

IS CITY OF SORROW

Death of the Archbishop Depresses New Orleans.

MANY NEW CASES OF FEVER

Whole City Devotes Day to Cleaning Up—Violators of Sanitary Laws Will Be Prosecuted—More Scattered Cases.

YELLOW FEVER RECORD TO 6 P. M., AUGUST 9.

New cases	63
Total cases to date	670
Deaths	7
Total deaths to date	119
Total subject to quarantine	130
Cases under treatment	205

NEW ORLEANS, Aug. 9.—This was the first day since the fever appeared here in which there was any apparent depression in the community, and there are two reasons for it. One was the death of Archbishop Chapelle, who succumbed to an attack of the prevailing illness, and the other was the general closing of stores in accordance with the Mayor's proclamation urging everybody in the city to devote today to general house-cleaning. While the death of the distinguished prelate is deplored, because of the loss which the community sustains, it is also regretted because of the effect it will have upon the outside world. It is feared that it will cause the belief to spread that conditions here are really much worse than they are.

The records are now being issued under the auspices of the Marine Hospital Service, which vouches for their correctness. Quite a number of the new cases are in general proximity to existing foci, indicating secondary infection. The new subject are evenly divided, six being above and six below Canal street. One is in a hotel, and the patient is a well-known citizen. In the death list, all but one of the names indicate foreign origin, showing no variation from the preceding records.

Federal Control is Effective.

Today's record of cases was again large, and there was an increase in the number of deaths. The new cases are swelling largely as a result of the vim and energy which Federal control of the situation has inspired, from a gradual overcoming of the disinclination of some of the doctors to make known their cases. The overwhelming majority of the new cases are concentrated below Canal street, and the disease has nowhere got a firm hold above.

Surgeon White returned today from his visit to Elkhart, and, after taking up the threads of his work, went down into the originally infected district to survey the conditions there. He also visited the emergency hospital, which has been opened today by the Marine Hospital Service. Dr. White has practically completed his plan of action.

Enforce Sanitary Laws.

It was announced at Dr. Warner's today that action would be taken against property-holders and tenants who are unwilling to acquiesce in the sanitary and other precautions recommended by the health authorities. House-to-house inspections are to be instituted, and affidavits are to be prepared against those who are shown to have been derelict.

Actual Control of the Sanitary Work.

Dr. Gessner being placed in immediate charge. The situation in Mississippi is not so favorable today. Suspicious sickness was reported at Yazoo City and Holly Springs. Governor Blanchard has announced an appeal for assistance from Hon. Am. L., where two cases have been reported.

Breaking Local Quarantines.

The Southern Pacific has resumed its train service, which was interrupted by the refusal of authorities of Calcasieu Parish to allow trains to pass through. The trains, however, are screened, and the crews changed when the limits of the parish are reached. The Southern Railway has discontinued its through service between Memphis and Washington. Passenger traffic has been practically stopped on the railroads entering Western Tennessee.

MOSQUITOES AMONG BANANAS

Illinois Shuts Them Out Lest They Bring Disease. CAIRO, Ill., Aug. 9.—A ban was placed on banana messengers today in quarantine against yellow fever by Secretary Egan, of the State Board of Health. Word was sent to the Illinois Central and Mobile & Ohio railroads that banana messengers from Southern points or yellow fever regions could not enter Southern Illinois.

Banana Trains at Present Will be Allowed to Run through Southern Illinois without Stopping.

On examination, the banana cars have shown the presence of mosquitoes. Vera Cruz Defeats Plague. MEXICO CITY, Aug. 9.—The case of yellow fever at Coahuila is now cured and the patient discharged. There are five cases at Vera Cruz and all are thoroughly isolated. The Superior Board of Health is convinced that under the system of fighting mosquitoes and isolating the cases occurring, the yellow fever can be kept far below epidemic limit.

No Yellow Fever at Callao.

CALLAO, Peru, Aug. 9.—Ten physicians in consultation made an examination today of the two cases of fever discovered here yesterday, one of them on the steamer Palena from Panama, and declared them to be acute paludic fever, and not yellow fever.

HOPES OF PEACE SMALLER

(Continued From Page 1.) It is his opinion that, when the proper time comes to strike, Oyama will do so. Narikazu Makino, who was secretary of the Japanese Association at St. Louis, and Petero Chuzaburo Daito, who has been studying for the ministry at Philadelphia, stated this evening that Oyama considers Linievitch a more formidable foe than Kuropatkin, and that he will not strike until he is certain of victory, and that when the fight begins the Japanese will not stop until they have annihilated the Slav army. They do not think that Oyama is lying on his arms pending an outcome of the peace negotiations.

