

USES WARRIORS

Governor Mead Scores Governor of Minnesota.

INJUSTICE IS ALLEGED

Requestion for Densie M. Allen Was Refused Without Giving Washington Executive Opportunity to Be Heard.

OLYMPIA, Wash., July 12.—(Special.)—Governor Mead today addressed a warmly-worded letter to Governor Johnson, of Minnesota, in which he reviews the Minnesota requestion for Ida M. Johnson, granted today, and the Washington requestion for Densie M. Allen, denied by Governor Johnson, last April. Governor Mead sets forth some of the telegraphic correspondence between the two Governors in relation to the Allen matter, from which it appears that Governor Johnson dishonored the requestion on the ground that the papers failed to include an affidavit showing the perpetration of the crime charged, and he gave no reason why he refused to give a summary denial of the requestion. Governor Mead says in part:

With the recital of the facts of this case, I submit to the candid judgment of the people of the two states interested that the people of Washington have a right to complain of the injustice suffered by your hands, and to the justice of the state of Washington was practically denied a hearing in our efforts to extradite a fugitive from justice in your state.

I presume the only alternative left to me to protest against this sort of treatment, which I shall continue to do whenever requestion papers based on this sort of a summary denial of a hearing, practically refused and no opportunity given to meet your views of the law in extradition cases.

LEWISTON BANKERS INVOLVED

Federal Grand Jury Finishes Taking of Testimony at Boise.

BOISE, Idaho, July 12.—(Special.)—The taking of testimony by the special grand jury investigating the frauds closed today, and it is expected that the jury will close up and make report tomorrow. No indictments were returned into court today, but it is believed four or five will be voted. From what has been learned of the nature of the testimony, the government appears to have been tracing transactions with, which George H. Kester and E. W. Kettnerbach, the Lewiston bankers, have been connected.

The cases under consideration by the grand jury today are those of residents of the vicinity of Asotin, Wash. In at least four cases it is alleged that money was made on timber claims in North Idaho by Asotin people, who then transferred the claims to Jackson O'Keefe, of Asotin. In the first case, the witnesses, George H. Kester and E. W. Kettnerbach, prominent bankers of Lewiston, have been connected.

The impression that Kester and Kettnerbach will be indicted is based on the manner in which the jury traced the deals in their finality to them. The grand jury heard the last of the testimony in the pending cases today, closing up all proceedings that are jeopardized by the statute of limitation.

It is possible that later on additional indictments will be returned in cases of more recent origin. Among the witnesses today was Jackson O'Keefe, the alleged go-between in the Kester-Kettnerbach deals. Others before the grand jury were Joseph H. Freeman and E. H. Davidson, Edgar J. Taylor, of Cloverdale, Wash., and E. Taylor, of Asotin.

J. HAM WOULD GO TO CONGRESS

Seattle Statesman Will Use Chicago Appointment at Stepping Stone.

SEATTLE, Wash., July 12.—(Special.)—Seattle friends of James Hamilton Lewis, appointed general corporation counsel of Chicago by Mayor Dunne, who have kept posted on his career in the Windy City, state that Lewis is really attempting to force his way into Congress from a fairly safe Democratic district in Chicago. Lewis has always wanted to go back to the National capital. During the two years he was there he was treated to widespread newspaper notoriety and this has always been enthusiastically received by Lewis.

A special dispatch from Chicago today says the appointment of Lewis as corporation counsel carries with it the right to name 25 assistants, ten of whom will be named as assistants corporation counsel.

During the Dunne campaign Lewis made a number of characteristic speeches for the Democratic candidate, and even then he confided to friends that his purpose was to seek re-election to Congress from an Illinois district. The new appointment is not likely to avert him from this determination. The fact that he went to the Kansas City convention as a solitary member of the Lewis campaign, and the Vice-Presidential indicator Lewis will take care of his own political fortunes in the Chicago office.

REMOSE DROVE TO THE HILLS

There Pneumonia Seized J. C. Bush, Who Denied His Brother.

