Englishmen are warned that the Baltle is practically unknown to British seamen, who must be prepared for all consequences attendant upon maneuvers in strange waters filled with foreign vessels of commerce and defensive naval mechan-

isms, such as mines.

Their attention is called to the unknown danger which resulted in the explosion of the Maine in the harbor of Havana and also to the Dogger-Bank incident last October, which brought England and Russia to the verge of war.

It is plainly intimated also that, if British sallors mingle with German towns people on the Baltic shores, angry en rounters are likely. However, it is assert-ed that German naval and police authorfties will take the utmost precautions to

avert unpleasant incidents.

But the inference is undisguised that danger lurks for the British armada during its unwelcome visit to German waters. In some quarters these warnings are interpreted as sarcasm, but many persons regard them as a threat intended to induce the British admiralty to cancel the Channel squadron's cruise in the Baltic.

Kaiser Kept Party in Dark About Meeting With Czar.

ST. PETERSBURG, Aug. 1 -- From a member of the imperial entourage the Associated Press learns an interesting fact, showing how quietly preparations were made for the meeting between Emperor Nicholas and Emperor William. Though the German Emperor had been exchanging telegrams with Emperor Nicholas for three days before the meeting, the party on the imperial yacht Hohen-sollern was unenlightened as to their nature and retired on Saturday evening in ignorance of the forthcoming event. During the night Emperor William per-sonally ordered the course of the yacht to be changed to the eastward.

When the surprised guests noted the new direction of the Hohenzollern in the morning, Emperor William jovially broke the news that he would dine with the Russian Emperor that evening Dinner was prepared on the Polar Star, the Rus.

"Thou," Emperor William replied laughingly and the incident gave the keyr to the informality which marked meeting of the sovereigns and their suffes