Russian Naval Adviser on Hand.

BOSTON, Aug. 9.—Commander A. Rousine, former naval attaché of the Russian Legation at Tokio, and more recently chief naval adviser of General Linievitch, passed through

JAPANESE TURN HIS FLANKS

Linievitch Admits Getting Worse of One Engagement.

ST. PETERSBURG, Aug. 9.—General Linievitch, in a telegram to the Emperor, dated August 8, reports that the Russian forces operating to the eastward of the Mandarin Road advanced August 5 toward a defile near the village of Chagon, 24 miles south of Tashu. The Japanese assumed the offensive and turned both flanks, compelling the Russians to retreat to the northward.

The Japanese followed in pursuit, and again encountered part of the Russian force, which had halted in Nadolin gorge, but after a hot fusillade they returned to the southward. The Russians in the Hai Lung Cheng district, the General says, occupied the village of Yulungtie after a skirmish.

WILL TRY UTMOST FOR PEACE

Czar's Instructions to Witte Show Earnest Desire.

PARIS, Aug. 9.—The correspondent of the Echo de Paris at St. Petersburg says that Emperor Nicholas has instructed Mr. Witte to use the utmost endeavors to obtain peace, and that he had empowered Mr. Witte not merely to transmit the Japanese conditions to the Emperor, but to discuss and try to ameliorate them. Meanwhile Russia, owing to the uncertainty as to whether the conditions will be acceptable, continues to prepare to carry on the war vigorously.

Talks of His Rank, Not Peace.

NEW YORK, Aug. 9.—Commander Rousine, an attaché of the Russian Peace Commission, who arrived here last night after a trip of 27 days from Manchuria, chatted freely about his trip, but when he was asked what the chances for peace might be he threw up his hands, saying: "I don't know, but I must look for my trunk." He is a good friend of Baron Komura, and knew him in Japan when I was there as the naval attaché of the Russian Legation. I dined many times with the Baron during my four years at the Legation, and he is a very pleasant man when the war began.

Jews May Petition Witte.

NEW YORK, Aug. 9.—The presence in America of Sergius Witte, the Russian peace envoy, is responsible for a lively discussion among the Jews of the East Side. Many of whom favor sending a delegation to Mr. Witte with an appeal for the amelioration of their brethren's condition in Russia. Those with revolutionary ideas are stoutly opposed to the idea, and the plan has thus far taken no definite shape. The Yiddish newspapers have taken up the discussion. One of them is inviting the votes of its readers to settle the question.

GREAT NAVAL SPECTACLE

BRITISH AND FRENCH FLEETS REVIEWED BY KING.

Nelson's Flagship Salutes Nation He Vanquished—German Vessel Watches at Close Range.

PORTSMOUTH, England, Aug. 9.—King Edward celebrated the anniversary of his coronation by reviewing the combined French and British fleets, aggregating some 20 ships. As a spectacle, the event was somewhat marred by gloomy and showery weather.

Review lasted an hour, then the royal yacht Victoria and Albert returned to her moorings. Later the King proceeded to the battleship Massena, the French flagship, where he was the guest of Vice-Admiral Caillaud at luncheon. The Princess of Wales and Duke of Connaught accompanied His Majesty. The French fleet then weighed anchor and entered Portsmouth harbor.

As the Frenchmen passed in, Nelson's flagship, the Victoria, from the peak of which the tricolor was flying, saluted them in turn, while bands massed on her deck played the "Marseillaise." The Frenchmen replied to the salutes of the Victoria.

As soon as the ships were docked, the civil and military officials paid formal calls on them, which were later returned by the French officers. Portsmouth is brilliantly decorated, and cheering crowds greet the visitors on every hand.

The presence of a torpedoboot destroyer flying the German flag between the columns of ships at the conclusion of the King's review has caused some comment. It is learned, however, that she had come from Kiel to tow back Emperor William's yacht Meteor, which had been undergoing repairs at Portsmouth.

The French public men banqueting at the naval barracks, were banqueted by the Prince of Wales, Admiral Caillaud and Admiral Sir John Fisher. Toasts to President Loubet and the Prince of Wales were enthusiastically honored.