BUTTE, Mont., July 12.—Eugene Bush, of Kansas City, Mo., has appeared before the courts here, laying claim to a portion of the estate of the late Charles Colburn, who died in Butte several years ago. With the presentation of Bush's claim a remarkable state of affairs was disclosed, it appearing that J. C. Bush, a brother of Eugene Bush, had represented himself as the sole heir to the estate.

J. C. Bush at first denied his brother, but finally confessed his identity, acknowledging his attempt to secure the whole of the estate for himself. Suffering from pains of remorse, J. C. Bush fled to the mountains, where he was found this morning, suffering from pneumonia contracted from exposure.

BIG CROPS IN LINN COUNTY.

Hay, Wheat, Oats and Hops Give Great Promise

ALBANY, Or., July 12.—(Special.)—The hay crop of Linn County is greater this year than ever before, and thousands of tons of hay will be shipped away. In addition to the extra acreage the yield is unusually good. Hay is selling for \$4 and \$5 loose, and \$6 and \$7 baled—low prices even for the opening market. Hay has been in progress for some time, and this week will see the crop cut and in the cock. Most of it will also be in the barn or stack ere the end of the week.

Never did wheat in Linn County look better. Blunders will begin moving the yellow grain this week, most of it being now fully ripe and ready for cutting. The aphs mentioned early in the Summer

WIRE OUT ORDINANCES

leaving no mark behind. The output of the county will not be much larger than in the past, for the acreage is not much larger than usual, but the yield is the greatest in years.

Threshing will begin the last of July or the first of August, on the Fall-sown grain. Three or four weeks later work will begin on the Spring grain, which is looking fine where sown early enough, but that sown late will ripen pretty close to the ground, making binding difficult.

Oats are looking fine, and will be a fairly heavy crop. The acreage is not as large as in some years, but the yield is excellent.

One of the bumper crops of the county will be hops. There is every indication of a bumper crop, and the hop growers are looking forward to a bumper crop. The hops are looking fine, and will be a fairly heavy crop. The acreage is not as large as in some years, but the yield is excellent.

NO OPERATOR OUT ON STRIKE

Spokane Men Are Waiting for Orders From Headquarters.

SPOKANE, July 12.—No operator has gone on strike here, either in railroad or commercial offices. The dispatchers here are waiting for instructions from headquarters. About Northern Pacific offices there is a rumor tonight that the difficulty between the road and its operators has been settled.

BIG MILL FOR HOOD RIVER

PROPOSAL TO BUILD MILLION-DOLLAR COTTON PLANT.

Eastern Promoters Ask a Site, Power and Subscription to Stock

HOOD RIVER, Or., July 12.—(Special.)—Hood River is considering a proposal for a \$1,000,000 mill. E. W. Tarr, of Boston, accompanied by Dr. A. LeRoy, superintendent of the information department of the Portland Chamber of Commerce, was here last night and presented his plans to an open meeting of the Hood River Commercial Club.

It is asked that Hood River business men furnish a site, free water power and subscribe a portion of the stock. It is expected that the greater part of the stock will be taken in Portland, and a committee of the Commercial Club has been appointed to inquire further into the matter and to see if the necessary site and power can be secured at a reasonable figure.

Right Given to Another.

BOISE, Idaho, July 12.—(Special.)—Judge Beatty has decided the condemnation suit of Hendrick & Baillie vs. Larson & Greenough against the plaintiffs. This action was brought to condemn the land known as the Morning tunnel, which penetrates property of the plaintiffs in reaching the Morning mine.

Recently the defendants instituted condemnation proceedings against Judge Beatty appointed appraisers to assess the damages. Then Hendrick & Baillie commenced condemnation proceedings covering the identical tunnel, the purpose being to secure joint use of it. Having given the defendants a tunnel right the Judge holds that he cannot grant an identical right to Hendrick & Baillie.

Beat Guard and Escape.

