# FOR NEW BOX ORDER

It May Be Passed at Session of Council.

#### PROVISIONS OF ORDINANCE

Will Be More Moderate Than the One Now in Existence and Will Come Before the Council Today,

Some important matters are scheduled to come before the Council meeting this afternoon, but the one overshadowing all others is the question relating to the repeal of the box ordinance now in existence. That this measure will be repealed, and one of a middle-of-the-road character adopted in its stead seems probable.

The new ordinance will be introduced by Councilman Gray, unless present plans miscarry, and it is believed that it will Peceive the support of a majority of the members. In effect it prohibits the retail sale of liquor in any saloon, bar-room or restaurant of this city in any sideroom. restaurant of this city in any sideroom, backroom, upper-room or other apartment in the same or adjoining building which shall have a floor space of less than 160 square feet, and shall not maintain therein or connect therewith any alcove, booth or box which is not so constructed as to be open upon the side facing any hall, hallway, passageway or room. Provision is made against the maintenance of side entrances of any sort for any particular class of customers, but there is nothing in the new law to prohibit the serving of liquor to guests of hotels having a valid license, nor shall it apply to restaurants in which spiritous, mait, or fermented liquors or wines are not sold, and in which such box, booth, stall or private room is so conbooth, stall or private room is so con structed as to be open on the side facing any hall, hallway, passageway, or room, and the sides thereof do not exceed seven feet in height.

Mayor Lane stated last night that the proposed ordinance had been submitted to him for inspection, but that he had found no time to give it any more than casual consideration. When asked wheth-er or not he thought it was a compromise between the liquor interests and the Municipal Association, he replied that he was under the impression it emanated from the liquor interests. The Mayor would not say whether he would sign it or not, pleading an insufficiency of light upon the subject to make him competent to pass judgment upon any of its features.

A president of the Council may be elected this afternoon.
