Department Store Collapses and Buries Hundreds of Employes.

### AT LEAST TWENTY DEAD

Workmen Jar Foundation and Bring Whole Structure Down With Crash-Fifty Persons Still Buried in the Ruins.

ALBANY, N. Y., Aug. 8.-The middle of the big department store of John Myers Company in North Pearl street collapsed early today, carrying down with it over 100 persons. Caught in a chaos of brick, plaster and wooden and children met death. Twelve hours frantic work on the part of an army of them dead and many of the rest badly injured. Three bodies were in sight at a throne of the empirelate hour tonight, but many hours work will be required to get them out. Anything like a complete list of the killed and injured will be unobtainable untithe workers have made their way to the very bottom of the mass of wreckage. With few exceptions those caught in the ruins were employes, a large majority

minutes before 9, showing when the crash came. The best account of the event that probably caused the ruin is event that probably caused the ruin is come at once and surrender. The num-given by the head of the crockery, giass ber of prisoners is increasing. and drug department, which occupies the

#### Workmen Jar Pillar Down.

"The workmen were sawing at a wooden floor beam," said he, "which runs under the northern end of the pillars in the middle of the store. Excavation for the cellar was going on about the base Taylor Says Amount of Work Does of this pillar, and I believe that the jarring of the beam beneath it displaced the foundation of the pillar."

The pillars which gave way supported the ends of two giant girders and, when It fell, the main support of the central part of the building was gone. With a noise that could be heard blocks away and which shock the buildings adjoining, nearly half the great structure from cellar to roof and extending from one sidewalk to the other came grinding

### Rescuers Work Till Exhausted.

When the fire department arrived it had plenty to do in rescuing those who were pinned under the top wreckage. In a short time the city's entire hospital Congress. and ambulance force was on the aided by half a hundred doctors from all parts of the city. The volunteer rescuers and firemen continued the work until exhausted, when their places were taken by a wrecking force numbering 200 men from the New York Central and Delaware & Hudson railroads. These delved in the ruins all night, but the work of rescue proceeded slowly. When darkness came, it was estimated that nearly 50 persons remained in the ruins and that not more than half of these could survive the weight pressing upon them. Fortunately the wreckage did not take fire.

### One Hundred Still Missing.

Some 100 persons are still unaccounted for, for 50 of these are cashboys, of whom the firm had no record, and the loss of the payroll makes it difficult to get anything like a complete list of many others. In all, the company has 400 employes, but 50 of these are away on vacations.

The building which collapsed stands in the heart of the shopping district at Nos. 39 and 41 North Pearl street. It is owned partly by the company and partly by the estate of the late David Orr. The loss to the company is estimated at between \$200,000 and \$300,000. The building was very old, but until now was considered perfectly safe.

The dead thus far removed from the ruins are: Michael Fitzgerald, Frank Leonard, Miss Anna E. Whitbeck, Miss Minnie Ballard, Miss Alice L. Sharp, un-

identified woman.

The fatally injured are: Miss Helen Donovan and Miss Mary McEvery The list of injured as compiled tonight, comprises 36 employes of the company, three seriously, and five shoppera-

Although she has prepared an irreducible minimum, Japan will not present this in such a form. There will be points in the Japanese demands which her plenipotentiaries can modify. In short, Baron Komura and Mr. Takuhira will present Japan's programme in as diplomatic s form as possible. The terms will be called bases for negotiations rather than demands and, while it has been made plain already that Japan will not play diplomacy at the conference, her plenipotentiaries propose to conduct the negotiations as iomatically as possible. On the other hand the Russians do not besitate to relterate that they will have no trouble in reaching an agreement provided Japan's