SAN FRANCISCO, July 12.—Two military guards, a negro and a white man, attacked their guard at Fort Mason, felled him to the ground with a rake, and seizing his rifle, beat him into insensibility with the bayonet and then made their escape. McMurray, the white man, who is under a ten-year sentence to Alcatraz prison, was captured by Lieutenant MacArthur, son of General MacArthur. The negro, whose name is Shepard, is still at large, and the police are hunting for him. Guard Montzner, who had charge of the convicts, is in Fort Mason Hospital. The surgeons have grave doubts of his recovery.

ESCAPES ACROSS THE LINE

BIGAMIST COLLINS FEELS SAFE

AT VICTORIA, B. C.

San Francisco Attorney Says He Could Not Get Justice in California Court.

VICTORIA, B. C., July 12.—Attorney T. D. Collins, wanted at San Francisco for bigamy, and Mrs. Collins are at the Driehotel, in this city, and are being guarded by the local police. Telegrams have been received by the local police, asking them to arrest and hold Collins for bigamy. Collins came north overland. A few days ago he was in the city of San Francisco, where he was arrested by the police. Collins is not an extraditable offense. Chief Langley, of Victoria, has wired to San Francisco to this effect.

Collins came north overland. In an interview given here Collins said he knew he could not be extradited from British Columbia for bigamy. During 16 years' practice in the United States he had had made powerful enemies and had personal troubles with Mr. De Young, of the San Francisco Chronicle. He said he was the victim of a conspiracy, and would not get justice in a California court, so he decided to come to Canada. Collins rode as far as Portland in the same sleeping car with Governor Farde. He distinguished himself by eating a \$12 dinner and tipping waiters and porters with silver dollars. When the passengers learned the prisoner was in the car they cut her, and she was greatly distressed, but cheered up after the big dinner.

Brunswick Bills at Vancouver.

VANCOUVER, B. C., July 12.—The police have arrested Francis Gratzina, a man charged with uttering bogus bank bills, and a number of which have been passed. The notes are of the New Brunswick State Bank of New Jersey, said to have been out of existence for many years. The prisoner is believed by the police to be one of a gang engaged in circulating these bills in the British Columbia towns.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is unquestionably the most successful medicine in use for bowel complaints, and it is now the recognized standard over a large part of the civilized world. A few doses of it will invariably cure an ordinary attack of diarrhoea. It has been used in nine epidemics of dysentery with perfect success. It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus. It is equally successful for Summer diarrhoea, and cholera infantum in children, and is the means of saving the lives of many children each year. When reduced with water and sweetened it is pleasant to take, which is important when medicine is to be given to small children. Every man of family should keep this remedy in his home. Buy it now. It may save life. For sale by all druggists.

WIRE OUT ORDINANCES

leaving no mark behind. The output of the county will not be much larger than in the past, for the acreage is not much larger than usual, but the yield is the greatest in years.

BOSSSES OUT OF FASHION

Roosevelt and Anti-Roosevelt Will Probably Be the War Cries on National Issues, But Not in Local Elections.

SALEM, Or., July 12.—(Special.)—That there will be a new line-up in Republican politics, either in national or almost complete obliteration of factional lines, is generally believed and frequently asserted by men who take interest in politics. That the old line of cleavage—Mitchell and anti-Mitchell—has already, or must soon, disappear, is acknowledged by all except those few who refuse to believe the testimony in the land-fraud cases or to accept the verdict of the jury.

Though it is admitted new lines must be found, if there are to be any lines at all, no one seems to have any definite idea of what the new alignment will be. There seems to be no figure in Oregon politics around which shattered factions may rally, no name of an Oregon political organizer that may be adopted as a factional designation.

There are those who declare that under the direct primary law the maintenance of factional lines such as have existed in the past will be impossible. They assert that the people never have favored factionalism, but under the old system, where one man or a few men secured control and named the ticket, there was nothing to do but stand with one faction or the other. As a rule, the faction that controlled the nomination named the ticket from top to bottom, and the yellow dog of the prevailing crowd was preferred over the best man in the defeated faction.

