

WAR OF THE MAKE ON MOSQUITOES

New Orleans Is Determined to Stamp Out All Trace of Yellow Fever.

QUARANTINE ESTABLISHED

Vessels From Central American Ports Will Be Detained Six Days on Arrival—Thirty Suspicious Cases Reported.

NEW ORLEANS, La., July 23.—(Special.)—The old-time strict quarantine established many years ago by Dr. Holt went into effect this morning, and will be enforced with absolute impartiality and with the utmost stringency against all Central American ports which are considered infected.

Port Limon, Belize, Livingston, Porto Barrios, Porto Cortes and Bocas Del Toro. This included all ports except Bluefields, Nicaragua, where there has not been a case of fever for years.

All Vessels to Be Detained. These regulations mean that every vessel from Central American ports will be detained at quarantine six days, and thus prevent absolutely any further cases of fever being brought into the city.

The situation in New Orleans is now thoroughly in hand, and it is expected that the quarantine will be lifted within a few weeks. Governor Blanchard, Mayor Bohman, the United States Marine Hospital surgeons from Coast ports and the city and state health authorities met today and determined to take the most stringent measures to stamp out yellow fever and any disease which resembles it in New Orleans.

All unite in the belief that the mosquito theory in the spread of the disease is the only true one, and the fight will be carried along on that line, which was that followed in Havana. No new cases of yellow fever or any suspicious cases developed today, neither were there any suspicious deaths. The disease, which was met with scientific and sanitary means from the beginning, seems to have run its course, and the physicians are proud of their work in limiting the disease to a restricted district.

Refused Passage to Their Homes. As a result of the Mississippi quarantine, an amusing situation has developed. Bay St. Louis, Gulf Port, Pass Christian and Biloxi are the homes of hundreds of summer visitors from New Orleans, all of whom came into the city yesterday, confident of being allowed to return.

Governor Vandermant ordered the Louisville & Nashville not to sell tickets to these points, and the order was obeyed. As a result, there were angry men and weeping women at the ticket offices and depots, but all of them have been compelled to remain away from their summer homes for a day or two.

The statement of the health authorities is unchanged tonight as in the situation. They still allege that there are but 39 or 40 suspicious cases, all confined to two square blocks in the old part of the city, and six suspicious deaths, several of which have been determined to be yellow fever. This is an accurate statement of conditions.

Government Sends Specialists.

WASHINGTON, July 23.—The officials of the Public Health and Marine Hospital are working in harmony with those in Louisiana in the efforts to prevent any spread of the yellow fever from which an Italian died yesterday in New Orleans. There are 24 men, Acting Surgeon-General, in the absence of Dr. Wyman, who is now in Honolulu, has dispatched Surgeon G. M. Guiteras from Cairo, Ill., T. H. Richardson from Savannah, and J. H. White from Mobile, to proceed to New Orleans and assist the Marine Hospital surgeons stationed there.

NEWS OF THE ROOSEVELT

Peary, With Wife and Daughter, Is at North Sydney.

NORTH SYDNEY, N. S. July 23.—The Peary Arctic expedition steamer Roosevelt, which left for the Arctic region Wednesday, reached here today. Commander Peary, his wife and daughter on board. After coaling the Roosevelt will leave for the North tomorrow evening.

THE DAY'S DEATH RECORD

Jean Jacques Henner.

PARIS, July 23.—Jean Jacques Henner, the distinguished painter, who had been seriously ill for some time, died here today. He was born in Alsace in 1829, and was educated at the Ecole des Beaux Arts. He held membership in the Institute of France, and was a grand officer of the Legion of Honor.

Women Students in Quarantine.

HAVANA, July 23.—On account of the existence of yellow fever at New Orleans, quarantine has been declared against that port. The Southern Pacific Line steamer, Excelsior, which is due here Monday, has 89 young women students from Texas College on board. The officials say that they will be required to remain on the vessel or to undergo the usual five days' detention in the quarantine station.

Do Not Believe in Quarantine.

