TRIALS ARE FARCE

Magistrates Very Lenient With Odessa Rioters.

COURTS - MARTIAL SEVERE

They Send Prisoners to Gallows Great Quantity of Dynamite Is Found in Czar's Palace. Mutiny Growing.

ODESSA, July 14.-(Special.)-The trial before the local magistrates of the persons arrested for participating in the recent troubles here is rapidly degenerat-ing into a farce. Of 102 tried yesterday, acquittals were ordered in 74 cases for "lack of evidence," the magistrates de-claring that the evidence of the police was not sufficient to convict. Twentyeight others were sentenced to serve seven weeks in prison, this to include the fortnight already spent in the prison here.

This action has greatly displeased the military authorities, who had counted on severe sentences in every case. However, the magistrates are close to the people and were evidently afraid of popular vengeance. The populace is greatly pleased with the action of the magistrates and demonstrations are being arranged.

Far different was the fate of those ar-rested after the city had been declared in a state of slege. Twenty-seven were hanged in the various prisons yesterday, having been found guilty by court-martial of rioting, and 18 others will be publicly cuted today

take pains to say that no safeguards will avail to avert his impending doom. At

previous to the assassination of the Prefect, Shuvaloff set all the police of Mos-cow at work to effect his recapture. The prisoner, in the meantime, shaved off his beard, and while the police were went to the Prefect's office and com-mitted the crime for which he will now be tried. The bullets of the revolver used by the

prisoner were filled with polson. The crowd in the anteroom of the Prefecture set upon the assassin, who was dragged into the street and terribly beaten.

Lawson Says He Aims at Financial Revolution.

GIVE PEOPLE THEIR OWN

Will Not Announce Remedy Till People Have Unloaded Stocks and Bonds on System-To Sue

ST. PAUL, July 12 .- "I have no political ambitions; I could not accept political office, were it tendered me. I have work cut out, which, even if I devote 18 hours per day to it, will last me until I am over 99 year old-too old to think of political honors." So said Thomas W. Lawson, in an ad-

dress to a large audience at the People's Church in this city tonight. Mr. Lawson did not deliver a set

speech; he talked informally in a conversational tone, devoting his time to answering a series of questions propounded to him by a local newspaper. He declared that, should his so-called remely be put into effect, there would be no political revolution; the various parties would go on battling for their principles as heretofore. But a great financial revolution there would be; there would be no more stock inflation; the money stolen from the people by the "system" would be returned to the people and, because railroads and in-dustrial corporations would have only to earn a fair percentage on the true value of meir investments, the cost of living would be reduced and wagecarners would be able to enjoy greater luxuries and to lay by a greater portion of their earnings.

Not Ready to Announce Remedy.

As to when he would propound this remedy, he said that it would be foolish to make it known until the peo-ple were ready for it; otherwise the "system" would find means to render it noneffective. The people must first get rid of their stocks and bonds, sell them to the "system" at the present inflated prices, and then, when the "system" was forced to let them go, the people should buy them back cheaply and forever keep the control in their own hands. When this had been ac-complished, his remedy, which he declared to be a simple, business propo-sition, could be put into force, and there would never again be inflation of capital stocks.

Wall Street a Trick Machine.

As to whether or not his plan was a dangerous one, he replied that it was: that it was dangerous "for the other fellow." A panic might ensue. In fact he hoped and believed a panic would ensue, but not until the people had sold their stocks to the "system."

"My friends," said Mr. Lawson, "Wall street is nothing but a machine-a trick machine. Every year financiers run the American people through that machine from one end to the other and, as they pass through, the money in their pockets fails into the "sys-tem's" bucket. What I propose to you is simply to reverse the operation; run the "system" through the other way, and in that manner separate them from their ill-gotten gains and return their stolen millions to their rightful owners-the American people.

the same time they tell him he need not afraid to go abroad in the streets. They add: "Your sentence will be executed in your

wn room. You will die in your bed." The Terrorists seem to take pride in issuing a challenge involving a demon-stration of their power and resources to penetrate the armor of the police.

Moreover, General Trepoff knows enoungh of the desperation of the or-ganization to firmly believe that the Ter. rorists are able to execute their threat. He makes no concealment of the fact that he expects to be killed, but his nerve is unshaken. "I will at least die at the post of duty," he said. Privately, General Trepoff takes a

gloomy view of the future of the autoc-racy, in which he believes. The General is confident that, if given untrammeled is confident that, if given untrammeled power, he could restore the old status quo in a year, but the present vacillating policy, he thinks, will end only in ruin. A representative assembly, no matter what its initial character may be, he is convinced will be soon transformed into a constituent assembly, which will give the death blow to absolutism.
