this new property domain of the Republic, even though embodied in corporate form, the widespread personal interest and individualwidespread personal interest and individual-ity that alone gives to property its fullest utility as an agency for good, and alone saves to private property its place as one of the republican institutions of the country.

Passengers From Canal Quarantined NEW YORK, July 12-Twenty-five passengers of the steamer Allianca, which arrived last night from Colon, today were transferred to Hoffman's Island for observation. The examining physicians found that all these passengers had temperatures above the normal, and it was decided to detain them, owing to the prevalence of yellow fever on the isth-

Czar Changes Whole Plan of National Assembly.

#### **BOULIGAN'S PLAN DROPPED**

Oligarchy Which Really Rules Russia Adopts System of Class Representation to Hold Power Through Landowners.

ST. PETERSBURG, July 13.-(2:40 A M.)-According to a statement current here last night, there has been another radical change in the programme for a national assembly, which will involve the supersession of the whole of Minister of the Interior Bouligan's project by one based distinctly upon class representation, a system against which the Moscow Zemstvo Congress took a stand. This new project, it is said, will be considered by the Council of Ministers under the presidency of the Emperor, reinforced by the Grand Dukes and a number of high court officials.

The Emperor's conversion to the class epresentation project is attributed to the influence and party leadership of the landed nobility, the views of which were placed before His Majesty in an address presented by Count Bobrinsky, president of the Constitutional Conservative party, and Count Sheremetieff, in behalf of what is denominated the "Patriotic Lengue.

Despite the popular idea here as well as abroad that Russia is ruled by the bureaucracy, it is nearer the truth to say she is ruled by a small oligarchy of Grand Dukes and about 30 great noble families who have access to the court and who make the bureaucracy their tool. With class instead of screen? With class instead of general representa-tion, they say they can control not only the members of the nobility, who are exgensive landowners, but the peasants who live on their estates, and, thus buttressed, the bureaucracy will have to protect its own interests.

The Emperor himself is the largest landowner, owning more land than all the peasants of European Russia, and over

#### ASSASSIN WAS A STUDENT.

#### One Story Makes Motive Political, Another Personal Revenge.

ST. PETERSBURG, July 12.-Private advices received here from Moscow say that the slayer of Prefect of Police Count Shuvaloff is a student and that he made an unsuccessful attempt at suicide after taking the life of his victim. His recent arrest was due to his participation in

ST. PETERSBURG, July 12-The mur-der of Prefect of Police Shuvaloff, of Moscow, who yesterday was assassinated while receiving petitions, according to the latest information, was inspired by motives of vengeance on the part of the assassin, who laid at Count Shuvaloff's door the responsibility for his recent ar-rest, though there is absolutely no evi-dence that the Prefect personally had

## COURT-MARTIAL FOR KRUGER

## Showed Incapacity in Managing Mu-

ST. PETERSBURG, July 12 - The Nashna Shish says that Rear-Admiral Kruger will leave the service on account of alleged incapacity in connection with his treatment of the situation created by the mutiny aboard the battleship Kniaz Potemkin, at Odessa. The Admiral probably will be court-martialed. At the Admiralty he is known as one of the "court

Admiral Avellan's "promotion" to the Council of the Empire is definite, as is Admiral Birileff's appointment as Minister of Marine.

### CALL ASSEMBLY AT MOSCOW

## Czar Will Issue Proclamation From

Old Capital. ST. PETERSBURG, July 12,-The Slovo positively announces that the Emperor will travel to Moscow where, on Wednes-

day, July 19, he will issue a proclamation summoning the representatives of the people to the Islinsky Paiace, Kremlin Some of the officials of the court already have gone to Management. have gone to Moscow to make preparations for the event.

#### New Mutiny in Navy Threatened. REVAL, Suropean Russia, July 12 -- Be-

ing apprehensive of a mutiny, the authori ties here have ordered the sailors of the Russian cruisers Minine and Kremlin to be relieved of their arms. Serious disc tent has been manifested among the crews of the warships, owing to the quality of the food supply. The officer who is held responsible for this state of affairs has been placed under arrest.

Potemkin on Way to Sevastopol. SEBASTOPOL July 12-In pursuance of instructions from the Russian Admiralty, the Kulaz Potemkin is on her way here, having left Kustenji, Roumania, during the night, in tow of the

## MONOPOLY IS AT AN END

Pacific Mail No Longer Controls Traffic of Isthmus.

NEW YORK, July 12.- The contract between the Panama Railroad Com-pany and the Pacific Mail Steamship empany, under which the latter has for years enjoyed the exclusive liege of handling freight on the Pacific side on through bills of lading, ter-minated today. Hereafter all carriers will be on a parity in respect to transit facilities on the Isthmus.

