### CALLED UPON TO RESIGN

and Accuses British Premier of Breaking Pledge to Resign, but He May Call for Another Vote on Question.

LONDON, July 20.-The government was defeated in the House of Commons today by a majority of three on the motion to reduce the membership from Ireland

On the announcement of the vote a scene of the greatest excitement produced by the Liberals and the Irish' members yelling "resign."

The incident is considered of hardly sufficient importance to justify the government in resigning, but, when asked by Sir Henry Campbell-Bannerman, the jeader of the opposition, what course he intended to pursue, Premier Balfour declined to make a statement,

John Redmond, leader of the Irish party, said the Premier had repeatedly declared that he would resign if defeated and, if he disregarded this vote feated and, if he disregarded this vote of want of confidence, he would be acting against all precedents. Was he going to swallow this humiliation as he swallowed every other humiliation during the last few years? the Premier was asked by Mr. Redmond.

Mr. Balfour replied very coolly, said that Mr. Redmond had greatly agitated himself over a matter which could be settled in due time. He was, he said, not conscious of any humiliation. There

The Premier said he would consult his colleagues as to whether the ques-tion would be again submitted to a vote, and would make a statement Monday. After some wrangling over the question whether to adjourn until Monday, it was decided to adjourn until

China Will Insist on Keeping Manchuria in Empire.

WASHINGTON, July 20 - China's official diffication to the powers that she will not recognize any arrangement regarding Manchurla concerning which she has ing Manchura concerning which she has not been consulted beforehand, has reached Washington, and will be forth-with forwarded to the President at Oyster Bay. Before addressing this note to the neutral powers, China sent it to St. Petersburg and Tokio. The Chinese communication is briefly worded and is so expressed that it calls for no reply.

The arrival of the text of the note disposes of the unofficial report reaching Washington recently from Europe, which found credence in official circles, that China had requested that she be allowed to participate in the conference. China has not yet taken this step for several reasons. The Chinese government is anxious that, so far as possible, both beiligerents be silowed to negotiate directly, and is adverse to being forced into the negotiations.

into the negotiations. China's motive in addressing to Russia and Japan such a notification was to re-mind them that she had never acquiesced in the allenation of the province of Man-churia from Chinese sovereignty and she expected, as the first result of the war, the full restoration to Chinese control of that province. That this position might receive the continued support of the neu-tral powers, copies of the note were for-warded to the other capitals for presentation by the respective Chipese represent-atives.

Before sending this notification, the

Chinese government addressed to its vice-roys, Governors and diplomatic repre-sentatives abroad a long list of questions about Manchuria, asking their opinions regarding the steps the government should take to insure its restoration to China. take to insure its restoration to China. On one point these replies were singularly in accord—that this restoration should be made unconditionally. It was also suggested that China immediately declare open to the world's trade several additional ports in Manchuris for a limited number of years, and, provided in the meantime the Chinese legal code has been revised and regular Chinese courts had been firmly established, that the powers be asked to waite extra-territorial rights. asked to waive extra-territorial rights in Manchuria in favor of the Chinese gov-erament. If this were done, it was recom-mended that the remainder of Manchuria be declared open to foreign commerce. This is only one of many suggestions af-

feeting trade in Manchuria now under consideration in Pekin. Advices reaching Washington indicate that the insistence upon the unconditionthat the !nsistence upon the uncondition-al restoration of Manchuria without conditions finds favor from the Chinese capital, and this opens up an important subject in connection with the Wash-ington conference. Having been the chief zone of operations. Manchuria will naturally figure prominently in the conference China's insistence that she be consulted about any arrangements concernig Man-churia will, it is believed, necessitate an indirect participation in the negotiations

It is learned on the highest authority that the Chinese government is inclined to trust Japan to execute ber many pledges regarding Manchuria, and unof-ncially has already given assurances to ncially has already given assurances to the Japanese of her confidence in their sincerity in this matter. On the other hand, Russia, it is said, will come to the conference ready to forfeit her sphere of influence in Manchuria only on condition that China give to Japan no privileges that are not accorded to all the powers. Therein lies China's best assurance that little headway can be made regarding Manchuria without communication with Pekin.

war began.

Thus far no instructions have reached the Chinese legation, which, in the absence of the Minister, is in charge of Mr. Yung Kwal, regarding the sending of a representative to Portsmouth. The Minister is spending the Summer at Amherst, Mass, and expects to remain there until September. Like the other diplomats in Washington, and in accordance with the expressed wish of the President, the Chinese Minister, Sir Chentung Liang Cheng, it is said, will not go to Portsmouth at all unless ordered there by his government.

China's insistence that Manchuria be returned to her sovereignty has the full sympathy of the Washington government, though the latter does not share in any anxiety on this point. In the preliminary negotiations, it was more than once made plain to the beiligerents that whatever the result of their negotiations it was expected that China would be left intact.