MEXICO CITY, July 23.—The health authorities here say that there will be no quarantine against New Orleans, should it turn out that yellow fever exists in that city. The theory on which the Mexican sanitary authorities deal with yellow fever is that it is only communicated by a species of mosquito; thus the unreasonableness of quarantine precautions.

Detention Camps Established.

NEW ORLEANS, July 23.—The yellow fever quarantine situation affecting New Orleans is not serious, in that it applies only to persons and baggage, and this will be relieved by the immediate establishment of detention camps on the lines of all the railroads where travelers desiring to go up to the quarantine territory may remain five days and secure a certificate of non-infection from the Marine Hospital service.

WANDERS AWAY WHILE THE MOTHER IS SLEEPING.

CREW OF YACHT IS LOST

Owner and Guest Escape in Delaware Bay.

LEWES, Del., July 23.—Four men are believed to have been drowned last evening by the sinking of the yacht Marketeer, near the Brandywine Lighthouse, in Delaware Bay.

The Marketeer, accompanied by the yachts Zealand and Circe, left the Corinthian Yacht Club's anchorage, Philadelphia, a few days ago for a cruise. Last yesterday afternoon the Marketeer grounded on Brandywine shoals during a stiff east storm. The Circe was signaled and responded taking off Dr. Hare and Mr. Landreth.

The crew of four men was left aboard to care for the vessel, with the understanding that a tug would at once be sent to pull the yacht off the shoals. The tug Juno was communicated with at the Delaware breakwater, and when she arrived at the shoals found that the yacht had sunk in the ship channel. There was no sign of the crew anywhere in the bay, which, at that part, is nearly 20 miles wide.

Dr. Hare today engaged several launches from here to patrol the Delaware Bay and shore in the hope of finding the crew alive in the yacht's launch or on shore. This evening Captain Fred Vogel, who had been searching with the launch Hilda, in the vicinity of the wreck, returned with the Marketeer's launch. He reported that he found the launch, bottom up, near the Brandywine lighthouse.

The keeper of the lighthouse informed him that the last he saw of the crew it was shortly before dark last night when they were in the launch, trying to make the Delaware shore. It is believed the launch was upset in the rough sea that was running and that the four men were drowned.

Dr. Hare and Mr. Landreth left for Philadelphia by way of Baltimore.

RUN INTO POSSIET BAY.

Japanese Squadron Makes Very Daring Reconnaissance.

LONDON, July 24.—The correspondent of the Daily Telegraph at Tokio forwards a dispatch from the Japanese correspondent of that paper at Moji, Japan, telling of a daring reconnaissance of a Japanese torpedo-boat force. On July 14, three days later the Japanese vessels occupied Russupian, where there is a vast and splendid harbor.

Some of the vessels, the correspondent says, ran right into Possiet Bay, which is of great strategic value.

Land While Mist Was Thick.

ST. PETERSBURG, July 24.—The correspondent of the Novoe Vremya, with the Eleventh Army Corps, says that Japanese torpedo-boats during a thick mist, and rain approached several bays near Vladivostok, and that they sent a landing party ashore in the Gulf of Gashkevitch, near Possiet Bay.

MILITARY CONVICTS ESCAPE

Saw Way Through Iron Bars at Fort Wright.

SPOKANE, July 23.—Five military convicts escaped from the guardhouse at Fort Wright Saturday night. All of them were men sent into the fort to serve sentences for desertion from other army posts. The names of the men are: Frank Burton, Joseph Carroll, James Collingwood, Herman W. Lamp and Harry Lindquist. They were supposed to have escaped the night in Spokane, but no trace of them was found today.

The outbreak was one of the most daring of the kind at Fort Wright. With the whole party out of doors enjoying the cool evening air, and from six to ten guards in an adjoining room, the five desperate men sawed through two iron bars three-quarters of an inch thick, and escaped through a window.

HORSES TO GO TO JAPAN

Government Buys Thoroughbreds From East Aurora Farm.

BUFFALO, July 23.—Representatives of the Japanese government have just bought 1100 head of horses at a stock farm at East Aurora, Pa. There are 24 horses in the deal, and all will be shipped to Japan for breeding. Seventeen of them are thoroughbreds, and some are stake-winners. The average price is about \$1000 for each horse.
