It wasn't Mike Mitchell's fault that the Giants did not annex yesterday's matinee. It was because those Loo Loos fell upon Dr. Corbett's mixtures and biffed them to the four winds of the heavens, and because there were a few ghastly errors tossed into the engagement. The long man with the short name. Tozer, had the Indian sign on the locals, and but for the beautiful wallop that Mitchell gave the Spalding in the sixth canto, Portland would have finished as free of runs as a frog is

of feathers.

Before Portland annexed its three runs. Los Angeles had garnered four. It added one more in the eighth, mak-ing a total of five, while the best the Giants could do was the lonely three that Mitchell's home run over the right garden wall brought in. Atz had sin-gled and Tozer had breezed Van Buren to first, and Mitchell, who walks on his dinky underpinning like a spavined horse, ambied to the plate. Tozer shot enough over to have three balls and two strikes on the ruddy-faced first-Then something happened. Toxer and Heiny Spies got their signal code mixed, and Toxer passed up a high Biff! Out over the fence sailed the ball, and unless it was stopped, it is in Washington County.

No sooner had the bases been cleared No sooner had the bases been cleared than Captain Dillon made a hot-foot for the pitchers' box. Spies followed sult, and after a gabfest of several seconds, Spies tossed his mask into the dust and indulged in his well-known stunt, "swearing at his captain." Exit Spies, enter Larry Latham Eager. This was a lovely piece of strategy and it gave Tozer time to get back to earth. In spite of the fact that the faithfuls present thought on account of the internal row that the Angels would go up in the air, there was nothing doing.

in the air, there was nothing doing.

Jakey Atz gave one of his rapid-fire doubles, and Brashear got credit for the same kind of a play. The score ells the rest:

FIRST FIXTURES OF SEASON

Agincourt and Coulsdon Will Come to Portland From the Orient for Grain-Kobe Will Be

Their Destination.

The first charters for 1905 grain-crop loading at Portland were announced yesterday. The vessels taken are the British steamships Agincourt and Coulsdon, both new to this Coast. The charterers are Mitsul & Co., the Japanese importers. The stexners will take their cargoes to Kobe, and it is understood their freight will consist of barley for Japanese government use.

The first of the two expected is the Coulsdon, which was last reported at Singapore, a month ago, about to leave for Hongkong and this side. She went to the Orient from New York by way of Aden, taking cargo at the latter port. She is a vessel of 2772 tons net. The Agincourt is only four tons smaller in size. She sailed from Philadelphia June 4 with a cargo of oil for Hankow. and was reported as arriving at Colom-bo prior to July 17. It remains to be seen what effect the

nyasion of the field of the regular liners by tramp vessels will have. It is reported that the two steamers were secured at a rate of \$4 and \$4.25. The established companies, at the request of shippers, reduced the flour rate to \$4 on condition that the exporters would not engage outside vessels, but made no alteration in the rate on other commodities. The new flour rate has not yet stimulated business for this month's shipment, and the Nicomedia. which will sail early next week, will probably go out with a light cargo. Better freight offerings have been made

No fixtures of sailing ships for grain Washington 4-4, St. Louis 1-5.

WASHINGTON, Aug. 11.—Washington have the wheat in hand. It is a fore-

> find it out, and, knowing that we must have the grain, would put the price up on us. That is what they have done in past years. There wasn't a cargo put afloat last season that didn't mean a loss of \$10,000 to the shipper. 5 9 2 up on us. This year we will get the wheat before we arrange for the transportation." It is likely that when the exporters get ready they will look about for steam rather than sail tonnage. Steam vessels will fill the requirements better in every way, and besides the export-ers will have the satsifaction of getting even with the shipowners' combine that had something to do with that \$10,000 loss last year. There is a fairsized fleet of sailing vessels now on the way to this port, with a carrying capacity of some 54,000 tons of wheat. but additions to the fleet are slow. A letter was received yesterday by F. C. Hageman, who has recently gone into the ship chandlery business, from Jessomene, now at Port Los Angeles, stating that the vessel had been or-dered to Royal Roads, and probably would eventually turn up at Portland for a grain cargo. The ship has been at the Southern port since June 20. She brought a cargo of coal there from

Newcastle, N. S. W. PORTLAND-GRAY'S HARBOR RUN

Mayor Lindstrom Anxious to Have Another Steamer Put On.

ABERDEEN, Wash., Aug. IL-(Special.) -Mayor John Lindstrom, of this city, is anxious to have a steamer line estab-lished between Gray's Harbor and Portland. He regrets that the steamer Toledo proved so great a failure. Mr. Lindstrom did not see the craft before she came here but accepted the statements of her owners that she was new and staunch and good for the purposes to which she was to be put. She has taken off the route without notice to him, yet had proved during her brief career that a service between the two harbors would pay. While sorry to have missed the traffic of the Lewis and Clark Fair Mr. Lindstrom says he is now willing to co-operate with the business men of Port-land in getting another boat, one that will be worthy of the trade. He will either take stock in a boat to be purchased or to be built and says he knows that the boat will pay, as he has the assurance of all the business men of Hoquiam that they will sign contracts to order all

they will sign contracts to order all freight sent by the boat if one is put on the route and believes there will be no difficulty in getting the business men of Aberdeen to do the same thing.

The Gray's Harbor people have always been friendly to Portland. In fact they regard Portland as more in sympathy with their interests than the people of either Tacoma or Seattle and especially Seattle, which has never shown any interest in any locality outside of its own environment.

AT MERCY OF HURRICANE.

Trans-Atlantic Liner Drifts 24 Hours Before a Storm.

