Text of Note on Forthcoming Peace Conference.

# CONSENT MUST BE ASKED

President and Secretary of State Consider Step, Which Involves Whole Future of Manchuria and Open Door.

OYSTER BAY, N. Y., July 21.—Presi-dent Roosevelt and Elihu Root, who as-sumed formally last Wednesday his new duties as Secretary of State, were in conference tonight at Sagamore Hill. Among the many questions considered by them, none is fraught with deeper significance and importance to the United States than is that relating to an identical note which the Foreign Office of China within a day or two has sent to the powers neutral in the Far Bastern contest between Russia and Japan. The text of the note, made public this evening, is as follows: "Having viewed with profound regret

the unfortunate interruption of peaceful relations between Japan and Russia, the imperial government now learns with sin-cere gratification that negotiations are about to commence for the restoration of peace and amity. But in the present conpeace and amity. But in the present con-flict Chinese territory has been made the theater of military operations. Therefore it is hereby expressly declared that no provision affecting China, without the approval of China being previously ob-tained, which the treaty of peace may contain, will be recognized as valid. The diplomatic representatives of China in Janan and Russia have been instructed. Japan and Russia have been instructed

Japan and Russia have been instructed by telegraph to communicate this declara-tion to the governments of Japan and Russia, respectively."

On its face the note appears to be a simple declaration that no determination of the peace conference affecting Chinese territory will be recognized as valid "without the approval of China previous-ly obtained." It really means far more than that as it is construed here.

without the approval of China previously obtained." It really means far more than that, as it is construed here.

The United States, in common with other nations, is interested particularly is the "open door" to Manchuris, and behind China's simple declaration lies the whole question of the commerce and the ommercial relations of a great empire What action, if any, the United States lovernment may take as to the note is beyond accurate conjecture at this time.

KOMURA'S STAY IN NEW YORK

## Apartments Engaged, but Few Invitations Will Be Accepted.

NEW YORK, July 21.-Arrangements for the accommodation of the Russian and Japanese envoys during their stay in New York City have been completed. Twenty of the choicest rooms in the Fifth-Avenue Hotel have been engaged for Bayer Kommon and his control of for Baron Komura and his suite. The Russian envoys will be cared for at an-other hostelry near by on the avenue. No definite plans for any form of enter-tainment in honor of the Japanese envoy, who has just started East from Seattle will be made until the party arrives and Baron Komura is consuited. With the ex-ception of some small entertainments planned by a few of Baron Komura's intimate friends, among them Baron Kane-ko, who was a classmate of his at Har-vard, it is not thought likely that the party will accept any social invitations until after the conclusion of the peace conference at Portsmouth.

This was quickly accomplished the House rose and the excited members swarmed into the lobbles eagerly discussing the probable decision of the cabinet, which had been summoned to meet this afternoon.

The view that the government will resign, however, is not held in circles generally well informed of the government's intention, and it is resterated that the resignation of the Balfour Ministry is not likely in view of the almost practical certainty that the government will be rehabilitated by its normal majority on the trial of strength, July & to which the opposition formally challenged the ministry.

The Unionist members of the House of Commons are busily signing a memorial to the premier against either the resignation of the government or the dissolution of Parliament. not express complete confidence in the caimness of the discussions and the ultimate satisfactory outcome of the Moroccan conference. Unofficial public men who are free to talk say frankly that they expect the stormy period in the affairs will begin when the conference convenes at Tangler or San Sebastian. One authority on the subject, who has just left Morocco to report to the foreign office, says:

"There is every reason to believe that the Kaiser has still got a strong card up his sleeve through the influence he is able under present circumstances to bring to bear upon the Sultan not to accept any programme for the conference which Berlin disapproves. Thus the possibilities of German guile are regarded as unexhausted, since before the conference meets the Sultan must submit the programme to the interested powers. A distinctly less optimistic tone prevails among governmental circles, but the general public is not yet aware of the new complications which are more than threatening."

# SAME EFFECT AS BEEF TRUST German Embargo on Cattle Imports

BERLIN, July 21.—The price of meat has risen in Germany from 20 to 35 percent during the last six months, so that now prices are higher by 30 to 25 percent during the last six months, so that now prices are higher by 30 to 25 percent than in the neighboring Continental states. The prices outside of Germany usually are 10 to 15 percent lower. Popular appeals directed by the organized meat dealers are being made to the government, both here and in the provinces, to raise the prohibition against the importation of live cattle. The Butchers' Association of Berlin is planning a number of agitation assemblages. The prices of meat supplied by the retailers today, allowing for differences in weights and money, were: Fillet of beef, 42 cents perpound; boiling beef, 27 cents; pork, 31½ cents; veal, 37½ cents.

The agitation for cheaper meat by abolishing the exclusion laws recurs at intervals. These laws are based, as in the case of American canned meats, on sanitary grounds. But the contention is constantly advanced that the sanitary regulations are made gunnecessarily severe in the interest of the German farmer, in order to prohibit cattle and meat imports. Move to Amend Irish Land Act.

LONDON. July h.—George Wyndham's Irish land act of 1808 provided for an issue of stock not to exceed \$15,000,000 yearly for the purchase of Irish estates, but already agreements have been concluded for the sale of estates to tenants involving \$40,000,000. Walter H. Long, who succeeded Mr. Wyndham as Chief Secretary for Ireland, has proposed in the House of Commons the introduction of a single clause amending the land act under which the yendor landlords would be offered two-thirds of the purchase price in Irish land stock instead of cash, in order to facilitate the transactions. John Redmond, the Irish leader, denounced the Wyndham act as a complete failure and declined to agree to Secretary Long's proposal, on the ground that the Irish members had not been consulted, and also because he considered it impossible to discuss adequately the measure late in the session.

Their American fore-men called for the protection of the Panama police, who were attacked by the laborers and badiy heaten. Armed police subsequently re-established order and punished the laborers, it is said, more severely than was necessary.