It is asserted that this is no longer possible, for the people will pick the best men in the primaries, and there will be no pre-filing faction. No one or two men will be able to name all the candidates. No man can build up a political machine, because under the direct primary no man can "deliver the goods," and therefore no man can make promises that will carry weight. Any man who wishes to do so may be a candidate and have a fair chance of winning, regardless of alliances formed or not formed, of promises made or not made. The new method of nominating candidates, it is said by some men who have thought upon the matter, will obliterate all factional lines.

But there are those who take a different view. A prominent man suggested a few days ago that although the old lines have been broken, new ones must be formed. He said that the new lines, he says, will be drawn upon ideas and not men—upon principles and not plunder. He finds some indication of this in the discussion that has arisen as a result of the land-fraud trials. He finds that there is one group of men who took offense at the vigorous attack upon the land-fraud cases, and have been assailing the Administration ever since the prosecution began.

This group of men insists that the prosecution should have been left in the hands of John Hall and Mr. Heney should not have been imported from California to take charge of the case. Agreed by the Administration to increase in that particular, they have found fault with nearly everything that the Administration at Washington has done. They are not satisfied with the new line, he says, will be drawn upon ideas and not men—upon principles and not plunder. He finds some indication of this in the discussion that has arisen as a result of the land-fraud trials. He finds that there is one group of men who took offense at the vigorous attack upon the land-fraud cases, and have been assailing the Administration ever since the prosecution began.

MONTE IS FOUND GUILTY

MURDER IN SECOND DEGREE, SAYS SALEM JURY.

Indicted With Harry Wright for Providing Tracy and Merrill With Rifles at Penitentiary.

SALEM, Or., July 12.—The jury in the case of Charles Monte, jointly indicted with Harry Wright for murder in the first degree, under the direct charge of having furnished convicts Harry Tracy and David Merrill with guns, with which they effected their escape from the Oregon Penitentiary the morning of June 9, 1902, brought in a verdict tonight of murder in the second degree. The jury had been out since noon.

Monte and Wright were accused of having scaled the prison walls at night and placed guns in the prison shop, where they were found by the convicts in the morning. As the result of the outbreak, three guards, Frank Ferrell, B. F. Tiffany and S. B. T. Jones, lost their lives. Wright is to be tried tomorrow morning.

The verdict against Monte was evidently a compromise. The prosecution made a strong case against him, showing that Monte bought two 30-30 rifles from W. J. Kelly, in Portland, a few days before the outbreak, that he was in Salem a day or two before the break, and that he made admissions to other men that he aided in securing the rifles in the prison foundry, where Tracy and Merrill could get them. Monte had served two terms in the Oregon Penitentiary. Wright is also a confirmed criminal, having served terms here and in Washington.

Indians to Get No Liquor.

OLYMPIA, Wash., July 12.—(Special.)—A letter to the Attorney-General from Superintendent Charles Buchanan, of the Tulip Indian Agency, reveals that the Agents of Indian Affairs have instructed all Indian agents in this state to see that the state law making it a misdemeanor to sell or give intoxicants to Indians is strictly enforced. The agent for the order is the recent decision of the Federal courts to the effect that an "allotted" Indian is not a ward of the Government, but a citizen of the state in which he resides, and therefore the Federal status such as the one forbidding the sale of liquors to them are dead letters so far as "allotted" Indians are concerned.

Superintendent Buchanan asks for advice as to the methods of enforcing the state law in this particular which the Attorney-General will furnish.

FOREST GROVE DISPLEASED

CITIZENS DEMAND TWO ROUND TRIPS DAILY.

Offer of the Southern Pacific Unanimously Rejected at Mass Meeting Called Last Night.

FOREST GROVE, Or., July 12.—(Special.)—At a mass meeting of the citizens tonight, it was voted to protest against the extra train service which has been offered by the Southern Pacific Company. Senator Haines read a letter from General Manager O'Brien, offering an extra train each way daily between Forest Grove and Portland.