NEW YORK, Aug. 11 .- Por 24 hours the Hamburg-American liner Graf Waldersee drifted at the mercy of a hurricane which struck her during the trans-Atlatic voy-age which the steamship finished today in safety. On arrival at their pier today, only about 12 hours late, the passengers held a reception to thank Captain A. Krech for bringing them safely through the greatest storm experienced in the history of the Graf Waldersee, and probably one of the worst ever faced by an Atlantic liner. The storm began in the morning of Au-

gust 2. A few hours later the waves were rolling over the ship, all passengers were locked beneath decks and bags of oil were bung over the ship's sides for % hours has a protection. During 24 hours the waves ran so high that the steering gear of the liner was inadequate to keep her in her course, and the ship practically drifted with the storm. Some lifeboats and decks of the upper structure were carried overboard by the waves.

At the height of the storm a baby was born in the steerage and named after the born in the steerage and named after the

Tricolor May Be Floated.

EUREKA Cal., Aug. II.—Shipping men are now hopeful that the Norwegian steamer Tricolor, stranded on the Mendocino Coast, can be successfully floated. That such is their view is indicated by advertisements sent out from San Francisco, stating that bids will be received for the Surpose of making the attempt. Re-

muneration will be based on a percentage of the value recovered. Captain Metcaif, representing the underwriters, and Cap-tain Dickney, an Oakland shipbuilder, visited the wreck the other day and found

Not a Filibuster.

NEW YORK, Aug. 11.-The Clyde Line steamer Seminole, which was de-layed at Santo Domingo under an \$8000 embargo on suspicion of carrying a cargo of cariridges, arrived here today. Captain Marmion said that no arms nor ammuni-tion had been found on his ship.

Roanoke Burned at Noumea SAN FRANCISCO, Aug. II.—News has been received here that the American ship Roanoke was burned to the water's edge at Noumea, near Caledonia, while loading nickel oar for Philadelphia.

Marine Notes.

The ferry Lionel R. Webster was inspected yesterday.

The steamer Tottenham will not go up to the Portland Lumber Company's mill until Monday, as there is no berth for her there. She will probably be docked at Oceanic today to get her out of the way

of passing chips. Harbormaster Biglin has been instructed by Mayor Lane to notify all steamboat owners that racing will not be permitted in the harbor limits. Captain Scott, owner of the Telegraph, will be one that will receive the notification.

An ordinance has been prepared for in-troduction at the next Council meeting that will require life-saving apparatus on all boats of less than 15 tons burden that carry passengers. The Federal laws require such equipment of boats of 15 tons

Domestic and Foreign Ports.

ASTORIA, Aug. 11.—Condition of the bar at S.P. M., smooth; wind northwest, weather cloudy. Left up at 4 A. M.—American bark Star of Bengal. Arrived at 5 and left up at 8 A. M.—Steamer Roanoke, from Port Los Angeles and coast porta. Arrived at 7 P. M.—Steamer Eimore, from Tillamook. San Francisco. Aug. 11.—Salled last night.—Steamer Despatch, for Portland, and steamer Aberdeen, for Astoria and Gray's Harbor. Arrived—Steamer Meteor, from Seattle. Salled—Steamer Inqua, for Gray's Harbor; steamer Chehalls, for Gray's Harbor; steamer Chehalls, for Gray's Harbor.

RUHLIN LANDS SHORT ARMS IN THE EIGHTEENTH.

Big Fellows Give a Very Poor Exhibition Before Big Crowd at Colma.

COLMA, Cal., Aug. 11.-About 2000 spor enthusiasts came to Coima this evening to witness the scheduled 25-round go between the two big fellows, Gus Ruhlin, the Akron giant, and Jim McCormick. Mc-Cormick was knocked out in the 18th round of one of the poorest contests ever witnessed in this ring.

Both men were very slow and did not show to advantage at any stage of the game. The bout all through consisted mainly of sparring and clinching. Very few effective blows were struck at any

14th round. After that time McCormick was at the mercy of the Akron boy, but the latter did not have the force to his blow necessary to wind matters up until the 18th. In this round Ruhlin landed a succession of short-arm blows to the body and jaw. McCormick went down for the count of eight, but on getting up was floored again with a left to the jaw and was counted but.

EGAN AND SAWYER SURVIVE

Sensational Golf Brings Championship Tournament to Finals.

CHICAGO, III. Aug. 11.-After a day of the most sensational golf ever seen in National tournament, Champion H. Egan and D. E. Sawyer survive to play finals over 36 holes at the Wheaton

links tomorrow. Egan gained the right to defend his medal by going through the third and semi-final rounds like a marvel, putting out Fred Herreshoff in the morning, two up and one to play, which was not quite as easy a game as he had with this young New Yorker in the National finals last year at Baltusrol. After defeating Her-reshoff. Egan in the afternoon removed Harold Weber, of Toledo, by the crushing score of seven up and five to play. It was left for the other side of the draw to furnish the greatest blow to the East when W. C. Fownes, Jr., of Pitts-burg, eliminated ex-National and British Champion Walter J. Travis in a hard battle that was lost only at the 19th hole. In the afternoon Mr. Fownes was un-

able to meet successfully the great golf put up by Ned Sawyer, and was defeated by two up. Will Play Ball Game.

Baseball for the benefit of the Baby's Home will be played this afternoon at Multnomah field, commencing at 2 o'clock, by the forces of the Sheriff's and Assensor's offices. Both Sheriff's and As-sensor's offices. Both Sheriff Word and Assessor Sigler are booked to play. A good game and large attendance is prom-ised.

Tennis at Irvington.

The new clubhouse of the Irvingtor Tennis Club is rapidly approaching com pletion. Minor changes are being made in the courts, two of them being widened about six feet for tournament play. The