REFUND THE BULGARIAN DEBT

Ferdinand's Scheme to Increase His Influence in England.

SOFIA, Aug. 9.—(Special.)—Prince Ferdinand is negotiating with English capitalists to assume the consolidated debt of Bulgaria, amounting to 110,000,000 francs. The debt is now held by various persons, and all transactions connected with it take place through French and German banks in Sofia. The interest amounts between 5 and 6 per cent, and Ferdinand hopes to get it reduced to 4 per cent, thus saving the country an annual charge of 12,000,000 francs. The Prince also has a political object in view, as he thinks that with 100,000,000 francs of English money tied up in Bulgaria, his diplomatic agent in London would have more influence with the British Foreign Office than he has at present, and hence Ferdinand would have a much stronger position in Europe.

Bulgars believe that when Russia is reconstituted, the governments at St. Petersburg, Paris and London will form an understanding having all the force of an alliance, and that whatever states stand well with this combination will have little to fear from any quarter.

Servia is actuated by similar feeling in seeking to enlist English capital in building up and arming King Peter's army.

SEPARATED FROM MAUDE.

Major McBride Obtains Freedom From Irish Joins of Arc.

PARIS, Aug. 10.—The Civil Tribunal of the Seine today pronounced a judicial separation in the case of Major John McBride, who was a prominent member of the Irish Brigade of the Boer Army, in the South African War, and his wife, formerly Maude Gonne, the well-known agitator, who has been called the Irish "Joan of Arc."

Mrs. McBride retains the custody of the children, whom the Major will be allowed to visit periodically. The question of an absolute divorce will be heard at a future sitting.

DEAD AT HIS POST

Archbishop Chapelle Succumbs to Yellow Fever.

NEW ORLEANS IN MOURNING

Had Returned From Tour of Diocese to Fight Plague When It Struck Him Down—Solemn Funeral Today.

NEW ORLEANS, Aug. 9.—A sudden change in his condition today speedily culminated in the death of Archbishop P. L. Chapelle, of the Diocese of Louisiana. The end came at 12:30 P. M. The news of the archbishop's death created a profound shock. Monseigneur Chapelle was taken ill with the fever on Friday. He had returned to the city three days before, having just completed a tour of Louisiana, and announced his intention of helping to stamp out the fever. The archbishop, however, left his house on only one occasion before he was taken sick.

On Friday he complained of the symptoms which are the forerunners of yellow fever. Dr. Larue, the archbishop's physician, on Friday diagnosed the case as one of genuine yellow fever. From the first he was apprehensive as to results. Archbishop Chapelle was very stout of build, full-blooded and past 60 years of age, and the fever is always alarming in a patient under those conditions.

The disease made steady inroads upon the venerable patient and early today he showed signs of increasing weakness. Before noon there was an alarming change for the worst. Eminent physicians were immediately summoned for consultation, but the archbishop was beyond succor.

The body of the archbishop was transferred at 5 o'clock from his residence at Esplanade avenue to St. Louis Cathedral, where it is lying in state. The obsequies will take place at 10 o'clock tomorrow morning at the cathedral. A Gregorian requiem high mass will be sung, every member of the Catholic clergy participating. The body will be interred in the crypts of the cathedral. The body of the archbishop was transferred at 5 o'clock from his residence at Esplanade avenue to St. Louis Cathedral, where it is lying in state. The obsequies will take place at 10 o'clock tomorrow morning at the cathedral. A Gregorian requiem high mass will be sung, every member of the Catholic clergy participating. The body will be interred in the crypts of the cathedral.

PHYSIQUE WAS AGAINST HIM

Chapelle's Death Attributed to Stomach and Fatigue Combined.

NEW ORLEANS, Aug. 9.—Public interest in the general yellow fever situation suffered a temporary eclipse today in the unexpected death of Archbishop Chapelle, the most distinguished victim of the disease. Although the venerable prelate was a subject of scientific treatment and had the most assiduous attention, his physique always counted heavily against him. In the opinion of both the laity and the physicians, while his fatigued condition on his return from a particularly irksome trip through the country also was against him. His death, therefore, while generally deplored, is not considered to negative the opinion of the medical fraternity that, with good care and proper treatment, the mortality is unlikely to be heavy during the present visitation.