The hours offered were not satisfactory, and it was the sense of the meeting that the new service should include at least two round trips daily. Prominent members of the Board of Trade spoke against the offer, and the citizens voted to reject the offer passed unanimously.

Yearly Meeting at Newberg.

NEWBERG, Or., July 12.—(Special.)—At yesterday afternoon's session of the Oregon yearly meeting of the Friends Church this year's officers were elected as follows: Presiding clerk, President H. Edwin McGrew, of Pacific College; recording clerk, Mrs. Mabel H. Douglas; reading clerk, Mrs. F. A. Stuart; announcing clerk, Rick. The conditions of the church were considered yesterday as shown by the statistical reports, and were seen to be encouraging.

At this morning's session both the general and special epistles from the present yearly meeting of London, England, were read.

Church Convention at Centralia.

CENTRALIA, Wash., July 12.—The Southern District Convention, Church of Christ, has been in session here this week in the Christian Church. All-day sessions have been held and the convention will end at a late hour Thursday evening. Among the most prominent men present is the Rev. G. K. Berry, of Portland, who has delivered several important addresses.

Big Hay Crop in Polk.

DALLAS, Or., July 12.—(Special.)—Polk County farmers are harvesting a bumper crop. Prices for 1906 hay range from \$4 to \$5 per ton, and contracts are being made for baled hay at \$6 to \$7 per ton. The hay crop is light this year, farmers generally are putting up a large amount of hay.

SHORT ACCOUNTS

Umatilla Sheriff Startled by Report of Experts.

TOTAL SAID TO BE \$20,000

Of the Amount, \$12,000 Is at Once Made Good by Popular Democrat, Re-Elected to Office Last Year.

PENDLETON, Or., July 12.—(Special.)—Pendleton is wild tonight over the sensational report that the office of Sheriff T. B. Taylor almost totals \$20,000 and \$21,000. News of the alleged shortage was given out by members of the County Court who have been in session this week for the purpose of examining the reports of Clark and Buchanan, experts employed by the county to inspect the county records. The experts have not as yet completed inspection of the Sheriff's books and while the exact shortage cannot be ascertained a member of the County Court states the rumor is essentially correct.

Sheriff Taylor this afternoon made good \$12,000 of the amount as soon as he heard of the alleged shortage from the District Attorney. The Sheriff has not had charge of the books since his chief deputy having had full access to the money received in the office during his term of office. Mr. Taylor was unwilling to make a statement regarding the deficit tonight.

District Attorney G. W. Phelps and the members of the County Court will complete the inspection of the office tomorrow, when more light will be thrown upon the affair. It is certain that part of the reported shortage dates as far back as 1897, when Representative William Blakely was Sheriff of Umatilla County. Taylor was re-elected Sheriff last year by a majority of 1700 over the Republican candidate, C. A. Barrett, of Athena.

SLAIN BY JAPANESE LOVER

SPOKANE, Wash., July 12.—Mamie Takaki, a Japanese girl 14 years old, was murdered in her parents' home at Latah about 3 o'clock this morning by George Hama, a Japanese, who boarded with the family. Going into the girl's room, Hama shot her four times, then went to his own room, shot himself twice and cut his throat. Both were dead in an hour.

It is understood Hama wanted to marry the girl, who had been promised to him by her grandfather, but the girl refused to marry him, and her parents also opposed the match. In a jealous rage he murdered her.

HORSE KILLS JACKRABBIT CHARLEY

RED LODGE, Mont., July 12.—A well-known character of Carbon County, Charles Benning, better known as "Jackrabbit Charley," has been killed by a horse falling on him while riding across country in the Upper Clark's Fork valley.

Benning was christened Jackrabbit Charley after being snowed out in a cabin in the Upper Clark's Fork valley one winter. He was a well-known character for months, until able to get relief. Benning was a well-known newspaper man.

Governor Saries Comes Today.

