Nature, which has contributed so much to the beauties of the Lewis and Clark Exposition, occupied an envious First Baptist Church, of this city, will position in the hearts of the many visitors to the Fair yesterday. Nature has always taken a pardonable pride in the Exposition, as it is nestled in one of her greatest masterpleces of scenic landscapes, but yesterday she was doubly proud as one of her most beautiful creations, the Oregon Grape,

received especial recognition.

The exercises of the day were held the Oregon building at I o'clock in the afternoon. Mrs. Sarah A. Evans, president of the State Federation of the exercises with a few introductory remarks, relative to the beauty of the Oregon grape, greatly pleasing the large audience, which completely filled the building.

Myers' Tribute to Floral Emblem. President Jefferson Myers, of the Or-

egon State Commission, delivered one of his characteristic addresses of welcome, which are invariably to the point of bubbling over with his wholesome expressions of hospitality and cordial ity. President Myers, in the course of his remarks, paid many high compli-ments to the ladies of the State Federation of Woman's Clubs, under whose auspices the exercises were conducted.
"It is observed that a young man. in his anxiety to obtain the heart and hand of a beautiful young lady, will bestow upon her the most exquisite bouquets of flowers that can be se-cured. Mrs. Abigall Scott Duniway was present at the exercises, and upon the earnest solicitation of her many friends, was per-suaded to say a few words to the audience. She was given a hearty ovation. Mrs. Duniway delivered a short but ex-tremely interesting address. Mrs. Duniway is one of the brightest talkers in the United States, and yesterday she was

in her happiest mood, In speaking of the State Federation of Woman's Clubs, Mrs. Duniway said that the men of Oregon, as a whole, did not object to their wives belonging to clubs.
"The men are not afraid the women will neglect their domestic affairs by attending the club meetings," said she. "The prettiest children, happiest households, most contented men, and the most intelligent and healthful women, you find when you go into the clubs," continued the speaker. "Next year the men of Oregon will mark an epoch in the history of our sex, when they will join hands with their brethren of Wyoming. Utah, Idaho and Colorado, in granting us the right to vote," she concluded in speaking

of women's suffrage. National and State Flowers.

Another interesting speaker at the programme was Madame Anna von Rydingsvard, formerly of Boston, who took as her subject, "National and State Flowers." She spoke of the sympathy that era." She spoke of the sympathy that exists between human beings and plant life, tracing it through the various superstitions of different nations regarding the characteristics of trees and plants. She spoke in some detail of the state flowers of America. The other numbers on the programme consisted of vocal solos by Miss Mary Alverts Morse, Miss Mabel Pearl Baker, and Mrs. W. B. Hamilton, all of which were excellent and well received by those present.

Following the exercises, punch was served on the portice of the Oregon building. The decoration committee consisted

Multnomah Prohibitionists at Page Reception So Announce.

At the public reception given Multno mah County Prohibition Alliance last night at the home of Mr. and Mrs. B. Lee Paget, North Albina, I. H. Amos, state president, announced in his ad-dress that September 19, 20, 21 and 23 at the Exposition grounds will be devoted to a temperance congress. In this congress the Inter-Collegiate Association of the Pacific Coast, the W. C. T. U., the Anti-Saloon League, Epworth League and all other temperance organizations would take part. It was proposed on the W. C. T. U. day to get, if possible, 2000 children in line of parade to the grounds. Exercises on each day voted to the temperance congress would be held in the Auditorium. Clinton N. Howard, of Rochester, N. Y., considered one of the greatest platform speakers in the United States, would be present and make several addresses. Mr. Amos said that John St. Johns might attend this congress. He said some of the or-ganizations had selected their days, and the temperance congress promised to be one of the greatest features of the Ex-position. The Sunday following the congress there would be some appropriate programme. Following the address of Clinton N. Howard, on W. C. T. Policeman Ole Nelson placed Special Ofcer Mott under arrest at Fifth and Washington streets at 5 o'clock yesterday afternoon, for no reason except that R. W. No arrests have been made in any of cases, except in the Corner saloon hold-up, and even the police declare the prisoners innocent in that instance. This list does not include the numerous burglaries and larcenies reported daily.