What has been considered remarkable is that the archbishop should have contracted the disease so quickly after his arrival, though he had spent many of the latter years of his life in Cuba and Porto Rico, in both of which countries the disease is epidemic, and he had never having contracted it. Among the scientific men there is little doubt that the archbishop fell a victim to a mosquito during a brief visit he paid to the old archbishop's residence on the city street, or insect which found its way into his residence, which is not far from the territory within which there has been infection.

CAREER OF DEAD PRELATE

Renowned as Pastor and Settled Friar Question in Philippines.

Right Reverend Placide Louis Chapelle, apostolic delegate for Cuba and Porto Rico, was one of the best-known Catholic prelates in the United States. He had taken a prominent part in the life of the church, both here and in the Philippines, where he settled the dispute between the friars and the United States officials, and secured the return of the islands. He was born in the diocese of Mende, France, in 1842, and came to the United States in 1868. He took a complete theological and philosophical course at Mary's College, and taught in St. Charles College from 1862 to 1865. In the latter year he was ordained a priest, and announced that he would devote his time to missionary work. In 1868 St. Mary's College conferred the degree of Doctor of Divinity upon him.

In 1870 the young priest was called to the assistant pastorate of St. John's Church, in Baltimore, and his work was so remarkable that within the year he was made pastor of the church, which, under his direction, prospered greatly. Later he was transferred to St. Joseph's Church, where he continued his good work. In 1882 he became pastor of St. Mary's Church, and in 1885 he was appointed a prominent part in the religious life of the city, being renowned as a leading theologian. In 1891 he was chosen coadjutor bishop of the diocese of Santa Fe, with right of succession, and consequently titular bishop of Arbilus.

In 1891 Archbishop Chapelle was made bishop coadjutor of Santa Fe, and became Archbishop of that diocese in 1894. Three years later, on the death of Archbishop Janssens, he was named as Archbishop of New Orleans. The year following was taken out by account probably for all the victims in a surprise to Albanians, who until this afternoon expected that at least a dozen more mangled forms were buried beneath the ruins. So sure are the wreckers that no more bodies are here that they have suspended their search.

Twelve dead bodies, many of them mangled beyond recognition, have been taken from the ruins and one woman died after being carried to the hospital. The known dead, all employees, are: Mary McAvoy, died at hospital; Anna Cashman, Theresa Spannbauer, Ella

Economy

Is a strong point with Hood's Sarsaparilla. A bottle lasts longer and does more good than any other. It is the only medicine of which can truly be said 100 DOSES ONE DOLLAR

THIS IS REAL PAU-SELLING

A Record of Nearly Three Carloads in Three Days.

ELLERS PIANO HOUSE ESTABLISHES A LIST OF BUYERS AND WHAT THEY BOUGHT—A NEW MIDSUMMER RECORD—ASTONISHINGLY LOW SALE PRICES, COMBINED WITH INSTRUMENTS OF HIGHEST QUALITY ACCOMPLISH THE RESULT—NUMEROUS BARGAINS STILL TO BE HAD.

When we announced details of our "pauselling" sale of used pianos in last Sunday's Oregonian, we knew that the instruments advertised, at the extraordinarily low prices at which we were willing to sacrifice them, would bring out an army of piano buyers. Of course in addition to these numerous purchasers, a large number of the sales made during the past few days were brand-new instruments on which also, as has been previously announced, prices have been very materially reduced in order to make this world's fair exhibition and buyers ours an overwhelming success.

During the past three days no less than 250 instruments have been purchased at Ellers Piano House, retail department at 231 Washington street, and we are now publishing below a list of purchasers and also a brief mention of the kind of instrument secured. We are inclined to think that this three days' record is the biggest midsommer certain it is that, coming as it does, at a season of the year, when the musical instrument business is considered practically dormant, it speaks volumes for the truly wonderful values we are able to present to shrewd buyers out at this time.

To commence with, Mr. Leo Cramer, of far-away Halley, Idaho, who has been visiting the Fair with his family, secured one of those wonderful Aeolian orchestras, the 1800 style, of which we have sold now altogether 12 instruments to the homes of wealth and culture.

Mr. J. A. Reuter, of The Dalles, purchased one of the most costly special exhibition styles of the Aeolian piano (Chippendale design), made up in very beautifully dappled English walnut case. Another such piano was purchased by A. V. Botkin, still another by Mr. Kimball, who secured a fine Kimball self-playing organ. One of the fancy Kimball exhibition style in rosewood case, was purchased by Mr. J. A. Reuter, who secured a fine Kimball self-playing organ. One of the fancy Kimball exhibition style in rosewood case, was purchased by Mr. J. A. Reuter, who secured a fine Kimball self-playing organ.