Mr. Bristow in his recent report or the Panama Railroad recommended that if the Pacific Mail Steamship Company withdraws its present Panama line an effort be made to induce some other company to establish a first-class of the company to establish a first-class service between the important Pacific Coast ports of the United States and Panama.

Upon excellent authority it can be stated that the government does not anticipate that the Pacific Mail will carry out its threat to take its vessels from the Panama-San Francisco service, nor does it expect the abrogation of the contract to affect in the shipment of merchandise from New York to San Francisco.

Robert M. Morman, Newspaper Man, ATLANTA, Ga., July 12.-Robert M. Morman, of Tennessee, formerly Washing-ton correspondent for several Southern papers, died suddenly on the street here today. He was about & years of age.

NO RELIEF IS IN PROSFECT FROM TORRID HEAT.

Ten Deaths in New York and Six in Philadelphia-Scores Fall Prostrated.

WASHINGTON, July 12.-Hot weather revalls over the greater portion of the United States, according to reports received at the Weather Bureau tonight. Apparently, there is no immediate relief in sight, except through the local thunder storms in several scattered sections. Throughout the West reports indicate increasingly hot weather. The humidity is high all over the Atlantic Coast from New England to Florida, and the prospect is that it will continue so two or three days, iwth northeast to south

In Washington today the maximum temperature was 88 degrees, the same as yesterday, but some relief has been experience through local thundr storms. There were a number of heat prostrations here, but so far as reported none of them has resulte fatally

Poured From Northwest Into

Harriman Coffers.

RESULT OF IMPROVEMENTS

Reduced Cost of Operation Accompanied by Increased Traffic Due to Development-The Great

Northern's Good Showing.

NEW YORK, July 12.-(Special.)-The Harriman lines in the Northwest are making record earnings. The Union Pacific main line is said to be carrying today the heaviest tonnage in its history, at the lightest rate per ton per mile of actual necessary cost in its history. In other words, the immense improvem made out of earnings in the past four years are showing direct results in both the volume of tonnage and in the cost of carrying it. The standardizing of the equipment, carried out last year under the personal supervision and under the direct orders of E. H. Harriman, has proven a successful experiment. It is not of course, in full completion. It will take pile before the "U. P. standard" is every-where on all the lines. All the new equipment is standard, and all possible repairs

are accomplished by adapting the old equipment to the standard parts. This Summer the Northwestern rail-roads are going to eclipse all transportation records on this continent. This is the judgment of Roswell Miller, Julius Kruttschnitt, James J. Hill and Jacob Schiff, who, presumably, gets his information from good quarters. The Hill railways are looking forward to far the heaviest transcontinental traffic in their history, both in freight and passenger business. All these lines are after the Lewis and Clark traffic and are getting it. So are the Soo Line and the Canadian Pacific.

Build Hopes on Northwest. The Harriman railways are building

their hopes upon the Pacific Mail traffic and the business into and out of the new sections of the Far Northwest. There are stated to be over 500,000 acres of land tributary to the Harriman lands and producing freight of one sort or another which last year produced nothing but trouble. This is the kind of thing that is making the Harriman lines. The Utah and Oregon development, even though it is not carried on by the Harriman people

the Twin Cities is showing relatively th best results from the operations of the last six months of the fiscal year and from the work of Max and June. The Milwau-kee and the Great Northern are con-spicuous. The former shows an increase of nearly \$900,000 for the 11 months in net of nearly \$300,000 for the 11 months in net, and one of \$329,000 in gross for May, saving nearly the whole of it in net. The Hill railroad, always a consistent performer, shows the magnificent increase of \$631,000 for the month of June. For the

#### year this railroad shows the record increase of \$3,031,000.

Soo Line's Great Earnings. The Soo Line and Canadian Pacific are other good ones. The former, with its net increase of over \$200,000 and its gross increase of over \$1.700,000, or nearly 30 per cent, is better than the Hill railroad in percentage. The Son Line, in fact, is the wonder of the hour. It was only a few years ago that the wisacres of the street were wondering what in the world the Canadian Pacific was going to do with the Soo Line. It seemed a helpless derellet. There were no prospects on the road. It had never paid dividends, and most critics agreed that it never would. most critics agreed that it never was Now it is paying 7 per cent on the preferred and 4 per cent on the common, and is practically certain to increase the rate the common within 12 months.

This is the accident of rallway the purchase of the Soo Line was a gam ble pure and simple. It was hoped at the time of the purchase that in time the road would earn its charges fairly well.