Although spurned to some activity by the attitude assumed by Chief of Police Gritzmacher, the detective staff has as yet failed to arrest any criminkle who have been perpetrating bunco tricks, hold-ups and such crimes as the snatching of a purse containing \$450 from Mrs. Louis Wert in broad daylight Monday morning, directly at the door of the Merchants National Bank.

Claims are made that many racetrack touts and hangers on have been rounded up and made to leave the city, but out of the entire bunch the detectives have been unable to find any man who was connected with the carnival of crime that has been raging since Au-

Three hunco tricks have been turned since August 1, the last one netting the perpetrators \$400 in shining gold, but Detective Day, who is personally equainted with all of the bunco men has made no arrests as yet. Noither have other members of the staff. In fact. Day and his colleagues have been declaring all the time that there were no bunco men in the city, but Chief Gritzmacher's order of Monday night knocked the props from under their position.

Joe Day and others of the detective staff have been arguing that there is no means of ridding the city of racetrack touts, festive bunco men and grafters, claiming they have no right to bring them in without charges and some evi-dence. Chief Gritzmacher, however, disagrees with Day on this point, for in his order he said:

"It behooves the police to take very stringent measures to rid the city of this very undesirable class of people, such as touts and 'cappers' for the races. Have the officers get a line on them, and see that they leave the city.

Detective Day Is Slow.

Detective Day and his brothers of the staff never made a move until after publication in The Oregonian of a list of bunco men, with their allases and descriptions. Among the list were Scotch Alec, The Palo Alto Kid and The Plunger. These three were "arrested" by Day afterwards, and charged with vagrancy. When brought into the Municipal Court, Day and every detective on the staff took the stand and swore they knew nothing against the characters of the prisoners, and all were re-

BACK TO PULPIT

What Food Did for a Clergyman.

A minister of Elisabethtown tells how Grape-Nuts food brought him back to his pulpit: "Some i years ago I had an attack of what seemed to be Lagrippe which left me in a complete state of col-lapse and I suffered for some time with nervous prostration. My appetitic failed, I lost flesh till I was a mere skeleton, life was a burden to me, I lost interest in everything and in almost everybody save my precious wife.

Then on the recommendation of some friends I began to use Grape-Nuts food.

At that time I was a miserable skeleton without appetite and hardly able to walk across the room; had ugly dreams at night, no disposition to entertain or be entertained and began to shun society. "I finally gave up the regularly minis-ry, indeed I could not collect my thoughts on any subject, and became almost a hermit. After I had been using the Grape-Nuts food for a short while I discovered that I was taking on new life and my appetite began to improve; I began to sleep better and my weight in-creased steadily; I had lost some 50 pounds, but under the new food regime have regained almost my former weight and have greatly improved in every way.

Pain in the Head

Is a danger signal, warning you that the brain nerves are exhausted-irritated, and are undergoing an unnatural strain.

Frequent and prolonged attacks of pain weaken the generative power of the nerve cells of the brain, and lead to loss of memory, melancholy, spasms, epilepsy, and frequently insanity.

When the brain nerves are weakened they are unable to supply sufficient nerve force to the nerves that control the lungs, heart, stomach and other organs, and these organs are thus robbed of energy, and unable to meet the demands upon them, and they get sick.

Stop the head pains with Dr. Miles' Anti-Pain Pills, and the influence upon your general health will be greater than you can realize.

"I want to tell you how thankful I am for Dr. Miles" Anti-Pain Pills. From a child I have been subject to sick headache, and never found any lasting relief until I received a sample of Dr. Miles" Anti-Pain Pills while in Geneva six years ago. By taking on it usually throws off my pain, so can go about my home duties."