SEATTLE, Wash., July 12.—(Special.)—Governor E. V. Saries and the North Dakota party which will visit Portland next week to be present on Dakota day at the Exposition will reach Seattle tomorrow. With his party he is officially to welcome the Hill liner Dakota. Miss Fleming, who is expected to be the Dakota, is in the party. Governor Saries will leave here Sunday afternoon for Portland and his party will remain in that city until midnight, July 13.

Apsley's Mania Is Suicidal.

ASTORIA, Or., July 12.—(Special.)—John T. Apsley, a fireman at the Hume mill, was today committed to the asylum. Apsley is a native of Illinois, 30 years of age, and has been afflicted with melancholia for several months. A short time ago he attempted to cut his throat.

United Copper Declares Dividend.

BUTTE, Mont., July 12.—Mayor MacGinnis has received a telegram from A. P. Helzer, vice-president of the United Copper Company, declaring a stock dividend. The dividend is on common stock, and is one-half of 1 per cent, with an extra half of 1 per cent, payable July 31, to stockholders of record.

DRIVING FACTS

About Food.

Improper food will drive unpleasant facts home sooner or later, but even then the change to proper food gives Nature a chance to rebuild the wasted cells and restore the bounding health and energy that make the real joy of living. Simple food, if proper food, will do this.

A number of years ago I had grip for eight weeks so badly my doctor gave me up to die when inflammatory rheumatism set in. I got over it, but was helpless for work in both body and mind and it seemed I couldn't live. I gained slowly in physical strength, but my mind grew weak and I had a terrible pain in the back of my head, with constant twitching of the eyes. The doctor told me my brain was affected, which I have no doubt was the case.

"I couldn't sleep, some nights only got three or four hours' sleep and all the time felt so tired and worn out, my mind would be so confused sometimes I thought I would go insane. Two doctors said my condition showed the first symptoms of insanity, and as medicine did not help me I concluded to quit doctoring and try change of diet instead, so that is how I began taking Grape-Nuts."

"From the very first I began to gain in flesh on the Grape-Nuts. I was so surprised, but the most wonderful gain was in my brain, which became stronger and the pain so much less, and in a short time instead of the terrible distress in my head and the awful insomnia my brain is now clear and strong, sleep sound and wake up refreshed and vigorous. I want every brain worker who is run down in brain or body to give Grape-Nuts a trial."

Name given by Postum Co., Battle Creek, Mich.

The brain and nerve centers in this case had been depleted by disease and the soft gray filling partly used up. This cannot be replaced by medicine. That is absolutely impossible. It can only be replaced by food containing Phosphate of Potash and Albumen. That is the only way on earth. But if the body will not properly digest the food containing these elements, the patient remains ill and probably gets worse.

The mission of Grape-Nuts is plain. It contains the elements Nature demands for rebuilding and restoring the delicate nerve centers and brain centers and in a perfect condition so that the weakest will make use of and digest the food. It is a positive and dependable agent of surprising character.

Look for the little book "The Road to Wellville" in each package.

RHEUMATISM ROBS LIFE OF PLEASURE

Rheumatism does more than any other disease to rob life of pleasure and comfort. It is so painful and far-reaching in its effects on the system that those afflicted with it find themselves utterly unable to enjoy bodily comfort or any of the pleasures of life. Some are bound hand and foot and suffer constantly with excruciating pains, swollen, stiff joints and muscles, and often distorted, crooked limbs, while others have intervals of freedom, during which they live in constant fear and dread of the next attack, when, at the least exposure to damp weather, or slight irregularity of any kind, the disease will return.

The cause of Rheumatism is a sour, acid condition of the blood, produced by food lying undigested in the stomach, poor bowel action, weak kidneys and a general sluggish condition of the system. External applications, such as liniments, oils, plasters, etc., do not reach the cause and can only give temporary relief. The blood must be cleansed and purified before a cure can be had. S. S. S. attacks the disease in the right way—it neutralizes the poison and filters out every particle of it from the blood, stimulates the sluggish organs and clears the system of all foreign matter. It cures the disease permanently and safely because it contains no harmful minerals to derange the stomach and digestion. Book on Rheumatism and any advice you wish, without charge.