Another Idaho visitor, Mrs. George Swartz, secured a beautiful Chickering upright, and Mr. P. Peterson, of Lantz, Or., picked out one of the three Vose pianos advertised at our place.

A Hardman piano was selected by Mr. T. L. Simmons, and Miss E. M. Dyer purchased a beautiful Chickering upright piano—the smallest regular upright piano made, and specially adapted for Pullman travel. A fine piano was selected by Mrs. M. M. Patton, Mr. C. O. Hudson, of Eugene, dropped in and selected a fine new piano, and a few moments later Mr. Charles E. Brown made his selection of a magnificent Chickering upright piano, secured by Rev. C. J. Beyerlein, of Albany, Or., and a specially selected exhibition style Chickering upright was purchased by Mrs. Charlotte Anderson, recently from Dakota, who has decided to make her home in our fair city.

Another metropolitan pianola was purchased by Mr. and Mrs. H. F. French, Miss Sylvia secured a Hobart M. Cable piano, and one of those elaborate sample Krell French pianos, that have received so much praise and admiration of late in our special display, was purchased by Mr. L. S. Ross, for his new home. A very choice little baby Weber upright was secured by Mr. C. D. Walter, and Mrs. Anna S. Murry secured a nearly new Kinsbury upright piano.

One of the peerless electric pianos, exhibited at the World's Fair, under the name of "The Electric Piano," and sold only by Ellers Piano House, was purchased by Mr. O. R. Anderson, of Spokane, Wash., and a beautiful Chickering upright piano was selected by Mrs. C. J. Beyerlein, of Albany, Or., and a specially selected exhibition style Chickering upright was purchased by Mrs. Charlotte Anderson, recently from Dakota, who has decided to make her home in our fair city.

Out of the large number of choice early-new pianos advertised in our announcements during the past few days, there is still on hand quite an assortment, and a number of additional pianos will be brought out during our factory today, where the cases of a number of them have been carefully repolished, and the instruments thoroughly regulated and adjusted, so as to make each one of these instruments thoroughly dependable. See the list on page 2 of this issue under the heading "Must Find Homes Somewhere Quickly."

DEAD NUMBER THIRTEEN

ALL BODIES RECOVERED FROM WRECKED STORE.

Mayor of Albany Will Have Disaster Investigated by Special Commission to Place Blame.

ALBANY, N. Y., Aug. 9.—The collapse of the John G. Myers Company department store yesterday, which resulted in the death of 13 persons and probably the fatal injury of two others, will be investigated by a special commission. To avoid the possibility of a prejudiced inquiry, Mayor Gaus decided that all the investigators shall be out-of-town men.

The discovery that the 13 bodies already taken out will account probably for all the victims in a surprise to Albanians, who until this afternoon expected that at least a dozen more mangled forms were buried beneath the ruins. So sure are the wreckers that no more bodies are here that they have suspended their search.

Twelve dead bodies, many of them mangled beyond recognition, have been taken from the ruins and one woman died after being carried to the hospital. The known dead, all employees, are: Mary McAvoy, died at hospital; Anna Cashman, Theresa Spannbauer, Ella

Lipman, Wolfe & Co.

MONEY-SAVING SALE OF LACES AND EMBROIDERIES

Lace and Embroidery Sales are not expected in August, but chance brought to us a splendid lot. The price was low—we couldn't resist, nor can you when you see the goods and prices together.

Sprinks, Grace Berner, Helen Malone, John E. Powers, cashboy. The injured in the hospitals are doing well, with two exceptions. Miss Ella Donohue, one of the first survivors to be taken out of the wreck, suffered a fractured spine and cannot live. Mrs. Ernest Windom, Miss, who was one of the few shoppers injured, is also reported to be in a critical condition. She had been visiting Mrs. Richard T. Brass, wife of a well-known attorney. The two were out on an early shopping tour.

Mayor Gaus, Chief Higgins, of the Fire Department, and Commissioner Cantine, of the Department of Public Safety, believe that the accident was caused directly by workmen excavating beneath the basement floor, who undermined one of the key brick piers in the center of the building, and their belief is generally shared. Mayor Gaus said today: "Every guilty person will be prosecuted as soon as we have placed the responsibility for this disaster, which is the worst of its kind that has ever befallen the city."
